EXECUTIVE SUMMARY

This report provides the list of certificates required by the government inspectors in charge of controlling food and agricultural imports into Morocco.

At the points of entry, the sanitary control and the conformity with the local regulation for food and agricultural products is carried out primarily by the Ministry of Agriculture inspectors. In major ports (Casablanca, Agadir, and Tanger), the importer deals with one Ministry of Agriculture office, the DCQ (Direction de Controle de la Qualité) and the dispatch of the importation documents is done internally depending of the type of product (animal, plant, raw, or processed).

Typically, the clearing process by DCQ inspectors consists of up to three major steps based on the familiarity with commodity, importer's experience, and origin:

- a) The inspector clears the commodity by merely checking the documents provided.
- b) The inspector might require physical inspection of the imported commodity before clearance.
- c) The inspector might require that samples of the imported goods be drawn and sent to local GOM approved laboratory for analysis.

DCQ inspectors issue a certificate that authorizes the importer to clear customs. Customs officers will not authorize the goods into the country without a certificate issued at the point of entry by the DCQ inspectors.

In order to help DCQ inspector make a quick decision and not request laboratory analysis and especially for the newly imported products, the exporter should provide extensive documentation (description of the products, lab analysis result, certification of approval by the government of the exporting country, etc.). Some importers send samples of newly imported products to the DCQ office before they ship the products to get a feel of what would be required to swiftly clear customs.

Normally, it takes less than a week to clear products through customs. If a sample of food is taken for laboratory analysis, the customs clearance may be delayed up to 8 days.

In addition, the certificates that are typically required by customs office are:

- Bill of lading
- Original invoice
- Packing List
- Certificate issued by the Ministry of Agriculture DCQ that the commodity has been inspected and passed the sanitary control.
- Certificate of Origin. Although under the upcoming FTA with the US the certificate of origin will not be requested and the origin will be determined by the importer's declaration and accompanying documents (invoice, bill of lading, etc..)

I. Certificates Required When Exporting food and Agricultural Products to Morocco

| Product(s) | Title of Certificate | Attestation Required on the Certificate | Purpose | Requesting Ministry |
|------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|
| Non Animal Origin Processed Food Products | "Certificate of Conformity" or "Certificate of Lab Analysis" | Chemical and Physical Laboratory Analysis Results of the Product. Product is suitable for food use. | Products content conforms to what is on the label. Especially useful for the first shipments. Detailed analysis is likely to prevent requirement by inspectors of local laboratory testing. | Ministry of Agriculture, Fraud Repression Division |
| Processed Food Products Containing some animal origin products (except beef) | Certificate of free sale issued at State level where the product was manufactured | See model certificate # 1 developed by USDA and Ministry of Agriculture | Manufacturer is inspected periodically and is in substantial compliance with current good manufacturing practices and relevant FDA requirements | Ministry of Agriculture Livestock Division |
| Food for Special use (Health food, diet food, food supplements, etc..) | "Certificate of Conformity or Certificate of Lab Analysis" | Chemical and Physical Laboratory Analysis Results of the Product. | Products content is conform to what is on the label. Especially useful for the first shipments. Detailed analysis is likely to prevent requirement by inspectors of local laboratory testing. | Ministry of Agriculture Fraud Repression Office |
| | Registration Certificate delivered by the Moroccan Ministry of Health | Evidence that the product has been approved and registered before the Moroccan Ministry of Health. | | Customs Office |
| Plants and Part of Plants | Phytosanitary Certificate according to the IPPC model | See standardized IPPC phytosanitary certificate model | Certify the plants or parts of the plants are free of quarantine pests. | Ministry of Agriculture, Plant Protection Division |
| Dairy Products | Sanitary Certificate | See model #3 in Appendix | Meet the Microbiological Standards for Morocco No Radioactive Elements | Ministry of Agriculture Livestock Division |

| Product(s) | Title of Certificate | Attestation Required on the Certificate | Purpose | Requesting Ministry |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Beef | <p>FSIS Meat and Poultry Export Certificate of Wholesomeness as agreed upon with Moroccan Authorities</p> <p>Certificate of Physical, chemical And microbiological analysis</p> <p>Halal Certificate.</p> <p>For meat meant to enter Morocco as part of the TRQ for Hotel and Restaurant, evidence of the USDA "Choice" grade</p> | <p>Being finalized by the FSIS and Ministry of Agriculture</p> <p>Show Conformity of contents and microbiological status with Moroccan standards</p> <p>Meat slaughtered According to the Islam Ritual.</p> <p>Issued by AMS. Being finalized with the Ministry of Agriculture</p> | <p>Products content is conform to what is on the label. Especially useful for the first shipments. Detailed analysis is likely to prevent requirement by inspectors of local laboratory testing.</p> <p>To qualify as "Hilton Meat" and be part of TRQ (Tariff Rate Quota) that enters Morocco at preferential rates.</p> | <p>Ministry of Agriculture, Livestock Division.</p> <p>Ministry of Agriculture</p> <p>Ministry of Agriculture</p> <p>Customs Office</p> |
| Poultry Meat | <p>FSIS Meat and Poultry Export Certificate of Wholesomeness as agreed upon with Moroccan Authorities</p> <p>Halal Certificate</p> <p>Result of Microbiological Laboratory Analysis</p> | <p>Being finalized by the FSIS and Ministry of Agriculture</p> <p>Poultry Slaughtered according to Islam Ritual</p> <p>Show Conformity with Moroccan Microbiological standards.</p> | | <p>Ministry of Agriculture Livestock Division</p> |
| Live Cattle | <p>Model Health Certificate agreed upon by APHIS and MinAg.</p> <p>Sanitary Certificate at the Port of Loading issued at most 24 hours before export.</p> <p>Results of Laboratory Analysis for tests required in the Model Health Certificate.</p> | <p>See Model at: http://www.aphis.usda.gov/vs/ncie/iregs/animals/mo_bo_br.pdf (Needs to be updated following the BSE cases in the United States)</p> | | <p>Ministry of Agriculture Livestock Division</p> |

| Product(s) | Title of Certificate | Attestation Required on the Certificate | Purpose | Requesting Ministry |
|-------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|--------------------------------------------|
| Cattle Semen | Model Health Certificate agreed upon by APHIS and MinAg Results of Lab tests required | See Model at: http://www.aphis.usda.gov/vs/ncie/iregs/animals/mo_bo_se.pdf | Results of Laboratory Analysis for the tests required in the Health Certificate. | Ministry of Agriculture Livestock Division |
| Milk Replacers / Calf Milk | Sanitary Certificate For Import Of Calf Milk And Milk Replacers Laboratory Analysis Radiation Certificate | See Model Certificate # 2. Must includes: A 5 per 100 parts of alfalfa flour has been added to the powder. Product should be labeled as "Milk with added alfalfa flour for use as animal feed" Conform to microbiological And Toxicological Standards in Morocco Do not contain radioactive elements | | Ministry of Agriculture Livestock Division |
| Animal Products used for feed and by-products industry imported from countries that are not free of contagious diseases | | Certificate that the product has been treated according to Moroccan requirement. | | Ministry of Agriculture Livestock Division |
| Honey and bee products | Sanitary Veterinary Certificate Radiation Certificate | See Model Certificate # 4 Attached | | Ministry of Agriculture Livestock Division |
| Hides and Skins | Sanitary Veterinary Certificate | See Model Certificate # 5 Attached | | Ministry of Agriculture Livestock Division |

II. Government Certificate Legal Entry Requirements

The Ministry of Agriculture will accept only certificates issued by government officials. Certificates issued by federal agencies as well as by state government agencies are normally accepted and even if not explicitly required could help greatly the acceptance of the products. In most cases, certification issued by the exporting companies or by entities that are not accredited and duly authorized by the U.S. government (such as private labs) are not sufficient evidence to clear sanitary inspection.

Generally, there is no regulation that specifies the duration of validity of the sanitary certificate. However, for some commodities (such as dairy cattle, cattle semen) and because of the laboratory tests required, the results might be valid only for a certain period before the tests have to be redone.

The Ministry of Agriculture expects the certificate to be issued before the date of shipment. In some particular cases however, the Ministry of Agriculture, meaning adequate explanation of the control system in the United States, could accept certificates that are issued after the loading time.

Original of the certificates are needed by electronic and fax copies might be accepted to swiftly clear customs but the importer remains responsible for providing the original of the certificate.

Each shipment must have a separate sanitary certificate.

For goods transiting through Europe, a sanitary certificate issued by the U.S. authorities is required. If, originally the good was not specifically meant to be exported to Morocco, the sanitary certificate issued by USDA to the European Authorities can be accepted but an additional certificate certifying that the commodity has been properly handled and stored while in Europe might be necessary.

APPENDIX I: Model Of Sanitary Certificates Required To accompany Food And Agricultural Products Exported into Morocco

Model Certificate # 1:
Processed Food Containing Some Animal Origin Products (excluding Beef)

United States of America
Certificate of Free Sale – Food

Issued by the State of _____

LOGO OF
CERTIFYING AUTHORITY

Certificate ID number: _____
Expiration Date of Certificate

Original Certificate

The Department of _____ regulates the production, manufacture and sale of
the product(s) listed below in the State of _____ pursuant to the law, _____.

The Manufacturer(s) listed below is subject to periodic inspections in this state; the last such inspection showed that
the plant(s), at that time, appeared to be in substantial compliance with current good manufacturing practices and
relevant US Food and Drug Administration requirements for the listed product(s). The Department does not object
to the sale of the product(s) below, nor its shipment to any other state or country at this time.

Shipment Description:

Table with 4 columns: Product, Common Name, Manufacturer, Comments. Multiple empty rows for data entry.
