TURKEY'S 2006 TARIFF SCHEDULE

Turkey's 2006 Tariff Schedule (Import Regime) was published in the Official Gazette on December 31, 2005 and became effective on January 1, 2006.

The 2006 Tariff Schedule, similar to previous ones, was prepared by the Foreign Trade Undersecretariat and includes six lists and six appendixes. Agricultural products are listed in the first four lists; however, most agricultural products are included in List 1.

Most duty rates remained the same as last year's rates. Duty rates for wheat, barley, corn, sorghum, sunflower seeds, crude sunflower oil, and soybean meal were raised in 2006. In addition to these changes, the duty will be raised seasonally for soybeans from all origins and will be reduced for some products from the EU and WTO member countries.

Import duty rates for major agricultural importing goods for 2006 compared to 2005 were provided in the following table.
