

**Voluntary Report** – Voluntary - Public Distribution

**Date:** September 23, 2021

**Report Number:** E42021-0068

**Report Name:** EU Early Alert - Pesticide Review - September 2021

**Country:** European Union

**Post:** Brussels USEU

**Report Category:** SP2 - Prevent or Resolve Barriers to Trade that Hinder U.S. Food and Agricultural Exports

**Prepared By:** Tania Debelder

**Approved By:** Elisa Fertig

**Report Highlights:**

The European Union follows a complex, rolling system of review for use of active ingredients and Maximum Residue Levels (MRLs) in food. For agricultural inputs, U.S. farmers must know early in the process to be able to provide input on their priorities and prevent or mitigate the loss of access to safe chemicals. The information in this document provides interested stakeholders with advance notice of active ingredients under review and highlights which substances may have restricted or non-renewal of approval. This is a quarterly update dated September 2021, including a link to the consolidated version as well.

## General Information:

Plant protection products (PPPs) along with Maximum Residue Levels (MRLs) and import tolerances are an increasingly important issue in the European Union (EU) since there is a significant reduction in the number of active substances approved for use. [Regulation \(EC\) No 1107/2009](#) and [Regulation \(EC\) No 396/2005](#) regulate PPPs and MRLs, respectively. The EU follows a complex, rolling system of review for use of active ingredients and MRLs in food. For agricultural inputs, U.S. farmers must know early in the process to be able to provide input on their priorities and prevent or mitigate the loss of access to safe chemicals.

The information presented in this document provides interested stakeholders with advance notice of active ingredients under review for renewal of approval in the EU and highlights which substances may have restricted or non-renewal of approval. This is a quarterly update. The arrows to the left of each section explain where a substance is in the EU review process as of August 31, 2021.

Please find a link to the [EU Early Alert – Pesticide Review](#) and the [Consolidated version](#), which incorporates information made available in past publications with the updates of the latest version as explained above. USDA is seeking feedback from our stakeholders on this document and the information it presents. If it is considered useful, it may be updated and distributed quarterly according to your preferences. Please send comments and questions to [AgUSEUBrussels@usda.gov](mailto:AgUSEUBrussels@usda.gov) and [PlantDivision@usda.gov](mailto:PlantDivision@usda.gov).

*Disclaimer: Please note that while every effort is made to capture all upcoming and completed reviews, this list may not be all-inclusive.*
