This report was prepared by the USDA Foreign Agricultural Services in Maputo, Mozambique, for U.S. exporters of food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their customers, who are normally best equipped to research such matters with local authorities, before any products are shipped. **FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY’S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.**

Executive Summary

This report describes Mozambique’s required import documents, their purpose, and necessary attestations. It also includes government certificates, legal entry requirements, and other certification/accreditation requirements. Specific Mozambican government agencies involved in import/export certifications and their role are included below.

Section II: Purpose of Specific Export Certificates

The purpose of each certificate listed above is as follows:

1. **Veterinary Health Certificate:** Attest to food safety and quality and prevention of diseases. It is required by the Ministry of Agriculture and Rural Development (MADER).

2. **Import Permit:** Attest to food safety and quality and prevention of diseases. It is required by MADER, the Ministry of Science and Technology, and the Ministry of Trade and Industry.
3. **Phytosanitary Permit:** Quarantine conformity and control/containment of the spread of pests and diseases. It is required by MADER.
4. **GMO Permit:** Product liability and control. It is required by the Ministry of Science and Technology.

Section III: Specific Attestations Required on Export Certificates

Mozambique’s required certificates serve to attest:

1. **Veterinary Health Certificate:** MADER requires this certificate to confirm the type of product and its composition, compliance with international norms and standards, and that the product is not from areas affected by avian diseases.
2. **Import Permit:** It is required by MADER, the Ministry of Science and Technology, and the Ministry of Trade and Industry. The permit grants import authorization and confirms that the product meets international standards.
3. **Phytosanitary Permit:** Required by MADER to attest to phytosanitary status in conformity with the specific regulation, this permit also verifies country of origin and that the product conforms to international standards.
4. **GMO Permit:** Required by the Ministry of Science and Technology, the GMO permit grants import approval for genetically engineered products and authorizes testing only in Mozambique.

Section V: Other Certification/Accreditation Requirements to Ensure Market Entry

Certificate of Origin: Mozambique requires that imported goods are accompanied by a certificate of origin that must be obtained from the product provider at the place of origin. Mozambique has different agreements with foreign trade partners, like SADC and the EU, from which certificates of origin are given different import benefits. For more details, please consult the following links: www.at.gov.mz and www.mcnet.co.mz.

Appendix: Electronic Copy of Certificates

The Government of Mozambique does not provide electronic copies or online certificates. Some certificates may be acquired by request of the product importer or exporter.
