

Required Report: Required - Public Distribution

Date: October 22, 2024

Report Number: MX2024-0048

Report Name: FAIRS Export Certificate Report Annual

Country: Mexico

Post: Monterrey ATO

Report Category: FAIRS Export Certificate Report

Prepared By: Eduardo Lozano

Approved By: Daniel Archibald

Report Highlights:

The competent Mexican authorities which regulate food and agricultural imports and/or require official U.S. export certificates include the Secretariat of Agriculture (SADER), Secretariat of Health (SALUD), Ministry of Environment and Natural Resources (SEMARNAT), and the Secretariat of the Treasury and Public Credit (HACIENDA) No significant changes occurred vis-à-vis Mexican import standards and regulations in 2023.

Disclaimer:

This report was prepared by the Agricultural Trade Office (ATO) in Monterrey, Mexico, for U.S. exporters of domestic food and agricultural products. While every possible care has been taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

Executive Summary

The following report provides U.S. exporters and stakeholders updated information on required export certificates for U.S. agricultural-product exports, as per Mexico's import standards and regulations. At the time of this document, no significant changes occurred vis-à-vis 2023 Mexican import standards and regulations. However, U.S. exporters are encouraged to periodically access FAS [database](#) and review FAS Mexico GAIN reports for possible changes in regulations and standards throughout the year. Regarding electronic export application and certification, the Food Safety Inspection Service (FSIS) is planning to onboard Mexico on November 04, 2024, in the Public Health Information System (PHIS) export component, FSIS' electronic export application and certification system. For more details please read ([Constituent Update: FSIS to Onboard Mexico in PHIS Export Component](#)).

**Section I. List of All Export Certificates Required by The Government of Mexico (Matrix)
Purpose of Specific Export Certificate(s)**

Product	Title of Certificate	Purpose	Requesting Ministry
All products	USMCA Certificate of Origin	Product Origin / Preferential Tariff Treatment	Secretariat of the Treasury and Public Credit (SHCP)/Aduanas (Customs)
Meat and Poultry Products	FSIS Meat and Poultry Export Certificate of Wholesomeness and Related Letterhead Certificates	Animal Health / Food Safety	Secretariat of Agriculture (SADER/SENASICA)
Animal Casings	FSIS Animal Casings Export Certificate and Related Letterhead Certificate	Animal Health / Food Safety	Secretariat of Agriculture (SADER/SENASICA)
Egg Products regulated by FSIS (liquid, frozen, or dried eggs, with or without added ingredients)	FSIS Egg Products Export Certificate of Wholesomeness and Related Letterhead Certificate	Animal Health/Food Safety	Secretariat of Agriculture (SADER/SENASICA)
Table Eggs, Pasteurized Eggs, and Eggs for Industrial Use regulated by AMS	AMS Shell Egg Grading Certificate (LP-210S) & Disease Free Certification Statements	Grading and Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Further Processed Egg Products Regulated by AMS (e.g. cooked egg patties, hard cooked eggs, egg shell membrane, omelets, crepes, preserved eggs/pickled)	USDA Processed Egg and Egg Products Export Certificate (LPS-234)	Sanitation Certificate	Secretariat of Agriculture (SADER/SENASICA)
Hatching Eggs	APHIS Hatching Eggs Protocol and Health Certificate	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Animal Products for Human Consumption (to include dairy, food preparations containing less than 2 percent meat ingredients)	APHIS Export Certificate for Animal Products	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Animal Feeds/Foods and Animal-origin items for Manufacturing (e.g. animal fats, feed additives, balanced pet foods, and other products containing animal inputs)	APHIS Export Certificate for Animal Products (Industrial Use) *Note: Feeds with no animal content do not require an APHIS certificate.	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)

Product	Title of Certificate	Purpose	Requesting Ministry
Live Animals and Germplasm (e.g. breeding cattle; cattle for slaughter; horses for slaughter; swine, sheep, and goat semen)	APHIS International Health Certificate	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Fish and Processed Fish Products	National Marine Fisheries Service/ NOAA Export Health Certificate and Certificate of Origin	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Crustaceans: Lobster, King Crab, Crayfish, Shrimp (frozen, chilled, or raw)	National Marine Fisheries Service/ NOAA Export Health Certificate and Certificate of Origin	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Wood Products and Processed Wood Products	APHIS Phytosanitary Certificate- Plant Protection and Quarantine	Health Certificate	Ministry of Environment and Natural Resources (SEMARNAT/PROFEPA)
Plant and Plant Products – Fruits and Vegetables	APHIS Phytosanitary Certificate- Plant Protection and Quarantine	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Seeds for Planting	APHIS Phytosanitary Certificate- Plant Protection and Quarantine	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Grocery Food Items, Frozen Foods	Certificate of Free Sale *HTS defines type of document required for example canned beans containing meat require FSIS certificate.	Certificate of Free Sale	COFEPRIS- Federal Commission for Protection Against Sanitary Risks of the Secretariat of Health (SSA)
Processed products	Certificate of Health or Sanitation and/or Certificate of Free Sale. *Note for some products a quality control certificate issued by the manufacturer is accepted. *HTS defines required documentation.	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)

Purpose of Specific Export Certificate(s)

The USMCA includes a specific USMCA Certificate of Origin, which eliminates the need for Customs and Border Protection (CBP) Form 434. This allows U.S. exporter, importer, or producer conducting business with Mexico and Canada to generate the certificate in any format that meets nine data elements: 1-5: Information about the certifier, exporter, producer, and importer of the good; 6: Description and Harmonized Tariff System classification of the good to the 6-digit level. 7: The origin criteria under which the good qualifies. 8: The blanket period (if the certification covers multiple shipments). 9: Authorized signature and date. Mexico requires a certificate of origin to demonstrate that U.S. goods qualify for the preferential tariff treatment under USMCA. For additional information, reference Chapter 5 Origin Procedures, Article 5.2, and Annex 5-A [here](#).

Meat and Poultry Export Certificate of Wholesomeness - Food Safety and Inspection Service (FSIS Form 9060-5)

Mexico requires the issuance of the Meat and Poultry Export Certificate of Wholesomeness, FSIS [Form 9060-5](#), by inspection personnel from FSIS' Office of Field Operations. The document certifies that meat and meat products are from animals that received both antemortem and postmortem inspection and found wholesome. The certificate, issued to the exporter, includes the consignee's information. Additionally, it must contain the district office, country of destination, folio number, plant establishment

number and city, type of facility, net weight, quantities by type of packaging, and number of containers in the shipment. In the "remarks" section, the inspector must specify the slaughter date, packing date, and lot number. Additionally, it must include the product's composition (for example: hot dogs containing beef, pork, and turkey). For details review [Mexico 9060-5 guidelines.pdf \(usda.gov\)](#)

The specific sanitary remarks or "attestations" are found in [FSIS Export Library- Requirements by Country](#). The Spanish language requirements are found on SENASICA's website under the *Modulo de Consulta de Zoosanitarios para la Importacion (MCRZI)*. The reader should check these sites often. These are living documents regularly modified when the sanitary status of the commodities changes, or agreements between APHIS, FSIS and SENASICA remove certain attestations.

Animal Casings Export Certificate - Food Safety and Inspection Service (FSIS Form 9060-7)

FSIS' animal casings health certificate is similar to the meat certificate, verifying that casings come from animals inspected antemortem and postmortem and found fit for human consumption. In addition to this form, a Letterhead Certificate for Pork Casings must accompany shipments ([see Documentation Requirements section D. Pork Products numeral 8](#)), attesting that the United States is free of classical swine fever (hog cholera).

Egg Products Export Certificate of Wholesomeness - Food Safety and Inspection Service (FSIS Form 9060-5EP)

The Egg Products Export Certificate [FSIS Form 9060-5EP](#) falls under FSIS' Field Operations Staff. The document certifies that an accredited veterinarian inspected the egg products and found them fit for human consumption. The document is issued to the exporter and includes the consignee's information. Other data includes district office, country of destination, folio number, plant number and city, type of facility, net weight, quantities by type of packaging, and number of containers making up the lot. As required by the Mexican Zoosanitary Health Requirements sheet (known as HRZ in Spanish), additional certification statements are found in FSIS Export Library – [Requirements for Exporting Processed Egg Products](#).

Export Certificate for Animal Products (Human Consumption and Animal Feed/Food) (APHIS VS Form 16-4 and Form 16-4A)

APHIS' veterinarians' issue sanitary certificates for animal products for human consumption, animal feed, and certain industrial products containing animal components. To meet Mexico's requirements, the certificates' validity must be issued by accredited veterinarians on [VS Form 16-4](#) and, if necessary, [VS Form 16-4A](#), and include required attestations, if applicable. For more information on SENASICA's requirements for animal products for human consumption, visit APHIS website [Animal Product Export Requirements](#), which includes information on the following products:

For Human Consumption

- Complements, supplements, additives, and flavorings (bovine and porcine gelatin and blood ingredients).
- Food preparations with less than 2 percent meat ingredients.
- Gelatin and collagen: Hydrolyzed bovine bone-derived gelatins.
- Gelatin and collagen: Hydrolyzed proteins (bovine skin-derived gelatin and collagen).
- Milk and dairy: Milk or Dairy Products (Bovine, Caprine or Ovine Origin).

*Note: Certificates for these products that require amendments or reissuance must be resent to the local APHIS office that initially issued the document.

For Feed, Industrial Use, Hides, and Skins

- Animal fats for animal feed or industrial uses.
- Animal feed and food: Feed rations (not including pet food).
- Animal feed and food: Rations containing porcine and poultry ingredients and intended for aquatic species.
- Animal feed and food: Pet foods for dogs and cats.
- Animal feed and food: Pet treats and similar products not containing animal product ingredients.
- Animal origin hormones for animal use or manufacturing.
- Blood and blood products for diagnostics and research, including fetal bovine serum.
- Bovine and porcine blood products for animal feeding.
- Complements, supplements, additives, and flavorings (bovine and porcine gelatin and blood ingredients) for human consumption.
- Feathers
- Feed additives with aquatic animal ingredients.
- Additives, complements and supplements for aquatic species use.
- Dairy products for animal feed.
- Porcine pancreatin.
- Processed egg products for animal feed.
- Porcine or poultry meals also containing fish meals.
- Swine offal (meat, offal, viscera, and pastes) for pet food manufacturing
- Trophy materials (unfinished).
- Cervid hides and skins for manufacturing.
- Limed bovine hides and skins for manufacturing or animal feed.
- Salted bison/bovine hides and skins for manufacturing purposes.
- Salted ostrich hides and skins for manufacturing purposes.
- Salted porcine hides and skins for manufacturing purposes.
- Salted rawhide for manufacturing purposes.
- Salted sheep and goat pelts and skins.
- Pig bristles and Porcine hydrolyzed protein for animal use.
- Rendered bovine, porcine, poultry meals.
- Mechanically separated poultry for animal use.

Shell Egg Grading Certificate (AMS Form LPS 210S) and Certificate Disease Free Statement

Table fresh eggs and pasteurized in-shell eggs exported to Mexico must include a signed affidavit stating that the flocks show no evidence of avian infectious diseases and are for human consumption. The certificates must contain AMS Form LPS 210S Shell Egg Grading Certificate (previously Form PY210S) and [Certificate Disease Free Statement](#). The Shell Egg Certificate is issued and signed by an AMS licensed grader. For information on the required attestations, visit AMS's website [Mexico Guidance Documents](#).

Egg Food Products Sanitation Certificate

Mexico requires a zoosanitary certificate for food products containing eggs or egg ingredients. For egg products and egg food preparations produced by a facility approved by AMS' Audit Services Branch, a certified AMS official must issue the export certification on Form LP234 "Processed Egg and Egg Products Export Certificate" will be put into service effective January 1, 2022. The aforementioned certificate covers points 26-31 in Mexico's HRZ for Food Preparations for Human Consumption ([098-13-241-USA-USA](https://www.aphis.usda.gov/animal-plant-and-soil-health/animal-plant-and-soil-health-topics/animal-plant-and-soil-health-topics-098-13-241-usa-usa)).

For egg food products produced by a facility not inspected by FSIS or audited by AMS, the exporter should seek guidance from AMS, which usually requires the facility to apply for audit services. For questions about egg food product certification, exporters should contact Mike Lopez by email at mike.lopez@usda.gov or telephone (501)766-4782.

Hatching Eggs Protocol and Health Certificate (APHIS VS Form 17-6)

For importing hatching eggs into Mexico, SENASICA requires that APHIS issue a health certificate ([VS Form 17-6](https://www.aphis.usda.gov/animal-plant-and-soil-health/animal-plant-and-soil-health-topics/animal-plant-and-soil-health-topics-098-13-241-usa-usa)) attesting to the eggs' health and origin, including sampling and testing procedures specified in the voluntary National Poultry Improvement Plan (NPIP). For more information, visit the [APHIS International Animal Export Regulations website](https://www.aphis.usda.gov/animal-plant-and-soil-health/animal-plant-and-soil-health-topics/animal-plant-and-soil-health-topics-098-13-241-usa-usa) and [Hatching Eggs Protocol specific language](https://www.aphis.usda.gov/animal-plant-and-soil-health/animal-plant-and-soil-health-topics/animal-plant-and-soil-health-topics-098-13-241-usa-usa).

Health Certificates for Live Animals and Germplasm – APHIS Health Certificate

Mexican import regulations for live animals and germplasm require a health certificate issued by APHIS. These must be completed and signed by an accredited veterinarian, verifying the animals' health status through visual inspections, required testing, and included in the shipment's documentation. Mexico accepts electronically signed health certificates for cattle and horses shipped to Mexico through the Veterinary Export Health Certification System ([VEHCS](https://www.aphis.usda.gov/animal-plant-and-soil-health/animal-plant-and-soil-health-topics/animal-plant-and-soil-health-topics-098-13-241-usa-usa)). The accredited veterinarian digitally signs the certificates and provides copies to the shippers, as these must complement the shipment. Issuing certificates through VEHCS speeds the export process, eases record-keeping, tracks the load, and provides real-time data analysis.

For more information on US-Mexico live animal protocols and Mexico's import regulations, please see the International Regulations (IREgs) for Animal Exports Home [website](https://www.aphis.usda.gov/animal-plant-and-soil-health/animal-plant-and-soil-health-topics/animal-plant-and-soil-health-topics-098-13-241-usa-usa), which includes information on the following:

- Rodeo bulls for temporary exit from the United States
- Bovine semen health certificate
- Breeding cattle – protocol and health certificate
- Bovine embryos/oocytes health certificate
- Horses for temporary exit from the U.S. (sport, exhibition, transit).
- Horses for permanent exit from the U.S.
- Horses returning to Mexico after temporary entry to the U.S.
- Horses for slaughter
- Equine semen
- Birds protocol and health certificate
- Adult gallinaceous birds – protocol and health certificate
- Wild birds for breeding and exhibition
- Sheep and goats for slaughter– protocol and health certificate

- Caprine semen
- Ovine semen
- Swine semen protocol and health certificate
- Swine slaughter protocol and health certificate
- Swine breeding protocol and health certificate
- In addition to the above protocols and certificates, there are also certificates for pets (dogs, cats, ferrets, birds, and aquatic species) along with other animals (including zoo animals)

Health Certificate and of Origin for Seafood – National Oceanic Atmospheric Administration (NOAA)

Mexico's import regulations for seafood products require an export certificate attesting to the product's wholesomeness and origin. The certificate issued by the U.S. Department of Commerce's NOAA. Under [NOAA Seafood Inspection Program](#), the certificates meet country-specific requirements, including a Commodity Specific Certificate of Origin in Mexico's case. Mexican law categorizes and mandates that different regulators carry out inspection. SADER regulates the import of crustaceans such as lobsters, crabs, crayfish, and shrimps. Other seafood products, including processed products, must comply with import regulations established by the Federal Commission for the Protection against Sanitary Risks ([COFEPRIS](#)), requiring obtaining an import permit. For detailed COFEPRIS requirements and regulations, visit its [webpage](#), and the procedures for requesting import permits [check this link](#).

Phytosanitary Certificate-Plant Protection and Quarantine – APHIS

Mexican import regulations for plants, seeds for planting, and unprocessed plant products require a phytosanitary certificate issued by APHIS' Plant Protection and Quarantine (PPQ) office. The document certifies that plants and plant products, such as propagation material, seeds for planting, wood, and processed wood products, underwent inspection or tested according to required procedures, free from quarantine pests, and conform to Mexico's phytosanitary requirements. For more information, visit the APHIS Plant Health Export Information [website](#) and APHIS Manuals [website](#).

Certificate of Free Sale / Certificate of Health or Sanitation for Processed Products

COFEPRIS regulations stipulate that a certificate of health or sanitation must accompany imports of processed products, but, depending on the product, the importer must either request an import permit or submit an import notification. Several state and federal government agencies issue the document. The Certificate of Free Sale is available from the U.S. Food and Drug Administration (FDA) only for [dietary supplements, medical foods, and foods for special dietary use](#). The Certificate of Free Sale is issued by state government certifying agencies or health department for additional products.

The certificate's purpose assures the importing authorities that the product complies with U.S. requirements and sold freely in the US. To understand products requiring the certification, exporters should compare the products' Harmonized Tariff System by accessing the COFEPRIS [website](#). If exporting dietary supplements, it is the company's responsibility to make sure its products are safe and that any claims are valid; COFEPRIS labeling regulations can be found in [Articles 173-174](#) of SALUD's "Regulation of Sanitary Control of Products and Services."

Section II. Specific Attestations Required on Export Certificate(s)

Specific attestations required to export U.S. food and agricultural products to Mexico is available by visiting the Mexican regulators and APHIS, AMS, and FSIS websites, highlighted above.

For applicable export requirements for meat and poultry products under FSIS, visit the FSIS Export Requirements for Mexico [website](#).

For information on egg products under the FSIS authority, visit the USDA/FSIS [website](#).

Information regarding the export of table eggs under the AMS Egg Verification Program can be found on the AMS Egg Export Information [website](#).

For additional information on the regulations and Mexico's necessary assessments for the export of live animals, fertile eggs, and germplasm, visit APHIS International Regulations (IREgs) for ANIMAL Exports [website](#).

To obtain additional information on APHIS export certificates for plants and plant products, visit APHIS Export Program Manual [website](#).

Note: Ongoing negotiations between FSIS, APHIS, and SENASICA on implementing electronic certification continues. Although essential developments have occurred, further implementation should take place in 2022.

Section III. Government Certificates Entry Requirements

Meat and Poultry Export Certificate of Wholesomeness

The document must be signed by an accredited FSIS Meat and Poultry Inspection Program. Mexico requires the shipment to include the original form and allows multiple lots if the loads enter simultaneously at the port of entry.

Animal Casings Export Certificate for Countries Requiring Ante-mortem, Post-mortem, and Fit for Human Food Statements

The document must be signed by an accredited FSIS Meat and Poultry Inspection Program inspector. The original certificate must accompany each shipment.

FSIS Egg Product Export Certificate of Wholesomeness

The document must be signed by an accredited FSIS Meat and Poultry Inspection Program inspector, including the inspector's printed name and date. An original of the document must accompany each shipment.

AMS Shell Egg Certificate and Disease-Free Statement for Table Eggs; AMS Processed Egg, and Egg Products Export Certificate

The documents are not valid unless signed by a certified AMS official, including the inspector's printed name and date. An original of the documents must accompany each shipment.

Phytosanitary Certificate-Plant Protection and Quarantine-PPQ

An original of this document by Mexican Customs can be valid for multiple lots if shipments enter simultaneously through the same port of entry.

APHIS Health Certificate for Animal Products

The document requires the signature of a APHIS Veterinary Services official. An original of the document must accompany each shipment.

Certificate for Poultry or Hatching Eggs for Export

The original certificate must accompany the shipment upon arrival at the port-of-entry inspection point.

International Health Certificate for Live Animals

The document's original is required and must be completed and signed by a APHIS Veterinary DVM. This certificate is valid for multiple lots if the shipments arrive simultaneously for inspection at the corresponding livestock export pen on the U.S. side of the border. Mexico allows USDA Accredited Veterinarians (AVs) to complete animal health certificates using the VEHCS. SENASICA also accepts the electronic signature of the AVs.

***Note:** To avoid problems at the port of entry, the relevant stakeholder verifies that the certifying official signs FSIS, AMS, APHIS export certificates, and the corresponding letterheads.

Certificate of Free Sale

On July 25, 2007, Mexico's Secretariat of Agriculture posted revised requirements in the Federal Animal Health Law for certificates of free sale for specific animal feeds, including pet food. Currently, exporters must present an original certificate of free sale upon entry of the product, issued by U.S. state health offices. For some products, SADER will accept an affidavit from the manufacturer indicating its free sale in the United States. Avoid submitting supplier or manufacturer export declarations; shipments will suffer rejection.

Section IV. Other Certification/Accreditation Requirements Other Certification/Accreditation Requirements to Ensure Market Entry U.S. Radiation Monitoring

For more information on food standards and regulations, please visit FAS [database](#) and consult the most recent Food and Agricultural Import Regulations and Standards Report for Mexico. At the time of this report, no attestation of radioactivity is required in Mexico.

Appendix I: Electronic Copy or Outline of Each Export Certificate

Meat and Poultry Export Certificate of Wholesomeness, FSIS Form 9060-5

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0993-0163. The time required to complete this information collection is estimated to average 25 minutes per response, including the time for reviewing instruction, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

A knowingly false entry or false alteration of any entry on this certificate may result in a fine of not more than \$10,000 or imprisonment for not more than 5 years or both (21 U.S.C. 1087). Additional penalties exist under the Federal Meat Inspection Act (21 U.S.C. 8113a) (1), (2), and (3); 21 U.S.C. 861) for an unauthorized or false alteration or misuse of this certificate.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0581-0128. The time required to complete this information collection is estimated to average 12 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider, employer, and lender.

APPENDIX II: Instructions for Exporters of FDA Regulated Products Certified by Other Agencies

Dairy:

Mexico accepts Animal Plant Health Inspection Service (APHIS) export certificates for dairy products. Information regarding APHIS export certificates can be obtained [here](#).

Eggs and Egg Products:

In the egg sector, USDA's Agriculture Marketing Service (AMS) is the certifying agency for export certificates for egg products regulated by FDA. The AMS Livestock, Poultry and Seed Division is responsible for the EU export certificates for the food products containing eggs or egg products that are regulated by FDA. In addition to shell eggs, FDA-regulated egg products include hard boiled eggs, cooked omelets, frozen egg patties, imitation egg products, egg substitutes, noodles, cake mixes, freeze-dried products, dietary foods, dried no-bake custard mixes, egg nog mixes, acidic dressings, mayonnaise, milk and egg dip, foods containing egg extracts, French toast, sandwiches containing eggs or egg products, and balut and other similar ethnic delicacies. For more information on jurisdiction overlap for commercial products regulated by either or both FDA and USDA, please refer to the FDA/USDA jurisdictional chart ([Exhibit 3-1](#)).

ATO Monterrey can provide advice for exporters, customs agents, freight forwarders, and Mexican importers about documentation procedures and logistics for a successful export process to Mexico. ATO Monterrey monitors trade flow along the US-Mexican border and works with the Office of Agricultural Affairs in Mexico City to facilitate trade into Mexico. ATO Monterrey's email address:

AgMexico@usda.gov

Useful Mexican Web Sites: The Ministry of Environment and Natural Resources ([SEMARNAT](#)) regulates imports of forestry products, including seeds and wood products. Mexico's Agency for Environmental Protection (PROFEPA), which also inspects imported wood products, can be found at: [PROFEPA](#). Mexico's Customs Agency (ADUANAS) can be located at: [Portal de Aduanas del SAT](#). The web sites included facilitates conveyance of additional information mentioned for the readers' convenience. Still, USDA does NOT in any way endorse, guarantee the accuracy of, or necessarily concur with, the information contained on the mentioned sites.
