Section V. Other Certification/Accreditation Requirements

Additional details on food import requirements and procedures, including import permit, product registration, and food labeling are available in the Food and Agricultural Import Regulations and Standards report at www.fas.usda.gov.

In addition, both the DOA and the DLD require import permits. The procedure for import permit issuance has been, at times, non-transparent for certain pork and poultry products. The DLD agreed in principle (although not officially in writing) to accept “system audits” for exporting facilities instead of its earlier requirement of “separate plant audits.” However, the DLD added the requirement that exporting countries of animal and animal products must complete the DLD’s questionnaire for approval before the DLD send its team to conduct on-site inspections for each exporting country.

Products, to Thailand**

Date Issued: _____ Certificate Number: _____

1. The United States of America (USA) is free from Rinderpest and Foot-and-Mouth Disease (FMD) as recognized by the World Organization for Animal Health (OIE) for at least 1 (one) year prior to export.
2. The cattle received ante-mortem and post-mortem inspection and were found to be free from any infectious and contagious diseases.
3. The farm(s) or premises of origin in the United States has been free from contagious bovine pleuropneumonia during the past 6 (six) months preceding the slaughter of the animals and until the time of export, or the product or source cattle were legally imported into the United States from a zone free of contagious bovine pleuropneumonia.
4. The U.S. requires the following for imported cattle, consistent with the recommendations of the OIE's Terrestrial Animal Health Code's chapter of bovine spongiform encephalopathy (BSE):
 - a) Cattle imported from controlled BSE risk countries, including Canada, are permanently identified;
 - b) Cattle imported from controlled BSE risk countries, including Canada, are not known to be "exposed" cattle (i.e., those identified as cohorts of a BSE case);
 - c) Cattle imported from controlled BSE risk countries, including Canada, were born after the date a ban on the feeding of ruminant-origin meat-and-bone meal and greaves to ruminants was effectively enforced in those countries.
5. The beef and beef products were produced at slaughter and processing establishments operating under federal inspection.
6. The beef and beef products contain no preservatives, additives or other substances posing a harmful risk to human health.
7. The beef and beef products have been subjected to a residue and microbiological sampling program in accordance with FSIS regulatory requirements including the FSIS National Residue Program.
8. The beef or beef products were not derived from cattle that were confirmed BSE cases or known suspected cases of BSE.
9. The United States is a country officially recognized as having a negligible BSE risk status by the OIE.
10. The immediate shipping container used for transporting the product complies with FSIS sanitary requirements at the time of loading in the facility.
11. The product does not contain meat from mechanically separated meat.

DISCLAIMER

This report was prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Bangkok, Thailand for U.S. exporters of domestic food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. **FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY THE BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.**

Please contact the FAS office in Bangkok if you have any comments, corrections or suggestions.

The e-mail address is agbangkok@fas.usda.gov.
