

**Required Report:** Required - Public Distribution

**Date:** January 06, 2022

Report Number: AR2021-0040

# Report Name: Food and Agricultural Import Regulations and Standards **Export Certificate Report**

Country: Argentina

**Post:** Buenos Aires

Report Category: FAIRS Export Certificate Report

**Prepared By:** Maria Julia Balbi

Approved By: Benjamin Boroughs

## **Report Highlights:**

This report includes technical requirements and export certificates for the export of food and agricultural products to Argentina. It complements the Food and Agricultural Import Regulations and Standards Annual Country 2021 Report.

# **Table of Contents**

Executive Summary	3
Section II: Purpose of Specific Export Certificates	13
Section III: Specific Attestations Required on Export Certificates	13
Section IV: Government Certificate Legal Entry Requirements	21
Section V: Other Certification/Accreditation Requirements to Ensure Market Entry	22
Appendix: Scanned Copies of Export Certificates	23

Disclaimer: "This report was prepared by the OAA Buenos Aires for U.S. exporters of domestic food and agricultural products. While every possible care has been taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY."

# **Executive Summary**

This document was prepared by the Office of Agricultural Affairs of the Foreign Agricultural Service in Buenos Aires, Argentina. The purpose of this document is to provide U.S. exporters with updated information on certificates issued by U.S. government agencies required by Argentine authorities to accompany the shipments of U.S. agricultural products to Argentina. This is not intended as a compendium of Argentine import requirements, but rather as a supplement to the most recent FAIRS Country Report.

Argentina's food import regulations are generally not available online. OAA Buenos Aires recommends working closely with a local broker or importer to stay abreast of the latest regulatory and import requirement developments.

Three government agencies regulate food and beverage products in Argentina, namely:

SENASA/MAGyP – National Service of Agricultural Food Health and Quality (Ministry of Agriculture, Livestock, and Fisheries): animal and plant products and by-products, fishery and seafood products.

INAL/ANMAT/MS – National Food Institute/National Administration of Drugs, Food Products, and Medical Equipment (Ministry of Health): processed food and beverages, except wine.

INV/MAGyP: National Wine Institute (Ministry of Agriculture, Livestock, and Fisheries).

# Section I: List of Export Certificates Required by Government

Product(s)	Type of Certificate	U.S. Issuing Authority	Attestation Required on Certificate	Purpose	Requesting Ministry
1 - Beef and Beef Products	<u>FSIS Letterhead</u> <u>Certificate for the</u> <u>Export of Fresh or</u> <u>Frozen Beef, Beef</u> <u>Products and Beef</u> <u>Offals from the</u> <u>United States to</u> <u>Argentina</u>	FSIS	Public health and animal health attestations.	Health certificate negotiated with Argentine CCA (Country Competent Authority) to comply with import requirements and obtain import permit.	SENASA INAL
2 - Bovine Hide- Derived Collagen and Gelatin for Human Consumption	Sanitary Certificate for Exports to the Republic of Argentina of Bovine Hide-Derived Collagen and Gelatins Intended for Use in Foods, Medications, Pharmaceutical Industry and Other	APHIS FSIS	Public health and animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
3 - Bovine Salted Hides	Sanitary / Zoosanitary Certificate for Export Bovine Salted Hides For Use in Tanneries to Argentina	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA

4 - Industrial Tallow	Sanitary/Animal Health Certificate for Exports of Bovine Tallow For Industrial Purposes Not Suitable for Human or Animal Consumption to The Argentine Republic	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
5 - Pork and Pork Products	FSIS LetterheadCertificate for theExport of Fresh orFrozen Pork andPork Products fromthe United States toArgentina	FSIS	Public health and	Health certificate	SENASA
6 - Porcine Skin Gelatin	Sanitary Certificate / Zoosanitary to Export Edible Gelatin Derived from Porcine Skins to The Republic of Argentina	APHIS FSIS	Public health and animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	
7 - Poultry Products – Fresh & Frozen	Ineligible for export to Argentina.				
8 - Poultry Products – Thermoprocessed	Health Certificate For the export to the Rep. Argentina of thermoprocessed poultry products and by-products for animal consumption	APHIS	Animal health.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA

9 - Poultry	Zoosanitary	APHIS	Animal	Health	SENASA
, Cartilage for	Certificate to Export		health	certificate	
Pharmaceutical	Thermoprocessed		attestations.	negotiated with	
Use –	Poultry Cartilage			Argentine CCA	
Thermoprocessed	and/or Poultry			to comply with	
	Cartilage Extract for			import	
	Pharmaceutical Use			requirements	
	to Argentina			and obtain	
				import permit.	
10 - Poultry	Sanitary/	APHIS	Animal	Health	SENASA
Cartilage for	<b>Zoosanitary</b>		health	certificate	
Pharmaceutical	Certificate to Export		attestations.	negotiated with	
Use – Frozen	<u>Frozen Poultry</u>			Argentine CCA	
	Cartilage for			to comply with	
	Pharmaceutical Use			import	
	Exclusively for			requirements	
	<u>Poultry to</u>			and obtain	
	<u>Argentina</u>			import permit.	

11 - Poultry –	Sanitary /	APHIS	Animal	Health	SENASA
Feathers or	<b>Zoosanitary</b>		health	certificate	
Down	Certificate To		attestations.	negotiated with	
	Export Feathers Or			Argentine CCA	
	Down To Argentina			to comply with	
				import	
				requirements	
				and obtain	
				import permit.	
12 - Ovine	<u>Sanitary /</u>	APHIS	Animal	Health	SENASA
Greasy Wool	<u>Zoosanitary</u>		health	certificate	
	Certificate for the		attestations.	negotiated with	
	Export of			Argentine CCA	
	Ovine Greasy Wool			to comply with	
	to Argentina			import	
				requirements	
				and obtain	
				import permit.	

13 - Dairy Products for	Argentina Sanitary Dairy Export	AMS	Public health and animal	Health certificate	SENASA
Human Consumption	Certificate Customized by AMS <u>AMS Application</u>	APHIS	health attestations.	negotiated with Argentine CCA to comply with import requirements and obtain	INAL
	APHIS Attestation Instructions			import permit.	
14 - Dairy Products for Animal Feed	Requirements for the Import of Bovine Dairy Products into Argentina from the United States for Animal Feeding	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
15 - Pet Food	<u>VS Form 16-4</u> <u>Recommended</u> <u>Statements</u>	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
16 – Fish and Fishery Products	Sanitary/Zoosanitary Certificate to Export Fish, Shellfishes, Molluscs and their Products (Except Live Ones) For Human Consumption To Argentina – See Appendix I for example	NOAA	Animal health and public health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA INAL

17 - Live Horses	International	APHIS	Animal	Health	SENASA
– Permanent for	Veterinary Health		health	certificate	
Breeding	Certificate for the		attestations.	negotiated with	
	Permanent Export of			Argentine CCA	
	Horses and Other			to comply with	
	Equidae from the			import	
	United States to			requirements	
	<u>Argentina</u>			and obtain	
				import permit.	
18 - Live Horses	International Animal	APHIS	Animal	Health	SENASA
– Temporary for	Health Certificate		health	certificate

Competition in	Argentina after			Argentine CCA	
US	Temporary Stay for			to comply with	
	Competition in the			import	
	United States of			requirements	
	<u>America</u>			and obtain	
				import permit.	
20 - Equine	International Animal	APHIS	Animal	Health	SENASA
Semen	Health Certificate for		health	certificate	
	Export of Equine		attestations.	negotiated with	
	Semen from the			Argentine CCA	
	United States of			to comply with	
	America to			import	
	<u>Argentina</u>			requirements	
				and obtain	
				import permit.	

21 - Equine Embryos	International Animal Health Certificate for Export of Equine Embryos, Oocytes from the United States of America to Argentina	APHIS	Animal health attestations.	Health certificate negotiated with host CCA to comply with host country import requirements and obtain import permit.	SENASA
22 - Dogs and Cats	Veterinary Health Certificate for Export of Dogs and Cats from the United States to Brazil	APHIS	Animal health attestations. Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
23 - Bovine Semen	Health Certificate for Export of Bovine Semen to Argentina from the United States of America	APHIS	Animal health attestations. Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
24 – Bovine Embryos – In Vivo/In Vitro	Health Certificate for Export of Bovine Embryos Collected in Vivo and/or Produced in Vitro to Argentina from the	APHIS	Animal health attestations. Fulfills health requirements according to import license	Health certificate negotiated with Argentine CCA to comply with import	SENASA

	United States		and sanitary inspection (see APHIS website)	requirements and obtain import permit.	
25 - Plant and Plant Products	Phytosanitary Certificates <u>PPQ Form 572</u> <u>PPQ Form 577</u> <u>PPQ Form 578</u>	APHIS	Plant health attestations.	Health certificates are negotiated with Argentine CCA to comply with import requirements and obtain import permit (AFIDI) through importer, as AFIP (Federal Tax Administration) registration # is required.	SENASA
26 - Processed Products** **Note – processed products of animal origin may need a certificate of free sale <u>in addition</u> to a product specific sanitary certificate.	Certificate of Free Sale	FDA/State Departments of Agriculture, Commerce, or Health	Public health attestations.	To prove that the product/s was/were approved by an official authority to be sold, and is/are apt for human consumption in the U.S.	INAL
27 - SPF Eggs Specific Pathogen Free Eggs	Veterinary Health Certificate for Export of SPF Eggs from the United States to Argentina SPF Eggs Addendum	APHIS	Animal health attestations and public health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA

28 – Day Old	Addendum/ <u>Health</u>	APHIS	Animal	Health	SENASA
Chicks and	Certificate to Export		health	certificate	
Hatching Eggs	Hatching Eggs		attestations	negotiated with	
	and/or Day-Old		and public	Argentine CCA	
	Birds to Argentina		health	to comply with	
			attestations.	import	
				requirements	
				and obtain	
				import permit.	
29 –	Sanitary/Zoosanitary	APHIS	Animal	Health	SENASA
Thermoprocessed	Certificate for the		health	certificate	
Egg Derivatives	Export of		attestations.	negotiated with	
for Animal	Thermoprocessed			Argentine CCA	
Feeding	Egg Derivatives to			to comply with	
	Argentina for			import	
	<u>Animal</u>			requirements	
	Consumption			and obtain	
				import permit	

30- Research	International Health	APHIS	Animal	Health	S
Animals –	Certificate to Export		health	certificate	E
Laboratory	Laboratory		attestations.	negotiated with	Ν
Rodents	Rodents to			Argentine CCA	А
	Argentina from the			to comply with	S

	<u>America</u>			requirements	
				and obtain	
				import permit.	
31 – Laboratory	Veterinary Health	APHIS	Animal	Health	SENASA
Animal Semen &	Certificate for the		health	certificate	
Embryo	Export of		attestations.	negotiated with	
	Laboratory Animal			Argentine CCA	
	Embryos/Semen			to comply with	
	from the United			import	
	<u>States of</u>			requirements	
	<u>America to</u>			and obtain	
	<u>Argentina</u>			import permit.	

32 - Pigeons	Veterinary Health Certificate for the Export of Carrier Pigeons from the United States of America to the Republic of Argentina	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain	SENASA
33 - Mustelids – Commercial Use	Veterinary Health Certificate for Export of Mustelids for Commercial Use from the United States of America to Argentina	APHIS	Animal health attestations.	import permit. Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
34 - Ferrets - Pets	Veterinary Health Certificate for Export of Ferrets from the United States of America to Argentina	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
35 – Swine - Pets	Veterinary Health Certificate for Export of Pet Swine from the United States to Argentina	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA
36 – Live Salmonids and Salmonid Eggs	Veterinary Health Certificate for Export of Live Salmonids or Salmonid Eggs from the United States to Argentina	APHIS	Animal health attestations.	Health certificate negotiated with Argentine CCA to comply with import requirements and obtain import permit.	SENASA

## Section II: Purpose of Specific Export Certificates

SENASA and INAL require foreign countries to negotiate health certificates, including import requirements and animal and public health attestations, before authorizing the opening of the market to a new product. The purpose is to prevent the introduction of foreign animal and plant diseases into Argentina, and to protect human health.

# Section III: Specific Attestations Required on Export Certificates

1 – <u>FSIS Letterhead Certificate for the Export of Fresh or Frozen Beef, Beef Products and Beef Offals from</u> <u>the United States to Argentina</u>: Primary attestations include: references to animal diseases such as bovine spongiform encephalopathy (BSE), and food safety requirements, namely, USDA Mark of Inspection on products, implementation of HACCP, laboratory tests, assurance that the product does not contain any prohibited specified risk materials.

2 – <u>Bovine Hide-Derived Collagen and Gelatins Intended for Use in Foods, Medications, Pharmaceutical</u> <u>Industry and Other, for Export to Argentina:</u> Primary attestations include: that the animals from which the products derived were slaughtered under FSIS authority, were in compliance with the National Residue Program and were suitable for slaughter in ante and postmortem examinations. Also, that the hides were subjected to the following processing that assures the inactivation of pathogenic agents that affect animal health: filtration; ionic exchange; sterilization. Per APHIS guidance: In addition, the production facility must be inspected and approved by the USDA APHIS Veterinary Services at least annually. APHIS VS is not being asked to certify that "the facility is authorized by SENASA to export to Argentina." SENASA will require an import permit for the entry of the product.

3 – <u>Salted Bovine Hides Export to Argentina</u>: Primary attestations include: compliance with all World Organization for Animal Health (OIE – for its initials in French) criteria related to animal diseases. Cattle from which hides were obtained must be born and raised in the U.S. or legally imported into the U.S. from a country with an equal or superior sanitary status. Production facilities must be inspected and approved by the USDA APHIS Veterinary Services at least annually.

4 – <u>Sanitary/Animal Health Certificate for Exports of Bovine Tallow for Industrial Purposes Not Suitable</u> <u>for Human or Animal Consumption to the Argentine Republic</u>: Primary attestations include: the country of origin of animals must be BSE negligible risk or controlled risk; the U.S. prohibits feeding of meat and bone meal to ruminant animals; the U.S. is free of all OIE transmissible diseases through tallow; and the animals from which the tallow is derived are from areas free of OIE-listed diseases through tallow. Moreover, rendering facilities must be inspected by APHIS at least annually to make the approval statement and to confirm the time and temperature of the rendering process. 5 – <u>FSIS Letterhead Certificate for the Export of Fresh or Frozen Pork and Pork Products from the United</u> <u>States to Argentina</u>: Primary attestations include: the U.S. is free of FMD without vaccination, classical swine fever, swine vesicular disease, and African swine fever; the swine from which the pork and pork products were derived were slaughtered and processed in the U.S. or legally imported from a country meeting the conditions in Attestation 1 of the LHC; the pork and pork products bear the USDA Mark of Inspection; the pork and pork products were derived from swine carcasses that tested negative for Trichinella spp. by a digestion method assay, or raw pork was subject to a freezing, cooking, or curing/drying process validated by FSIS that guarantees the destruction of Trichinella spp., or they were sourced from swine and swine enterprises with certified participation in the National Pork Boards Pork Quality Assurance (PQAPlus) Program.

6 – <u>Sanitary/Zoosanitary Certificate to Export Edible Gelatin Derived from Porcine Skins to the Republic of Argentina</u>: Primary attestations include: the animals were born and raised in the United States or legally imported into the U.S.; the animals were not sacrificed as a consequence of infectious or parasitic eradication programs; the product is freely sold in the U.S. for human consumption. Per APHIS guidance: In addition, Argentina requires an import permit for the entry of products. For APHIS VS (Veterinary Services) to certify that the "the facility is authorized by SENASA to export to Argentina," the exporter should provide Veterinary Services with a copy of its import permit.

7 – <u>Poultry Products – Fresh & Frozen</u>: Ineligible for export to Argentina.

8 – <u>Health Certificate for the Export to the Republic of Argentina of Thermoprocessed Poultry Products</u> and By-products for Animal Consumption: Primary attestations include: the animals were not slaughtered as a result of any infectious, contagious, or parasitic disease eradication program and were not sourced from an area under Federal quarantine measures for Newcastle Disease and Avian Influenza. The animals were born and remained in the U.S. territory until slaughter or they were legally imported from another country of similar sanitary condition. In addition, production facilities must be inspected and approved by USDA APHIS Veterinary Services at least annually. Per APHIS Guidance: The exporting facility must be registered with

Argentina's Competent Authority (SENASA) and must have an import permit issued by Argentina prior to export. This can be accomplished through the importer in Argentina. The facility must be able to ensure that the all equipment has been subjected to processes that assure the absence of any cross contamination with other animal origin materials.

9 – <u>Thermo-processed Poultry Cartilage and/or Poultry Cartilage Extract for Pharmaceutical use to</u> <u>Argentina</u>: Primary attestations include: the birds were not slaughtered as a result of any infectious contagious or parasitic disease eradication program, or were not sourced from an area under restrictive quarantine measures that imply any trade risk, as recommended by the OIE; in the animals from which the products originate, no substances with hormonal, estrogenic, thyrostatic, anabolic or growth promoting effects that are not specifically accepted in the Codex Alimentarius have been used; the product was heat treated in accordance with the recommended procedures of the OIE for the inactivation of notifiable Avian Influenza and Newcastle disease. In addition, for the purposes of this certificate "poultry" is defined exclusively as chickens. Production facilities must be inspected and approved by the USDA APHIS Veterinary Services at least annually. Per APHIS Guidance: Although APHIS VS is not being asked to certify that "the facility is authorized by SENASA to export to Argentina", an import permit may still be needed for the entry of this product. Exporters are advised to determine, through their importers, what additional requirements must be met for importation.

10 – <u>Sanitary/Zoo-sanitary Certificate to Export Frozen Poultry Cartilage for Pharmaceutical Use</u> <u>Exclusively for Poultry to Argentina</u>: Primary attestations include: the country of origin of the product has been declared free of High Pathogenic Avian Influenza (HPAI) and Newcastle disease before the OIE; the birds from which the product was sourced were born and raised in the United States or legally imported as ONE (1) day old chicks from regions with equivalent poultry health status and programs; the birds from which the product was sourced remained in a U.S. region free of Newcastle disease from the time of hatching until slaughter or they were legally imported as ONE (1) day old chicks; the birds were not sacrificed as a result of an infecto-contagious or parasitic disease eradication program, or were not sourced from an area under restrictive quarantine measures that imply any commercialization risks relative to poultry as stated by the OIE. In addition, for the purposes of this certificate, "poultry" is defined exclusively as chickens. Per APHIS Guidance: Although APHIS VS is not being asked to certify that "the facility is authorized by SENASA to export to Argentina", an import permit may still be needed for the entry of this product. Exporters are advised to determine, through their importers, what additional requirements must be met for importation.

11 – <u>Feathers or Down to Argentina</u>: Primary attestations include: that the merchandise was washed for at least one hour in a water-detergent solution, and thereafter dried with hot air at 120 degrees C for at least 30 minutes. Please note that a unique seal number must be used to ensure that the product is correctly identified. In order to ensure that the certifications can be made on the basis of direct attestations, an inspection must have been conducted.

12 – <u>Zoo-sanitary Certificate for the Export of Ovine Greasy Wool to Argentina</u>: Primary attestations include: That the country is declared free before the OIE of the following diseases: Rinderpest, Pest of Small Ruminants, Sheep Pox and Goat Pox;

With respect to Foot and Mouth Disease, the country of origin is considered by the OIE as: A. Free without vaccination:

The animals from which the product originated presented no signs of Foot and Mouth Disease on the day of sacrifice or shearing.

They have lived in a country or zone free of Foot and Mouth Disease since birth and in the exporting country for the last three months prior to export.

Free with vaccination

The animals from which the product originated presented no signs of Foot and Mouth Disease on the day of sacrifice or shearing.

They have lived in a country or zone free of Foot and Mouth Disease since birth and in the exporting country for the last three months prior to export.

The products were submitted to a treatment guaranteeing the destruction of the Foot and Mouth Virus and according to requirements established by the OIE.

Infected, where an official control program exists which includes the obligatory systematic vaccination of bovines using an approved vaccine following OIE norms.

The animals from which the product originated presented no signs of Foot and Mouth Disease on the day of sacrifice or shearing.

The products were submitted to a treatment guaranteeing the destruction of the Foot and Mouth Virus and according to what has been established by the OIE.

The necessary precautions have been taken after treatment to avoid contamination by potential sources.

That the wool is free of Mange and Melophagus ovinus (sheep keds) or has been stored for more than 30 days with no contact with potential sources of contamination.

13 – <u>Sanitary Export Certificate for Dairy Products for Human Consumption, Customized and Endorsed</u> by AMS ("Dairy" referring to Bovines and Bubalines): Primary attestations include: the country or zone is declared free of Rinderpest, Rift Valley Fever, or the milk comes from animals imported from countries or zones free of these mentioned diseases; re BSE, U.S. prohibits the feeding of meat and bone meal or other feeds which may have ruminant proteins (except for dairy proteins) to ruminant animals.

14 – <u>Sanitary Certificate for Export of Dairy Products for Animal Feed to Argentina</u>: Primary attestations include: the country or zone is declared free of Rinderpest, Foot-and-mouth disease and Rift Valley Fever, or the milk comes from animals imported from countries or zones free of these mentioned diseases; products were obtained from animals raised in or legally imported into the U.S., and/or produced with dairy ingredients imported legally; the United States has in place a system to ensure that dairy animals are administered no formulations with hormonal, estrogenic, thryostatic, or growth-promoting effects, that were not specifically accepted in the Codex Alimentarius or by the U.S. Food and Drug Administration.

15 – <u>Certification for the Export of Pet Food to Argentina</u>: Argentina prohibits the importation of pet food containing ruminant origin materials from the United States and shipments are subject to species identification testing. However, shipments of pet foods containing ovine ingredients imported from Australia and New Zealand have been acceptable. The export health certificate must clearly identify such ingredients. Exporters are encouraged to check with their importer to verify labeling and import requirements. Exports of pet food from production plants that also process ruminant material sourced from countries other than Australia or New Zealand should provide evidence of an effective separation protocol. NCIE recommends that export lots of pet food from such production plants be tested to

determine apparent freedom from ruminant materials. For additional APHIS recommended statements for the VS form 16-4, see link in Section I, Point 14.

16 – <u>Sanitary Certificate for Fishery Products to Argentina</u>: Primary attestations include: exported seafood was sourced from choleric and biotoxin free zones, and in which there have not been records of cholera or biotoxical activity, nor fish mortality during the three months before capture, and, if it is sourced from aquaculture, was raised in captivity, and that no substances with hormonal, aestrogenic, tyrostatic, anabolic or growth-promoting effects, that were not specifically authorized in the Codex Alimentarius have been used.

17 – <u>International Health Certificate for the Permanent Export of Horses and Other Equidae from the</u> <u>U.S. to Argentina</u>: Primary attestations include: exported equines remained in the exporting country for at least forty (40) days immediately prior to shipment; declarations with regard to the following diseases are included: Venezuelan equine Encephalomyelitis, Glanders, Equine Infectious Anemia, Equine Viral Arteritis, Contagious Equine Metritis, Dourine, Equine Piroplasmosis -Babesia maballi and Theileria equi, Equine Influenza.

18 – <u>International Animal Health Certificate for Temporary Exportation of Equines for Participation in</u> <u>Competition Events from the U.S. to Argentina</u>: Primary attestations include: the United States of America is free from African horse sickness, Venezuelan equine encephalomyelitis, durine, glanders, Japanese encephalitis, epizootic lymphangitis, Kunjin virus infections, and surra according to the recommendations of the OIE; the animals exported have remained in the United States of America for at least 45 days prior to shipment. For requirements on laboratory tests, vaccinations and additional treatments, see link to certificate on Section I, Box 18.

19 – <u>International Health Certificate for Horses Returning to Argentina After Temporary Stay for</u> <u>Competition in the U.S.</u>: Primary attestations include: The United States of America is free from African horse sickness and Venezuelan equine encephalitis; the horses stayed in premises where no cases of vesicular stomatitis and West Nile fever were reported during the thirty day period prior to the shipment; the horses were subjected with negative results to an Agar Gel immunodiffusion test for equine infectious anemia within thirty days prior to the shipment. The tests were performed in an official or authorized Laboratory.

20 – <u>International Animal Health Certificate for Export of Equine Semen from the U.S. to Argentina</u>: Primary attestations include: the United States of America is free from African horse sickness, Venezuelan equine encephalomyelitis, Japanese encephalitis, dourine, according to the recommendations of the OIE; no clinical cases of equine infectious anemia, Eastern and Western equine encephalomyelitis, equine pox, vesicular stomatitis, leptospirosis, surra, equine coital exanthema, brucellosis, infections caused by Salmonella abortus equi, Escherichia coli, Mycoplasma spp., Mycobacterium paratuberculosis and Streptococcus spp. have been registered in the Center for Semen Collection and Processing (CSCP) during the sixty (60) days preceding semen collection; the donors described above were born and raised in the United States of America or have remained in the United States of America for a period of at least 6 months before semen collection; the donors of semen were subjected to diagnostic tests during the isolation period prior to their entry in the CSCP; these tests were repeated every six (6) months during their stay at the facility with negative results for the following diseases: Equine Viral Arteritis and Equine Contagious Metritis.

21 – International Animal Health Certificate for Export of Equine Embryos/Oocytes from the U.S. to Argentina: Primary attestations include: The United States of America is free from African horse sickness, Venezuelan equine encephalomyelitis, Japanese encephalitis, and dourine, according to the recommendations of the OIE; the Center for Embryo Processing (CEP) was inspected and approved by a veterinarian officially accredited by APHIS; the donors described above have remained in the United States of America for a period of at least 6 months before embryo collection; the female donors were kept isolated for at least fifteen (15) days prior to the collection of the embryos/oocytes in a facility where no other horses presented clinical signs of transmissible disease. In that facility, during the 60 days prior to the collection of the embryos/oocytes, there were no clinical cases of vesicular stomatitis, leptospirosis, surra, equine herpes virus infection types 1, 2 y 3, brucellosis, pseudorabies and infections by Salmonella abortus equi, Echerichia coli, Micoplasma spp, Micobacterium paratuberculosis and Streptococus spp; the female donors were negative to following diagnostic tests done during the 30 days prior to embryo/oocytes collection: Equine Viral Arteritis and Equine Contagious Metritis.

22 – <u>Veterinary Health Certificate for Export of Dogs and Cats from the U.S. to Argentina</u>: Primary attestations include: 1. Animals inspected within 10 days prior to embarkation showing no clinical signs of diseases typical of the species. 2. All animals over three (3) months of age vaccinated for rabies. A valid rabies certificate accompanies the shipment. 3. The U.S. is free of African Horse Sickness and Rift Valley Fever. Additional information: Dogs and cats over 3 (three) months of age receiving their first rabies vaccination must wait at least 30 (thirty) days from vaccination before entering Argentina. Certificate is valid for 60 days after issuance.

23 – <u>Health Certificate for Export of Bovine Semen to Argentina from the U.S.</u>: Primary attestations include: the donor was born and raised in the United States or Canada, or has been kept in countries with equal or higher health status; the United States meets the requirements of the OIE to be considered officially free of contagious bovine pleuropneumonia, rinderpest, lumpy skin disease, Rift Valley fever, foot-and mouth disease (all serotypes), and heartwater disease (cowdriosis). Akabane disease has never been reported in cattle in the United States. These health conditions remained on the date of semen collection and for a period of thirty (30) days thereafter. For a period of thirty (30) days after collection within the center there have not been any animals with clinical signs of infectious disease, including brucellosis, bovine tuberculosis, bovine viral diarrhea, bluetongue, campylobacteriosis, enzootic bovine leucosis, leptospirosis, malignant catarrhal fever, infectious bovine rhinotracheitis, paratuberculosis, Q fever, trichomoniasis, and vesicular stomatitis. For laboratory tests and additional certification requirements, see link to certificate in Section 1, Box 23.

24 – <u>Health Certificate for Export of Bovine Embryos in Vivo and/or Produced in Vitro to Argentina from</u> <u>the U.S.</u>: Primary attestations include: the embryos were washed according to the recommendations of the International Embryo Transfer Society (IETS) and were transferred in groups of 10 or less, after 10 washings in sterile media, using sterile micropipettes for each washing. The United States, as well as the country of origin of the oocytes/embryo donor animals as well as the semen donor, is free of rinderpest, Rift Valley fever, lumpy skin disease, foot-and-mouth disease (Types SAT 1, 2, 3 and Asia 1). During the 2 years prior to the collection of the embryos, there have been no officially reported cases of bluetongue, malignant catarrhal fever, pseudorabies (Aujeszky's) or Q fever on the farm of origin of the donor cow or at the embryo transfer center. During the 90 days prior to the collection of the embryos, there have been no officially confirmed cases of infectious bovine rhinotracheitis (IBR), bovine virus diarrhea (BVD), vesicular stomatitis, parainfluenza 3, bovine leucosis, campylobacteriosis (vibriosis), Bovine embryos to Argentina Health Certificate No. (Valid Only if the USDA Veterinary Seal Appears Over the Certificate No.) trichomoniasis, or other infectious or contagious diseases at the establishment of origin of the donor cow or at the ET center. For laboratory tests and additional certification requirements, see link to certificate in Section 1, Box 24.

25 – <u>Health Certificates for Plant and Plant Products for Export from the U.S. to Argentina</u>: Attestations and additional declarations on these certificates must comply with phytosanitary requirements included in import permits after technical conditions have been negotiated with CCA.

26 – <u>Certificate of Free Sale for Export of Processed Food Products from the U.S. to Argentina</u>: This certificate applies to processed food products and is required by the National Food Institute of Argentina. They would ideally require that the certification came from their counterpart in the U.S., which is FDA, but they accept official certification by U.S. State Departments of Health or Agriculture stating that the product is apt for human consumption and is approved for sale in the U.S.

27 – <u>Veterinary Health Certificate for Export of SPF Eggs from the U.S. to Argentina</u>: Primary attestations include: all clinical assays and examinations required to achieve this specific qualification have given favorable results, including negative results of avian influenza and Newcastle disease detection tests, carried out within the last THIRTY (30) days prior to the shipping; the specific pathogen free (SPF) fertile eggs have been kept for a minimum period of SIX (6) weeks immediately prior to export at the production farm. This certificate is valid for 10 days from the date of issuance.

28 – <u>Health Certificate to Export Hatching Eggs and/or Day-Old Birds from the U.S. to Argentina</u>: Primary attestations include: the one-day-old birds or the hatching eggs have not exhibited clinical signs of Newcastle disease, infectious bursal disease, infectious bronchitis, infectious laryngotracheitis, avian encephalomyelitis, fowl cholera, and other reportable transmissible diseases within the last six (6) months. During the continuing epidemiological surveillance, there has not been any evidence of inclusion body hepatitis, infectious chicken anemia, Salmonella enteritidis, Salmonella typhimurium, or pneumovirus-induced swollen head syndrome. The country of origin is free of highly pathogenic avian influenza (fowl plague), and the zone/region is free of Newcastle disease, as defined in the current edition of the terrestrial animal health code. The genetic poultry stock for export to Argentina is produced under the provision of USDA APHIS's National Poultry Improvement Plan (NPIP). Avian influenza "Clean" status requires negative test results against all strains of avian influenza using the agar gel immunodiffusion (AGID) test every 90 days.

29 – <u>Sanitary/Zoosanitary Certificate for the Export of Thermoprocessed Egg Derivatives to Argentina for</u> <u>Animal Consumption</u>: Primary attestations include: country must be free of HPAI and Newcastle Disease, if not product must be processed in such a way to destroy the viruses. These include heat treatment at 60 degrees Celsius for a minimum of 3.5 minutes, but not ionizing radiation, and the treated product was handled in such a way to avoid reinfection or contamination. The animals were born and raised in country for at least the last 6 months. The product is not fit for human consumption but is fit for animal for consumption and is free for sale in the exporting country. The establishment is approved and authorized to export to Argentina by SENASA. The packaging has printed identification of the product to the approved establishment. Handling, loading, and transportation meet hygiene and health regulations of exporting country.

30 – <u>International Health Certificate to Export Laboratory Rodents from the U.S. to Argentina</u>: Primary attestations include: they come from a Supplier Facility recognized by the Competent Authority, who credits the health quality of the laboratory animals for this export to Argentina related to the absence of internal and external parasites, and any microbial agent that could affect these species or humans. The bedding for the transport is of absorbent material and free of toxic chemicals that can harm animals and / or interfere with their biological responses and has been sterilized prior to placement on the transport containers to Argentina. This certificate is valid for ten (10) running days from the date of issuance.

31 – <u>Veterinary Health Certificate for the Export of Laboratory Animal Embryos/Semen from the U.S. to</u> <u>Argentina</u>: Primary attestations include: the embryos/semen have been collected, processed and stored in such a way as to ensure the preservation of its biological potential, as well as its non-contamination. This certificate is valid for ten (10) running days from the date of issuance.

32 – <u>Veterinary Health Certificate for de Export of Carrier Pigeons from the U.S. to Argentina</u>: Primary attestations include: the country/zone or compartment where the breeding establishments are located from which the pigeons are exported to Argentina is declared free of notifiable Avian Influenza and Newcastle Disease to the OIE. The breeding establishment from which the pigeons come is under supervision of a veterinarian officially accredited by the Veterinary Authority and during the last six (6) months prior to the shipment of the pigeons to Argentina that no clinical cases or diagnostic evidence were recorded of notifiable Avian Influenza, Newcastle Disease, Eastern and Western Equine Encephalitis, Psittacosis / Ornithosis, Avian Cholera, Mycoplasmosis, Toxoplasmosis, Trichomoniasis, Salmonellosis, Avian Spirochetosis, Pigeon Herpesvirus, Q Fever and Avian Infectious Bronchitis or other infectious contagious disease restraining international trade. They were born in captivity and have been individually identified and under the control and supervision of a veterinarian officially accredited by the Veterinary Authority official agency responsible for this purpose. For laboratory tests and additional treatments required, see link to certificate in Section 1. Point 31. This certificate is valid for ten (10) running days from the date of issuance.

33 – <u>Veterinary Health Certificate for Export of Mustelids for Commercial Use from the U.S. to</u> <u>Argentina</u>: Primary attestations include: in the establishment of origin and in a radius of 25 km in the last 12 months, there have not been officially registered cases of rabies and Aujeszky's disease; the establishment of origin in the last 12 months has not presented cases of the following infectious/contagious diseases: Tuberculosis, Canine distemper, Epizootic Catarrhal Gastroenteritis; the animals have been vaccinated against rabies no later than the 180 days prior to export; the animals were isolated in the country of origin during the twenty-one (21) days prior to shipment in a facility approved and supervised by the officially accredited veterinarian of the Exporting Country.

34 – <u>Veterinary Health Certificate for Export of Ferrets from the U.S. to Argentina</u>: Primary attestations include: the animals were born and raised in the exporting country or have been legally imported at least 21 days prior to their shipment to Argentina; the animals have not shown any pathology with nervous symptoms or other symptoms compatible with Transmissible Spongiform Encephalopathies (TSE) disease; animals have to be vaccinated for rabies.

35 – <u>Veterinary Health Certificate for Export of Pet Swine from the United States to Argentina</u>: Primary attestations include: pigs must remain isolation for a minimum of thirty days prior to shipment, and must be free of infectious contagious and parasitic diseases. Pigs were kept since birth or for at least ninety days in an Foot-and-Mouth Disease free country or zone with or without vaccination recognized by the OIE and SENASA. Pigs were kept since birth or at least ninety days in a country or zone that complies with the OIE and SENASA to be considered free of African Swine Fever, and Classical Swine Fever. In the location of origin, no cases of Porcine Epidemic Diarrhea and Transmissible Gastroenteritis were reported during the last twelve months prior to shipment, and during the last six months no cases of Porcine Reproductive and Respiratory Syndrome were reported prior to shipment. Regarding Aujeszky's disease, during the isolation period, pigs were subjected to a test for the detection of the complete virus by Virus Neutralization or Elisa test with negative result.

36 – <u>Veterinary Health Certificate for Export of Live Salmonids or Salmonid Eggs from the United States</u> <u>to Argentina</u>: Main attestations follow: The exporting establishment or origin of the farmed aquatic animals, or the zone of capture for wild-caught animals, is free of the following diseases: Epizootic Hematopoietic Necrosis, Infectious Hematopoietic Necrosis, Spring Viremia of Carp, Gyrodactylus Salaris, Viral Hemorrhagic Septicemia, and Piscirickettsia Salmonis. In the premises of origin of the animals, diagnostic tests have been conducted within ninety days before shipment, with negative results, to the following diseases: Infectious Pancreatic Necrosis, Infectious Salmon Anemia, and Epizootic Ulcerative Syndrome. The broodstock used in the production of embryonated eggs have been inspected with thirty days prior to spawning, and were found to display no clinical signs of infectious or contagious diseases.

# Section IV: Government Certificate Legal Entry Requirements

### Animal and Aquatic Product Registration

SENASA requires registration of all imported animal & aquatic products. The registration consists of the submission of a product description document (monograph) providing a description of the products to be registered. SENASA assigns a unique registration number to the product in the document, which will be included in the product label. Argentina now longer requires U.S. government authority signature on the product description document submitted

for product registration to SENASA. Instead a company quality control representative or competent and legally liable company official may sign the description.

## **Plant Products**

SENASA requires registration of all plant products that are imported to Argentina. To be allowed entry into the country, U.S. plant products must be accompanied by a USDA Phytosanitary Certificate signed by an APHIS representative, and an import permit (AFIDI, in Spanish) issued by SENASA. The importer declares the characteristics of the product (name, destination, origin, etc.) to be imported to SENASA.

For additional information on registration of animal and plant products in Argentina, please see FAS Buenos Aires' "FAIRS Narrative 2021" report.

# Section V: Other Certification/Accreditation Requirements to Ensure Market Entry

Argentina's Ministry of Health's ANMAT, through INAL, provides additional requirements for the following products:

Health/Dietary Supplements: On December 29, 2020, <u>Joint Resolution 3/2020</u> was published in the Official Bulletin, which modified Articles 1381 and 1381 tris of the CAA. Besides establishing the definition of health supplements, the resolution sets up special requirements about labeling and composition of these types of products.

Enriched Flour: All flour-based products must be produced with enriched flour, with the exception of diet products, flours destined for the manufacturing of products for the export market, flours for export, and organic flours.

Salt: Argentina's requirements include warning messages in food packages about the health risks of a high-salt intake for consumers, primarily in meat products, flour products, soups, dressings, and pickled vegetables.

For additional information on other requirements, please see FAS Buenos Aires' "FAIRS Narrative 2021" report.

Certificado sanitario No / Health Certificate No:

IV. Sanitary Certification / Certificación Sanitaria:

The official inspector hereby certifies that the products covered by this certificate are fully compliant with sanitary conditions detailed below: /Par la presente el inspector aficial certifica que los productos que corresponden a este certificado cumplen con los normas sonitarios siguientes:

A. Regarding the animals that gave rise to the product: / De los animales que dan origen al producto:

1. The animals from which the product derives were slaughtered under the authority of U.S. food safety regulations that require compliance with the U.S. National Residue Program pertaining to the use of hormones and growth promoters (estrogenic, thyrostatic and anabolic). / Los animales que dieron origen a los productos fueron sacrificados bajo reglamentos de inocuidad alimenticia y el Programa Nacional de Residuos de los ELUU, los cuales requieren cumplimiento con estándares del uso de sustancias con efecto hormonal, estragênico, de acción tirostática y/o anabolizante y/o promatoras del crecimiento.

The animals from which the product derives were determined to be suitable for slaughter in ante- and post-mortem examinations. / Los animales de los cuales se obtuvo el product fueron reconocidos aptos en el examen ante y post mortem.

B. Regarding the slaughter and manufacturing plants: / De las plantas de faena de las animales y elaboradoras de los productos:

3. The slaughter and product processing plants are approved by the official competent authorities of the United States, and the processing plants are recognized as authorized to export to Argentina by SENASA. / Las plantas de faena y producción del producto están habilitadas por las agencias oficiales pertinentes en los EEUU y las plantas de producción del producto son reconocidas para exportar a la República Argentina por el Servicio Nacional de Sanidad y Calidad Agroalimentaria (SENASA).
Please note: The exporter is required to provide evidence that the SENASA Argentina considers the slaughter and the product processing plants as approved.

4. In the establishment producing hide-derived collagen and gelatin the equipment used is subjected to cleaning and disinfection processes that assure the absence of contaminating extraneous raw materials. / En el establecimiento elaborador de colágeno y gelatina de cuero, todo su equipamiento es sometido a procesos de limpieza y desinfección que aseguren la ausencia de residuos de materias primas de otro origen.

### C. Regarding the carcasses / De los conoles:

5. The carcasses that give rise to the product are identified individually through a documented and auditable system that allows the determination of origin of the animals. / Los canales fueron identificadas individualmente mediante un sistema documentado y auditable que permite reconocer el origen de los animales de los que proceden.

### D. Regarding the products: / De los productos:

6. The product is intended for human consumption and is freely available in commerce. / El producto está destinado al consumo humano y es de libre comercialización en los Estados Unidos.

7. The products were subject to applicable norms and programs in the country of origin. These norms and programs have been are recognized by SENASA Argentina as equivalent. / Los productos fueron sujetas a la normativa y programas aplicables en el país exportador. Dichas normativas y programas son considerados por el SENASA como equivalentes a los de la Republica Argentina. Please note: The exporter is required to provide evidence that the SENASA Argentina considers the applicable processing norms and programs as equivalent.

 The certified products were not intentionally subjected to the effects of ionizing radiation. / Los productos certificados no han sido expuestos intencionalmente a los efectos de radiaciones ionizantes.

9. Product packaging has printed information that establishes a correlation of the product to the officially approved manufacturing establishment cited on this certificate. / El empaquetado tiene una etiqueta impresa certificando que el producto tiene una correlación con el establecimiento habilitado por las autoridades sanitarias que figura en el presente certificado.

10. The product has been handled, loaded and transported under conditions complying with the hygiene and sanitation requirements in force in the exporting country. / Los condiciones de manipuleo, carga y transporte, se ajustan a los normos de higiene y sanidad vigentes en el país exportador.

11. Necessary precautions were taken after manufacturing to assure that the product was not in contact with sources of contamination. / Se tomaron las precauciones necesarias después de la elaboración del producto para impedir que estuviera en contacto con cualquier fuente de contaminación.

In item 12, indicate appropriate processing option:

12. The hides were subjected to the following processing that assures the inactivation of pathogenic agents that affect animal health: a filtration; b ionic exchange; a sterilization. / Los cueros han sido sometidos a un proceso que asegura la no viabilidad de agentes patógenas a la salud animal: a) filtrado, b) intercambio iónico, c) esterilización (tachar la que no corresponda).

E. Other / Otros:

13. For each lot of product, the manufacturer maintains documentation that allows traceability of the raw material used to manufacture the product. / Para cada lote de producto, el elaborador es requerido mantener documentación que permite la trazabilidad del material crudo utilizado para su manufactura.

14. The containers used for the preservation and transport of the product have been approved by the competent authority in the exporting country. / Los envases son reconocidos por la autoridad competente del gobierno de país exportador como aptos para la conservación y transporte del producto.

Please note: The exporter is required to provide evidence that the SENASA Argentina has approved the container type.

15. The treatment used in producing the product assures the inactivation of pathogens that affect animal health and impedes development of microorganisms. / El tratamiento utilizado guarantiza la no viabilidad de agentes patógenos que afecten la salud animal e implde el desarrollo de los mismos.

Note: In the event that the collagen and/or gelatin is intended for use as an ingredient or component of a finished product that will be used in an establishment authorized by SENASA, this use must be approved by the General Direction of Animal Laboratories. If the finished product is intended for use in establishments of other entities, the use must be approved by the pertinent Service. NOTA: Si el colágeno o la gelatina autorizado por el SENASA es parte integrante o va a ser componente de un continente alimenticio utilizado en establicimientos habilitados por este Servicio, una vez autorizado y previamente a importarse, deberá ser aprobado por la Coordinación General de Laboratorio Animal a tal fin. Para uso fuera del ejida de este Servicio, aprobarlo ante quien corresponda una vez autorizado previamente por SENASA.

Certificado sanitario No / Health Certificate No:

El Veterinario Oficial que suscribe, certifica que la mercadería objeto del presente certificado está en un todo de acuerdo con las condiciones sanitarias más abajo detalladas, cumpliendo con los siguientes: REQUISITOS PARA LA EXPORTACIÓN DE CUEROS BOVINOS SECOS SALADOS

PARA SU USO EN CURTIEMBRES A LA REPUBLICA ARGENTINA

The Official Veterinarian signing this form certifies that the product represented by this certificate complies with all the sanitary conditions detailed below and with the following:

> REQUIREMENTS FOR THE EXPORT OF BOVINE SALTED HIDES

FOR USE IN TANNERIES TO ARGENTINA

- Que los Estados Unidos cumplen con todos los criterios de la OIE para ser reconocidos como libres de Peste Bovina, Dermatitis Nodular Contagiosa, y Enfermedad de Fiebre Aftosa. / The United States meets all OIE criterio to be recognized as free of rinderpest, lumpy skin disease, and foot-and-mouth disease.
- Que el ganado del cual los cueros fueron obtenidos nacieron y se criaron en los Estados Unidos o fueron legalmente importados a los Estados Unidos de países de igual o superior condición sanitaria. /The cattle from which the hides were obtained were born and raised in the United States or legally imported into the United States from countries with equal or superior sanitary status.
- 3. Que los animales de los cuales se obtuvieron los cueros recibieron inspección bajo control oficial en el momento de la faena y no presentaron sintomas de evidencia alguna de enfermedad infecto- contagiosas transmisibles a través del producto certificado, incluyendo el antrax. / The cattle from which the hides were obtained received slaughter inspection under official control and showed no evidence of infectious or contagious diseases transmisible through the certified product, including anthrax.
- El producto certificado se ha tratado eficientemente para destruir cualquier parásito externo de importancia. / The certified product has been effectively treated to destroy any external parasites of importance.
- Durante el proceso los cueros fueron limpiados y recortados para remover los excesos de carne, grasa, tendones, tierra, estiércol, y otros desperdicios. / During processing, the hides were cleaned and trimmed to remove excess meat, fat, sinews, dirt, feces, and other debris.
- El producto no es un derivado de la faena de animales como resultado de control de enfermedades o programa de erradicación. / The product was not derived from animals slaughtered as a result of a disease control or eradication program.
- Los vehículos y medios de transporte, así como las condiciones de carga, cumplen con las leyes y regulaciones vigentes en los Estados Unidos. / Product handling and transporting requirements are established by U.S. laws and regulations.

#### IV. ATTESTATIONS / DECLARACIONES

The official inspector hereby certifies that the products covered by this certificate are fully compliant with sanitary

Conditions detailed below. / Por la presente el inspector official certifica que los productos que corresponden a este

Certificado cumplen con las normas sanitarias siguientes:

A. Regarding the country of origin of the animals / Del País de origen de los animales

- The country of origin of the animals is either a BSE negligible risk or controlled risk country. / Que el Pais de origen de los animals has side declarado como de riesgo insignificante or controlado de BSE.
- 2. The United States prohibits the feeding of meat and bone meal which may have runniant proteins to runniant animals. This regulation is effectively enforced. / Los Estados Unidos prohibe la alimentación de animales runniates con harina de came y hueso que pueden tener proteinas de runniates. Se vigila con efectividad el cumplimiento de esta norma.
- The United States is free of OIE transmissible through tallow. / Los Estados Unidos está libre de todos las enfermedades de la OIE transmisibles por el sebo bovino.
- 8. Of the animals from which the product derives /De los animals de los que se origina el producto
  - 4. The animals from which the tallow is derived are from areas free of OIE-listed diseases through tallow. The product was produced under a system of rules and regulations in force in the United States. / Que los animales que han dado origen al product provienen de áreas que han sido declaradas libres de las enfermedades listadadas por la OIE transmisibles por el sebo bovino. El producto ha sido elaborado de acuerdo a la normativa legal vigente en los Estados Unidos de Norteamérica.
- C. Of the slaughter and/or processing pants / De las plantas faenadoras y/o elaboradoras
  - 5. The product was manufactured in facilities approved by and under the supervision of the U.S. competent authority and is authorized to export to the country of destination. / Que la mercaderia descripta proviene de establecimientos habilitados y controlados por autoridades competentes de los Estados Unidos y autorizados a exportar al país de destino.
- D. Of the product / Del producto

  - The product is freely traded within the boundaries of the exporting country. / Que es de libre comercialización en el territorio del país exportador.
- E. Others/Otras
  - 8. The handling, loading, and transporting conditions are governed by and meet the hygiene and health requirements in force in the exporting country. / Que las condiciones de manipuleo, carga y transporte, se ajustan a las normas de higiene y sanidad vigentes en el país exportador.

Certificado sanitario No / Health Certificate No:

El Veterinario Oficial que suscribe, certifica que la mercadería objeto del presente certificado está en un todo de acuerdo con las condiciones sanitarias más abajo detalladas, cumpliendo con los: / The Official Veterinarian signing this form certifies that the product represented by this certificate complies with all sanitary conditions detailed below fulfilling the following:

> Requisitos Sanitarios para la Importación de Cartilagos y/o Extractos de Cartilagos Aviares Termoprocesados Para Uso Farmacéutico a la República Argentina / Sanitary Requirements to Export Thermo-Processed Poultry Cartilage and/or Cartilage Extracts for Pharmaceutical Use to Argentina

A. De los animales que dieron origen al producto: / Of the animals from which the products derive:

1- Que no han sido sacrificados como consecuencia de programas de erradicación de enfermedades infectocontagiosas o parasitarias ni proceden de áreas sujetas a medidas de control cuarentenario que impliquen un riesgo para su comercialización, de acuendo a las recomendaciones al efecto de Código Zoosanitario Internacional de la OIE. / The birds were not sloughtered os a result of any infectious contagious or parasitic disease eradication program nor were they sourced from an area under restrictive quarantine measures that imply any trade risk, as recommended in the Terrestrial Animal Health Code of the World Organization for Animal Health (OIE).

2- Que en los animales que dieron origen a los productos no han sido utilizadas sustancias con efecto hormonal, estrogénico, de acción triostática, anabolizante o promotoras del crecimiento que no se hallen expresamente aceptadas en el Codex Alimentarius. / In the animals from which the products come from no substances with hormonal, estrogenic, thyrostatic, anabolic ar growth promoting effects that are not s specifically accepted in the Codex Alimentarius how been used.

3- Que los animales fueron faenados y reconocidos sanos, no presentando en los exámenes ante y post mortem signos de enfermedades infectocontagiosas. / The onimals were found sound and healthy at sloughter, without signs of infectious, contagious diseases in ante- and post mortem examination.

B. De las plantas faenadoras y elaboradoras: / Of the sloughterhouses and processing plants:

4- Los establecimientos de faena que dieron origen al producto están aprobados y bajo la supervisión oficial del Servicio de Inspección y Seguridad de Alimentos del USDA. / The sloughter facilities giving rise to the product are approved and under official supervision by USDA. Food Safety and Inspection Service.

5- Que las plantas faenadoras y elaboradoras están habilitadas y supervisadas por el Servicio Veterinario Oficial y autorizadas por el Senasa a exportar a la República Argentina. / The slaughtering and processing plants are approved and supervised by the Official Veterinary Service and have been authorized by SENASA to export to Argentina.

### C. De los productos: / Of the products:

6- Que fueron tratados térmicamente de acuerdo a los procedimientos recomendados en los artículos de la versión vigente de Código Terrestre de la OIE para la inactivación en carnes de los virus de Influenza Aviar de declaración obligatoria y de la enfermedad de Newcastle. / The product was heat treated in occord with the recommended procedures of the current version of the Terrestrial Animal Health. Code of the OIE for the inactivation of notfibile avian influenza and Newcastle disease.

7- Que los productos provienen de aves de corral aptas para el consumo humano. / The products derive from poultry declared wholesome and fit for human consumption.

8- Que no han sido expuestos intencionalmente a los efectos de radiaciones ionizantes. / The product was not intentionally exposed to ionizing radiation.

9- El país exportador tiene en funcionamiento programas de control y vigilancia que incluyen el testeo periódico para detectar niveles nocivos de sustancias (hormonas, drogas, insecticidas, metales pesados o toxinas). / The exporting country has in place control and surveillance programs, including periodic testing, to ensure against harmful level of substances (hormones, drugs, insecticides, heavy metals, or toxins).

10- El país exportador tiene en funcionamiento programas de control y vigilancia que incluyen el testeo periódico para detectar niveles nocivos de sustancias (hormonas, drogas, insecticidas, metales pesados o toxinas). / The exporting country has in place control and surveillance programs, including periodic testing, to ensure against harmful levels of substances (hormones, drugs, insecticides, heavy metals or toxins).

#### D. Otras / Others

11- El empaquetado tiene una etiqueta impresa certificando que el producto tiene una correlación con el establecimiento habilitado, por las autoridades sanitarias que figura en el presente certificado. / Product packaging has printed information that establishes a correlación of the product to the officially approved manufacturing establishment cited on this certificate.

Note: This requirement is the responsibility of the exporter.

12- Que las condiciones de manipuleo, carga y transporte se ajustan a las normas de higiene y sanidad recomendadas internacionalmente que garantizan evitar el contacto del producto con cualquier fuente potencial de contaminación. / That the handling loading and transportation conditions comply with the internationally recommended hygienic and sanitary regulations that guarantees avaiding contact of this product with any potential source of contamination.

13- Que el producto destinado a uso opoterápico, tanto el embalaje y el certificado llevan una levenda destacada con el siguiente texto: "CON DESTINO EXCLUSIVO A USO OPOTERAPICO". / The product intended for phormaceutical purpose has on the packaging and indicated on the certificate highlighted text that reads: "EXCLUSIVELY FOR PHARMACEUTICAL USE".

El Veterinario Oficial que suscribe, certifica que la mercaderia objeto del presente certificado está en un todo de acuerdo con las condiciones sanitarias más abajo detalladas, cumpliendo con los / The Official Veterinarian signing this form certifies that the product represented by this certificate complies with all of the sanitary conditions detailed below:

Requisitos para la exportación de catilagos aviares congelados para Uso Opoterapico a la República Argentina

Requirements for the export of frozen poultry cartilage for Pharmaceutical Use Only To the Republic of Argentina

- A. Del País / Of the country
  - El país de origen de la mercadería ha sido declarado libre de influenza Aviar altamente patógena (IAAP) y
    de enfermedad de Newcastie ante la Oficina Internacional De Epizootias (OIE). / The country of origin of
    the product has been declared free of High Pathogenic Avian Influenza (HPAI) and Newcastle disease before the
    World Organization for Animal Health (OIE)
  - 2. Que los EE.UU, posee un programa epidemiológico de vigilancia designado para detectar cepas de Influenza Aviar de Baja Patogenicidad, y todos los subtipos H5 y H7 de Influenza Aviar de Baja Patogenicidad (Influenza Aviar de Baja Patogenicidad notificable) son reportados ante la OIE\_/ The United States has an epidemiological surveillance program designed to detect low pathogenic strains of avian influenza, and all detections of H5 and H7 subtypes of low pathogenic avian influenza (i.e., low pathogenicity notifiable avian influenza, or UNAI) are reported to the OIE.
- B. De los establecimientos de origen de las aves / Of the establishments of origin of the poultry
  - 3. Que las aves de las cuales se obtuvo el producto no fueron vacunadas contra la Enfermedad de Newcastie (ENC) con vacunas producidas con una cepa madre cuyo Indice de Patogenicidad Intracerebral (IPIC) sea superior al de las cepas lentogénicas del virus. / The birds from which the product comes were not vaccinated against Newcastle disease with vaccine produced from a mother strain whose Intercerebral Pathogenicity Index is greater than the lentogenic strains of the virus.
  - 4. Las granjas de las aves que den origen a los cartilagos y las plantas de faena, elaboración y depósitos de donde proviene el producto no se encuentran comprometidos por la ocurrencia de un foco o por la cercania con los mismos con los casos de influenza aviar de declaración obligatoria de baja patogenicidad. / The farms of the binds giving rise to the product and the slaughter and processing plants and the warehouse sources of the product were not ot risk due to o focus or proximity to a focus of low pathogenic notifiable avian influenza.
- C. De las aves de las que se origina al producto / Of the animals from which the products come from
  - 5. Que las aves de las cuales se obtuvo el producto nacieron y permanecieron en EE.UU. o fueron legalmente importadas como polítos de UN (1) día de regiones con programas y status sanitarios aviares equivalentes. / The birds from which the product was sourced were born and roised in the United States or legally imported as ONE (1) diay oid chicks from regions with equivalent poultry health stotus and programs.
  - 6. Que las aves de las cuales se obtuvo el producto permanecieron en una región libre de la Enfermedad de Newcastle desde su eclosión hasta la faena o fueron legalmente importadas como polítos de UN (1) día. / The birds from which the product was sourced remained in a U.S. region free of Newcastle disease from the time of hatching until sloughter or they were legally imported as ONE (1) divold chicks.
  - 7. EE.UU: Ileva a cabo un plan de control de residuos que incluye el análisis de carne aviar para detectar niveles peligrosos de distintas sustancias (hormonas, drogas, pesticidas, y contaminantes del ambiente) para asegurar que la carne no esté adulterada. / The United States hos in place residue control programs which include testing of poultry meat for hompful levels of substances (hormones, drugs, pesticides, and environmental contaminants) to ensure that the meat is not adulterated.
  - 8. Las aves no han sido sacrificadas como consecuencia de programas de erradicación de enfermedades infectocontagiosas o parasitarias, ni proceden de áreas sujetas a medidas de control cuarentenario, y su comercialización no implica ningún riesgo para las aves, de acuerdo al Código

Sanitario para los Animales Terrestres de la DEE. / The birds were not sacrificed as a result of an infecto-contagious or parasitic disease eradication program, nor were they sourced fram an area. under restrictive quarantine measures that imply any commercialization risks relative to poultry as stated in the DIE Terrestrial Animal Health Code.

- Las aves se encontraban sanas al momento de la faena, no presentando evidencia de enfermedades sistémicas infectocontagiosa durante los exámenes ante y post mortem. / The birds were found sound and healthy at sloughter, without evidence of systemic infecto-contagious diseases during ante and post mortem examination.
- D. De las plantas elaboradoras / Of the processing plants
  - 10. Que las plantas faenadoras y elaboradoras están habilitadas y supervisadas por el Servicio. Veterinario Oficial del país que certifica./ The slaughter and processing facilities are authorized to operate and are supervised by the Official Veterinary Service of the certifying country.
- E. Del producto / Of the products
  - Que el producto no ha sido expuesto intencionalmente a los efectos de radiaciones ionizantes./ The product was not intentionally exposed to ionizing radiation effects.
- F. Otras/Others
  - 12. El empacado del producto tiene una identificación impresa que garantiza la correlación entre el producto y el establecimiento aprobado oficialmente que se menciona en el presente certificado. El país exportador es responsable por el etiquetado. / The packaging of the product has a printed\_identification that guarantees the correlation of the product to the officially approved manufacturing establishment mentioned in this certificate. The labeling is the responsibility of the exportingcountry.
  - 13. Las condiciones de manipuleo, carga y transporte del producto, se ajustar a las normas de bigiene y sanidad vigentes en el país exportador. / Product handling, loading, and transport conditions are subject to current hygiene and sonitary standards in the exporting country.
  - Los contenedores, envoltorios y el certificado llevan una leyenda destacada con el siguiente texto: "CON DESTINO EXCLUSIVO A LA PRODUCCION DE OPOTERAPICOS". / The packaging and/or containers are clearly labeled "FOR PHARMACEUTICAL USE ONLY."

      - a. Los animales de los que se origina el producto no presentaron, en el dia del sacrificio o esquila, ningun signo de fiebre aftosa / The animals from which the product originated presented no signs of Foat and Mouth Disease on the day of sacrifice or shearing.
      - b. Permanecieron en un pais o zona libre de Fiebre Aftosa desde su nacimiento, y en el pais exportador en los ultimos 3 meses previos a su exportacion / They have lived in a country or zone free of Foot and Mouth Disease since birth and in the exporting country for the last three months prior to export.
      - c. Los productos fueron sonmetidos a un tratamiento que garantice la destruccion del virus de la fiebre aftosa conforme a lo establecido en el Coldigo de la OIE de Articulo 3.6.2.2<sup>3</sup> del Anexo 3.6.2./ The
        - products were submitted to a treatment guaranteeing the destruction of the Foot and Mouth Virus and according to what has been established by the OIE code, Annex 3.6.2, Article 3.6.2.3
      - d. Se tomaron las precauciones necesarias despues del tratamiento para evitar la contaminacion por una fuente potencial./ The necessary precautions have been taken after treatment to avoid contamination by potential sources.
    - C. Infectado, donde existe un programa official de control que incluye la vacunación sistematica obligatoria de los bovinos utilizando vacuna aprobada segun normas de la OIE./ infected, where an official control program exists which includes the obligatory systematic vaccination of bovines using an approved vaccine following OIE norms.
      - a. Los animals de los que se origina el producto no presentaron, en el dia del sacrificio o esquila, ningun signo de fiebre altosa./ The animals from which the product originated presented no signs of Foot and Mouth Disease on the day of socrifice or shearing.
      - b. Los productos fueron sonmetidos a un tratamiento que garantice la destruccion del virus de la fiebre aftosa conforme a lo establecido en el Coldigo de la OIE de Artículo 3.6.2.2<sup>3</sup> del Anexo 3.6.2./ The
        - products were submitted to a treatment guaranteeing the destruction of the Foot and Mouth Virus and according to what has been established
      - by the OIE code, Annex 3.6.2, Article 3.6.2.2<sup>3</sup> c. Se tomaron las precauciones necesarias despues del tratamiento para evitar la contaminacion por
      - una fuente potencial./ The necessary precoutions have been taken ofter treatment to avoid contamination by potential sources.
- B. DE LOS ANIMALES QUE DAN ORIGEN AL PRODUCTO/ OF THE ANIMALS FROM WHICH THE PRODUCT ORIGINATES

2. Que los aniamles de los que proviene el producto, son nacidos en territorio del país exportador o en otro país con una condicion zoosanitaria similar respecto a las mencionadas en 1)./ That the animais from which the product originates, were born in the territory of the exporting country or in a country with a similar zoosanitary condition with respect to the diseases mentioned in 1).

3. Que el producto no proviene de animales que fueron destruidos o identificados para su destrucción como resultado

de un programa oficial de control y/o erradicación de enfermedades./ That the product does not come from animols that were either destroyed or identified for destruction as a result of an official disease control or eradication program.

#### C. DEL PRODUCTO/ OF THE PRODUCT:

4. Que la lana esta libre de Sarna y Melofagosis Ovina o han sida almacenadas por mas de 30 dias sin tener contacto con fuentes de contaminacion./ That the wool is free of Mange and Melophagus ovinus (sheep keds) or has been stored for more than 30 days with no contact with potential sources of contamination.

D. OTROS/ OTHER

5. Los vehículos y los medios de transporte, así como las condiciones de carga de la expedicion, se ajustan a las normativas de hygiene y sanidad vigentes para estos productos en el país expedidor./ The vehícles and means of transport, as well os the dispatch cargo conditions, comply with the hygiene and health regulations current for this product in the dispatching country.

6. Los productos provienen de establecimientos que se encuentran habilitados por la Autoridad Sanitaria de los Estados Unidos./ Products come from a plant officially authorized by the competent authority of the United States.

in formaldehyde in a hermetically sealed chamber for at least 24 hours. The most practical method is to place potassium permanganate in containers (which must NOT be made of plastic or polyethylene) and add commercial formalin; the amounts of formalin and potassium permanganate ore respectively 53ml and 35 g per cubic metre of the chamber;

<sup>&</sup>lt;sup>3</sup> Articulo 3.6.2.2 Lanas y pelos/ Article 3.6.2.2 Wool and hair

Para inactivar el virus presente en las lanas y los pelos destinados al uso industrial se deberá utilizar uno de los procedimientos siguientes/ For the inactivation of viruses present in wool and hair for industrial use, one of the following procedures should be used:

lavado industrial, que consiste en sumergir la lana en una serie de baños a base de agua, jabón e hidróxido de sodio (sosa) o hidróxido de potasa (potasa)/ industrial washing, which consists Para of the immersion of the wool in a series of baths of water, soap and sodium hydroxyde (soda) or potassium hydroxyde (potash);

depliación química con cal apagada o sulfuro de sodio/ chemical depliation by means of sloked lime ar sodium sulphide;
 fumigación con formaldehido en un local herméticamente cerrado durante 24 horas por lo menos; el procedimiento más práctico consiste en verter en recipientes - que NO sean de plástico ni de polietileno - permanganato potásico y añadirle formol

comercial; las cantidades de formol y de permanganato potásico son de 53 mil y 35 g respectivamente por m<sup>3</sup> de local/ fumigation

Iavado industrial, que consiste en sumergir la lana en un detergente soluble en agua mantenido a una temperatura de 60-70°C/ industrial scouring which consists of the immersion of wool in a water-soluble detergent held at 60-70°C;

almacenamiento de la lana a 18°C durante cuatro semanas, a 4°C durante cuatro meses o a 37°C durante ocho dias/storage of wool at 18°C for 4 weeks, or 4°C for 4 months, or 37°C for 8 days.

Certificado sanitario No / Health Certificate No:

V. Sanitary certification / Certificación sanitaria:

The official inspector hereby certifies that the products covered by this certificate are fully compliant with sanitary conditions detailed below/Por la presente el inspector oficial certifica que los productos que corresponden a este certificado cumplen con las normas sanitarias siguientes:

A. Of the country/ del pais:

- The country or zone is declared free of Rinderpest, Foot-and-mouth disease and Rift Valley Fever, or the milk comes from animals imported from countries or zones free of these mentioned diseases/El pais o la zona fue declarada libre de Peste Bovina, Fiebre Aftosa y Fiebre del Valle del Rift, o la leche proviene de animales importados de países o zonas libres de estas enfermedades.
- 2. Products were obtained from animals raised in or legally imported into the U.S., and/or produced with dairy ingredients imported legally.Los productos provienen de animales que fueron criados en los Estados Unidos o animales que fueron importados legalmente a los Estados Unidos, y/o fueron elaborados con ingredientes lácteos importados legalmente al país.
- The milking facilities are officially licensed or permitted to operate through a system of laws in force in the United States./Los
  establecimientos lecheros están autorizados o fueron habilitados por las autoridades a operar de acuerdo a las leyes vigentes de los
  Estados Unidos.
- 4. The farms are free of all diseases, transmissible in milk product, listed in list A and B of the O.I.E., not mentioned in this letter, during the last 60 days prior to milking./En los mismos, no se han registrado en los 60 dias previos a la obtención de la leche, enfermedades de la Lista A y B de la O.I.E. transmisibles en productos lácteos, no citadas en el presente.
- 5. The United States has in place a system to ensure that dairy animals are administered no formulations with hormonal, estrogenic, thryostatic, or growth-promoting effects, that were not specifically accepted in the Codex. Alimentarius or by the U.S. Food and Drug Administration/Hay un sistema funcionando en Estados Unidos que asegura que los animales que dan origen a la leche no fueron sometidos a la acción de sustancias estrogénicas y hormonales naturales o sintéticos, preparados tirostáticos, antibióticos, u otros inhibidores del crecimiento y tranquiliantes, que no son especificamente aceptados por el Codex Alimentarius o por la Administración de Alimentos y Drogas de los Estados Unidos (U.S. Food and Drug Administration).
- B. Of the milk/En referencia a la leche:
- 6. Products were manufactured from milk that received a pasteurization treatment of at least 161 degrees Fahrenheit (72 degrees Celsius) for a minimum of 15 seconds or a process that results in public health safeguards at least equivalent to this temperature and time relationship/Para ta elaboración de los productos se usó leche que fue pasteurizada a una temperatura minima de 161 grados Fahrenheit (72 grados Celsius) por un minimo de 15 segundos, o se aplicaron procesos equivalentes a la leche que garantizan el mismo nivel de cumplimiento de las normas de salud publica.
- The milk was obtained, collected, cooled, stored, and transported through a system of laws in force in the country of export/La leche fue obtenida, recogida, enfriada, almacenada γ transportada conforme a las leves vigentes en el país exportador.
- C. Of the producers of dairy products/Los establecimientos productores de productos lácteos:
- 8. Products come from a plant officially authorized to process milk and milk products by the competent authority of the United States and subject to the approval of SENASA (Servicio Nacional de Sanidad y Calidad Agnalimentaria). Los productos provienen de establecimientos que se encuentran habilitados por la Autoridad Sanitaria de los Estados Unidos para procesar leche y productos lácteos, y aprobados por SENASA (Servicio Nacional de Sanidad y Calidad Agnoalimentaria).
- D. About the products/En referencia a los productos:
- 9. The products are packaged, using material suitable to the product type, in a way that conforms to the regulations in the United States. The packages are labeled using a method to allow identification of the manufacturer./Los productos son envasados usando material apto para el producto y conforme a las normas de los Estados Unidos. Los envases. Ilevan la identificación del producto y permiten la identificación del establecimiento elaborador.

IV. Certificación Sanitaria

El veterinario oficial abajo firmante certifica que:

Veterinario Oficial / Official Veterinarian

Lugar / Place:

Fecha / Date:

Firma: Signature:

Sello / Stamp: imprenta) Nombre y Apellidos, cargo y titulo: (en letras de

Name (in capitals): Qualification and title:

### 15 - Certification for the Export of Pet Food to Argentina:

### Certification for the Export of Pet Food to Argentina

Argentina prohibits the importation of pet food containing ruminant origin materials from the United States and shipments are subject to species identification testing. However, shipments of pet foods containing ovine ingredients imported from Australia and New Zealand have been acceptable. The export health certificate must clearly identify such ingredients. Exporters are encouraged to check with their importer to verify labeling and import requirements.

Exports of pet food from production plants that also process ruminant material sourced from countries other than Australia or New Zealand should provide evidence of an effective separation protocol. NCIE recommends that export lots of pet food from such production plants be tested to determine apparent freedom from ruminant materials.

Important note: Exports of pet food from production plants that also process ruminant material sourced from countries other than Australia or New Zealand should provide evidence of an effective separation protocol and/or evidence of effective use of flushing. NCIE recommends that export lots of pet food from such production plants be tested with ELISA cooked meat speciation technology to determine freedom from ruminant materials.

An itemized listing of the products containing animal ingredients covered by the certificate should not be part of the certificate. Please note, however, that all invoice numbers covered by the certificate must be listed in the IDENTIFICATION block of the VS form 16-4 and that these invoices must be presented to SENASA with the certificate.

Recommended statements for the VS form 16-4 are as follows:

This office has on file a notarized affidavit from [insert company name] verifying the accuracy of the statements below: / *Esta oficina mantiene en archivos una declaración notarizada de [nombre de la compañía] que verifica la certeza de las declaraciones de abajo:* 

1. The raw materials used in the manufacture of the product were obtained from healthy animals subject to slaughter inspection and found to be fit for inclusion in pet food. The product was manufactured in authorized facilities subject to inspection by the United States Department of Agriculture. / Las materias primas usadas en la manufactura del producto fueron obtenidos de animales sanos sujetos a inspección en la planta de faena y se encontraron aptos para su inclusión en alimentos de mascota. Los productos fueron manufacturados en establecimientos habilitados sujetos a inspección del Departamento de Agricultura de los Estados Unidos.

2. The pet food exported to the Republic of Argentina comes from establishments authorized by the Official Veterinary Authority of the U.S., and all their equipment is subject to cleaning and disinfection processes that ensure the absence of residues of raw materials of other origin. / Las partidas que se exportan a la Republica de Argentina

Pet food

August 28, 2012

proceden de establecimientos habilitados por la Autoridad Veterinaria Oficial de EE.UU. y que todo su equipamiento es sometido a procesos de limpieza y desinfección que aseguran la ausencia de residuos de materias primas de otro origen.

3. All sources of animal products used in the manufacture of the products are certified in this certificate. / Todas las fuentes de materias primas de origen animal usadas en la manufactura de estos productos son aquellas certificadas en este certificado.

4. The production line used to produce the product either handles no ruminant meat and meal products except those from Australia and New Zealand or uses effective flushing processes and maintains separation protocol that have been monitored to determine no presence of ruminant materials unless included as an approved ingredient. / La línea de producción usada para fabricar el producto no manipula alimentos y carne de rumiantes a excepción de aquellos provenientes de Australia o Nueva Zelanda, o utiliza un proceso de limpieza efectivo y mantiene un protocolo de separación que ha sido monitoreado para determinar la ausencia de material rumiante a excepción de aquellos incluidos como ingrediente aprobado.

5. The products have been subjected during processing to a heat temperature designed to ensure the destruction of pathogenic agents harmful to animals. / Los productos han sido sometidos durante su elaboración a un tratamiento tal que garantiza la destrucción de cualquier agente patógeno que afecte la salud animal.

6. The handling conditions, packaging and transportation are subject to hygiene and internationally recommended sanitary regulations with necessary precaution to avoid the contact of this product with any other source of potential contamination. / Las condiciones de manipuleo, carga y transporte se ajustan a las normas de higiene y sanidad recomendados internacionalmente que aseguran las precauciones necesarias para evitar el contacto con de los productos con cualquier fuente potencial de contaminación de las mismas.

2. Exported equines remained in the exporting country for at least forty (40) days immediately prior to shipment. In the case of imported animals, they complied with the health requirements indicated in points 5 and 6 of this certificate. I Los équidos exportados permanecieron en el país exportador por lo menos cuarenta (40) días inmediatamente previos al embarque. En caso de animales importados, cumplieron con las exigencias sanitarias que constan en los puntos 5 y 6 del presente certificado.

3. Equines come from establishments that were not subjected to health restrictions during the last ninety (90) days prior to shipment./ Los équidos proceden de establecimientos que no fueron sometidos a restricciones sanitarias durante los últimos noventa (90) días previos al embarque.

4. Equines were isolated in an approved premise\* in the exporting country under the supervision of the veterinarian accredited by the Veterinary Authority for a minimum period of fourteen (14) days./ Los equinos se aislaron en un local aprobado en el país exportador bajo la supervisión del veterinario acreditado por la Autoridad Veterinaria por un periodo minimo de catorce (14) dias.

\*(Approval of the premises of isolation is by the USDA Accredited Veterinarian/ Aprobado del establaciemiento esta por el veterinario accreditado del USDA)

5. In regard to African horse sickness/ Con relación a Peste Equina:

- 5.1. Equines remained at least forty (40) days prior to shipment in/ Los équidos permanecieron por lo menos cuarenta (40) días previos al embarque en:
  - A country recognized as free by the OIE; or/ Un pais reconocido como libre por la OIE; o
  - b. A country which declares itself free from the disease in accordance with the OIE Terrestrial Code and that condition be recognized by the Importing Member State / Un pais que se declara libre de la enfermedad de

acuerdo con lo establecido en el Código Terrestre de la OIE y esa condición es reconocida por el Estado Parte importador;

And/y:

- c. Equines were not vaccinated against the disease./ Los équidos no fueron vacunados contra la enfermedad
- 6. In regard to Venezuelan equine Encephalomyelitis (VEE)/ Con relación a Encefalomielitis Equina Venezolana (EEV):

6.1. Equines come from a country which declares itself free of the disease in accordance with the OIE Terrestrial Code of the, and that condition is recognized by the importing Member State; or/ Los équidos proceden de un país que se declara libre de la enfermedad de acuerdo con lo establecido en el Código Terrestre de la OIE, y esa condición es reconocida por el Estado Parte importador; el

6.2. Equines come from a country not free from the disease; and/ Los équidos proceden de un país no libre de la enfermedad; y

6.2.1. Were not vaccinated, and remained isolated in the exporting country, under the supervision of the Veterinary Authority, during the twenty-one (21) days prior to shipment, protected against vectors, and were clinically healthy during that period; and/ No fueron vacunados, y permanecieron aislados en el país exportador, bajo supervisión de la Autoridad Veterinaria, durante los veintiún (21) días previos al embarque, protegidos contra vectores, estando clinicamente sanos durante ese período; y

6.2.2. The animals were subjected to two (2) hemagglutination inhibition tests for the disease, on paired samples, carried out with a minimum interval of fourteen (14) days between them; the second sample collected within seven (7) days prior to shipment with negative results./ Fueron sometidos a dos (2) pruebas de Inhibición de la hemoaglutinación para la enfermedad, sobre muestras pareadas, efectuadas con un intervalo mínimo de catorce (14) días entre ellas, siendo la segunda muestra tomada dentro de los siete (7) días previos al embarque con resultados negativos.

Test/ Prueba	Date/-Fecha	Date/-Fecha
Hemagglutination Inhibition/ Inhibición de la hemoaglutinación	••••••	••••••

AND/Y

6.2.3. Were protected against vectors during the transport from the establishment of origin to the place of isolation and until the time of shipment./ Fueron protegidos contra vectores durante el transporte del establecimiento de origen al lugar de aislamiento y hasta el momento del embarque.

7. In regard to Glanders/ Con relación a Muermo:

7.1. Equines come from a country which declares itself free of the disease in accordance with OIE Terrestrial Code, and this condition is recognized by the importing Member State; or/ Los équidos proceden de un país que se declara libre de la enfermedad 3

de acuerdo con lo establecido en el Código Terrestre de la OIE, y esta condición es reconocida por el Estado Parte importador; o

7.2. Equines come from a country not free of the disease, and/ Los équidos proceden de un país no libre de la enfermedad, y

7.2.1. Remained for the last six (6) months prior to shipment in establishments, including places of events, where no case of Glanders was officially reported, and/ Permanecieron durante los últimos seis (6) meses previos al embarque en establecimientos, incluidos lugares de eventos, en los que no fue reportado oficialmente ningún caso de Muermo, y

7.2.2. Were subjected to the following diagnostic test, with negative result, carried out within fourteen (14) days prior to its shipment./ Fueron sometidos a la siguiente prueba diagnóstica, con resultado negativo, realizada dentro de los catorce (14) dias previos a su embarque.

Test/ Prueba	Date/ Fecha

 The donor was born and raised in the United States or Canada, or has been kept in countries with equal or higher health status.

El donante nació y se crió en Estados Unidos o Canadá, o bien ha permanecido con anterioridad solamente en países con igual o superior condición sanitaria.

- 2. The United States meets the requirements of the OIE to be considered officially free of contagious bovine pleuropneumonia, rinderpest, lumpy skin disease, Rift Valley fever, foot-and-mouth disease (all serotypes), and heartwater disease (cowdriosis). Akabane disease has never been reported in cattle in the United States. These health conditions remained on the date of semen collection and for a period of thirty (30) days there after. Los Estados Unidos cumple con los requisitos de la OIE para ser considerado como país oficialmente libre de pleuroneumonía bovina contagiosa, peste bovina, dermatosis nodular contagiosa, fiebre del valle del Rift, fiebre aftosa (todo serotipo) y cowdriosis. La enfermedad de Akabane nunca ha sido señalada en los EEUU en la población bovina. Estas condiciones de salud fueron se mantuvieron tanto el día de la colecta del semen como por un período de treinta (30) días después de ello.
- The semen collection center is a separate operation, and is isolated and functions independently of any other livestock operatio

El centro de inseminación artificial (CIA) funciona como un establecimiento distinto que está fisicamente aislado y funciona de manera independiente de cualquier otro establecimiento ganadero. Argentina Bovine Semen 8.4.2019

Health Certificate No. Valid Only if the USDA Veterinary Seal Appears Over the Certificate No.)

- Leptospira tarassovi, L castellonis and L pyrogenes have not been reported in cattle in the United States. / Leptospira tarassovi, L. castellonis y L. pyrogenes no han sido reportadas en bovinos en los Estados Unidos.
- 5. For a period of thirty (30) days after collection within the center there have not been any animals with clinical signs of infectious disease, including brucellosis, bovine tuberculosis, bovine viral diarrhea, bluetongue, campylobacteriosis, enzootic bovine leucosis, leptospirosis, malignant catarrhal fever, infectious bovine rhinotracheitis, paratuberculosis, Q fever, trichomoniasis, and vesicular stomatitis.

Durante un período de treinta (30) días después de la recolección, en el centro de inseminación ningún animal ha presentado signos clínicos de alguna enfermedad infecciosa, incluyendo brucelosis, tuberculosis bovina, diarrea viral bovina, lengua azul, campilobacteriosis, leucosis enzoótica bovina, leptospirosis, fiebre catarral maligna, rinotraqueitis infecciosa bovina, paratuberculosis, fiebre Q, tricomoniasis, y estomatitis vesícular.

- 6. The donor is a permanent resident of the semen collection center or has been in the center for a period beginning two (2) months prior to the date of first collection of the semen for export to Argentina and ending thirty (30) days after the final collection date. For a period of thirty (30) days after collection the donors have been under the observation of the accredited veterinarian of the center and have not shown clinical signs of any infectious disease. El donante es residente permanente del centro de inseminación artificial (CIA) o ha estado en el CIA por un período que comenzó dos (2) meses antes de la fecha de la primera recolección de semen destinado a la exportación a Argentina y terminó treinta (30) días después de la fecha de la última recolección. Durante un período de treinta (30) días después de la recolección, los donantes han sido mantenidos bajo observación del veterinario acreditado del CIA no presentando signos de ninguna enfermedad infecciosa.
- The donor has not performed natural service since arrival at the quarantine facility of the semen center.

El donante no ha realizado monta natural desde la fecha que ingresó a las instalaciones de cuarentena del centro de inseminación artificial.

#### DIAGNOSTIC TESTING / PRUEBAS DE DIAGNÓSTICO

In officially approved laboratories in accordance with the recommendations of the Terrestrial Animal Health Code of the OIE, the permanent resident donor bulls were tested negative to the following tests conducted within six (6) months prior to the date of first collection of semen to be exported; for non permanent resident donor bulls the tests were conducted within the sixty (60) days prior to the date of first collection of semen to be exported.

Los toros donantes rindieron resultados negativos a las siguientes pruebas diagnósticas realizadas en laboratorios oficialmente acreditados de conformidad con las recomendaciones del Código Sanitario para los Animales Terrestres de la OIE. Los donantes residentes permanente del CIA rindieron pruebas negativas dentro de los seis (6) meses antes de la fecha de la primera colecta de semen para ser exportado, los donantes no permanentes del CIA rindieron pruebas negativas en el término de los (sesenta) 60 días antes de la fecha de la primera colecta de semen a ser exportado.

The undersigned Official Veterinarian certifies that / El Veterinario Oficial abajo firmante certifica que:

- The United States was recognized by the OIE as free of Contagious Bovine Pleuropneumonia during the period of collection and production of embryos. / Estados Unidos fue reconocido por la OIE como libre de pleuroneumonía contagiosa bovina durante el período de recolección y producción de embriones.
- 2. The United States or zone of the country complies with the provisions of the OIE Terrestrial Code to be considered as free of Contagious Nodular Dermatosis/Lumpy Skin Disease and this condition is recognized by Argentina. / Los Estados Unidos o la zona del país cumplen con las disposiciones del Código Terrestre de la OIE para ser considerados libres de Dermatosis Nodular Contagiosa / Enfermedad Grumosa de la Piel y esta condición es reconocida por Argentina.
- 3. The United States or zone of the country complies with the provisions established in the OIE Terrestrial Code to be considered free of Rift Valley Fever and this condition is recognized by Argentina. / Estados Unidos o zona del país cumple con las disposiciones establecidas en el Código Terrestre de la OIE para ser considerado libre de Fiebre del Valle del Rift y esta condición es reconocida por Argentina.
- 4. The United States has never reported cases of Schmallenberg. / Estados Unidos nunca ha informado de casos de Schmallenberg.
- 5. Regarding Tuberculosis: (strikethrough non-applicable option) /Respecto a la Tuberculosis: (opción tachada no aplicable).
  - 5.1 Female donors come from herds free of the disease / Las hembras donantes proceden de rebaños libres de la enfermedad. OR/O
  - 5.2 Resulted negative to an intradermal Tuberculin test, with bovine PPD tuberculin or bovine and avian PPD, carried out within 30 (thirty) days prior to the first collection. / Resultó negativo a una prueba de tuberculina intradérmica, con tuberculina PPD bovina o PPD bovina y aviar, realizada dentro de los 30 (treinta) días anteriores a la primera recolección.

Test / Prueba	Date / Fecha

#### E E U U . I M P O . E M B . B O . 2 9 . N O V . 2 0 2 1

- 6. The *in vivo* embryo collection team (ECT), the in vitro embryo production team (EPT) and the embryo processing Laboratory (EPL), fixed or mobile, are approved and supervised by APHIS-USDA. / El equipo de recolección de embriones in vivo (ECT), el equipo de producción de embriones in vitro (EPT) y el laboratorio de procesamiento de embriones (EPL), fijo o móvil, están aprobados y supervisados por APHIS-USDA.
- 7. The EPL was not located or the ECT or EPT did not act in areas with health restrictions in regard to bovine animal diseases, which may be transmitted through embryos. / El EPL no se ubicó o el ECT o EPT no actuó en áreas con restricciones sanitarias en cuanto a enfermedades de los animales bovinos, que pueden transmitirse a través de embriones.
- 8. Female donors remained in the herd of origin for a minimum period of 30 (thirty) days before embryo collection. During that period, as well as in the 30 (thirty) days after collection, no case of bovine viral diarrhea was officially reported in this herd and the referred female donors showed no clinical sign of diseases which may be transmitted through embryos. / Las hembras donantes permanecieron en el rebaño de origen durante un período mínimo de 30 (treinta) días antes de la recolección del embrión. Durante ese período, así como en los 30 (treinta) días posteriores a la recolección, no se reportó oficialmente ningún caso de diarrea viral bovina en este rebaño y las referidas donantes no presentaban ningún signo clínico de enfermedades que pudieran transmitirse a través de embriones.
  - 8.1. In the case of embryos produced *in vitro*: donor animals do not come from establishments which are subject to restrictions in regard to foot-and-mouth disease or Peste des Petits of small ruminants, and no tissue was extracted or oocytes were aspirated in an infected zone or was subject to veterinary restrictions in regard to the aforementioned diseases (strikethrough non-applicable option). / En el caso de embriones producidos in vitro: los animales donantes no proceden de establecimientos sujeto a restricciones con respecto a la fiebre aftosa o Peste des Petits de pequeños rumiantes, y no se extrajo tejido ni se aspiraron ovocitos en una zona infectada o estuvo sujeto a restricciones veterinarias con respecto a las enfermedades antes mencionadas (tachado no aplicable opción).
- 9. In the case of imported donors, these come from countries free of Contagious Bovine Pleuropneumonia and remained at least sixty (60) days prior to collection in the exporting country of the embryos. / En el caso de donantes importados, estos provienen de países libres de Pleuroneumonía Contagiosa Bovina y permanecieron al menos sesenta (60) días antes de la recolección en el país exportador de los embriones.
- 10. The semen used for the production of the embryos to be exported was obtained in a Semen Collection and Processing Center (SCPC) is approved by APHIS-USDA complying with the "General conditions of hygiene in thesemen collection and treatment centers ", those described in the chapter "Collection and treatment of bovine, small ruminant and boar semen" of the OIE Terrestrial Code, or produced in accordance with the Certified Semen Services (CSS) Minimum Requirements for Disease Control of Semen Produced for Artificial Insemination. / El semen utilizado para la producción de los embriones a exportar fue obtenido en un Centro de Recolección y Procesamiento de Semen (SCPC) está aprobado por APHIS-USDA cumpliendo con las "Condiciones generales de higiene en los centros de recolección y tratamiento de semen", y las descritas en el capítulo "Recolección y tratamiento de semen de bovinos, pequeños rumiantes y jabalíes" del Código

Terrestre de la OIE, o producido de acuerdo con los Requisitos Mínimos de los Servicios Certificados de Semen (CSS) para el control de enfermedades del semen producido para inseminación artificial.

11. Embryos were collected, processed and stored in accordance with the recommendations established in theOIE Terrestrial Code and in the Manual of the International Embryos Transfer Society (IETS). In all cases, the protocol that includes the supplementary washings with Trypsin, referred to in this Manual, was used. / Los embriones fueron recolectados, procesados y almacenados de acuerdo con las recomendaciones establecidas en el Código Terrestre de la OIE y en el Manual de la Sociedad Internacional de Transferencia de Embriones (IETS). En todos los casos se utilizó el protocolo que incluye los lavados suplementarios con Tripsina, referidos en este Manual.

11.1. After washings, the zona pellucida of each embryo was examined over its surface area, using a

#### E E U U . I M P O . E M B . B O . 2 9 . N O V . 2 0 2 1

microscope with a magnification of no less than 50X, and found intact and free of adherent material. / Después de los lavados, se examinó la zona pelúcida de cada embrión sobre su superficie, utilizando un microscopio con un aumento de no menos de 50X, y se encontró intacta y libre de material adherente.

12. All equipment used to collect, produce, handle, wash, freeze and store the embryos was sterilized before use, in accordance with the recommendations of the IETS Manual. / Todo el equipo utilizado para recolectar, producir, manipular, lavar, congelar y almacenar los embriones fue esterilizado antes de su uso, de acuerdo con las recomendaciones del Manual IETS.

13. All biological products of animal origin used in the collection, production, processing and storage of embryos are free of microorganisms. Any fetal bovine serum, serum albumin, or any other products used of ruminant origin came from countries recognized by OIE as of negligible risk or controlled risk with no record of cases in regard to Bovine Spongiform Encephalopathy. / Todos los productos biológicos de origen animal utilizados en la recolección, producción, procesamiento y almacenamiento de embriones están libres de microorganismos. Cualquier suero fetal bovino, albúmina de suero o cualquier otro producto utilizado de origen rumiante provino de países reconocidos por la OIE como de riesgo insignificante o de riesgo controlado sin registro de casos de encefalopatía espongiforme bovina.

14. The embryos were stored in new or cleaned and disinfected containers using liquid nitrogen of first use, for a minimum period of thirty (30) days prior to shipment. During this period, no clinical evidence of transmissible diseases was recorded in the establishment where the embryos were collected and in the female donors. / Los embriones se almacenaron en contenedores nuevos o limpios y desinfectados utilizando nitrógeno líquido de primer uso, por un período mínimo de treinta (30) días antes del envío. Durante este período, no se registró evidencia clínica de enfermedades transmisibles en el establecimiento donde se recolectaron los embriones y en las en las hembras donantes.

15. At the time of embarkation, the container will be sealed under the supervision of a veterinarian accredited by APHIS-USDA, and the seal number recorded in the space below the signature line. / En el momento del embarque, el contenedor se sellará bajo la supervisión de un veterinario acreditado por APHIS-USDA, y el

número de sello se registrará en el espacio debajo de la línea de la firma.

This health certificate is valid for sixty (60) days from the date of issue to enter Argentina. / Este certificado sanitario tiene una vigencia de sesenta (60) días a partir de la fecha de emisión para ingresar a Argentina.

IV. OBSERVATIONS OBSERVACIONES

#### V. HEALTH INFORMATION INFORMACIONES SANITARIAS

The Veterinary official hereby certifies: El Medico Veterinario Oficial abajo firmante certifica lo siguiente:

1. The one-day-old birds \_\_\_\_\_\_ or the hatching eggs \_\_\_\_\_\_ originate from reproduction units \_\_\_\_\_\_ or hatcheries \_\_\_\_\_\_ and are periodically inspected by the USDA accredited veterinarians. They have not exhibited clinical signs of Newcastle disease, infectious bursal disease, infectious bronchitis, infectious laryngotracheitis, avian encephalomyelitis, fowl cholera, and other reportable transmissible diseases within the last six (6) months.

Las aves de un día \_\_\_\_\_, ó los huevos fértiles \_\_\_\_\_, proceden de núcleos de reproducción \_\_\_\_\_, o plantas de incubación \_\_\_\_\_, habilitadas: regularmente inspeccionadas por el Servicio de Salud Animal Oficial, no han presentado manifestaciones clínicas en los últimos seis (6) meses de enfermedad de Newcastle, enfermedad de gumboro, bronquítis infecciosa aviar,

Health Certificate No. (Valid only if USDA Veterinary Seal Appears Over the Certificate No.)

laringotraqueítis infecciosa aviar, encefalomielitis aviar, cólera aviar y otras enfermedades transmisibles de notificación obligatoria.

 During the continuing epidemiological surveillance, there has not been any evidence of inclusion body hepatitis, infectious chicken anemia, *Salmonella enteritidis, Salmonella typhimurium*, or pneumovirus-induced swollen head syndrome.

Durante la vigilancia epidemiológica permanente no se ha constatado la presencia de hepatitis a cuerpo de inclusión, anemia infecciosa aviar, Salmonella enteritidis, Salmonella typhimurium y síndrome de cabeza hinchada por neumovirus.

3. The product originates solely from flocks free of:

El producto procede exclusivamente de núcleos libres de:

 Pullorum disease and fowl typhoid Salmonella pullorum / Salmonella gallinarum Pullorosis y tifosis aviar Salmonella pullorum / Salmonella gallinarum

Avian mycoplasmosis
 Mycoplasma gallisepticum and M. synoviae in chickens
 Mycoplasma gallisepticum, M. synoviae, and M. meleagridis in turkeys
 Micoplasmósis aviar
 Mycoplasma gallisépticum y M. synoviae en gallinas
 Mycoplasma gallisepticum, M. synoviae y M. meleagridis en pavos

4. The birds are vaccinated against Marek's disease. Las aves son vacunadas contra la enfermedad de Marek.

Date / / /	Type of vaccine		
Fecha	Tipo de vacuna		
Laboratory	Serial #		

They are inspected by a veterinarian on the date of shipment, and show no clinical signs of disease.

Las aves son sometidas a inspección veterinaria en la fecha de embarque y no presentan síntomas clínicos de enfermedad.

6. They are boxed in new and clean containers/boxes.

El producto es embalado en cajas y separadores nuevos y limpios.

The country of origin is free of highly pathogenic avian influenza (fowl plague), and the zone/region is free of Newcastle disease, as defined in the current edition of the terrestrial animal health code.

Health Certificate No. (Valid only if USDA Veterinary Seal Appears Over the Certificate No.)

El país esta libre de influenza aviar (peste aviar) altamente patógena y la zona está libre de la enfermedad de Newcastle, como está definida en el código sanitario para animales terrestres (edición actual).

8. The birds proceed from reproductive units or hatcheries under the supervision of an accredited veterinarian, located in the center of an area in which within a 30 km radius no cases of West Nile virus (WNV) have been reported in any of the susceptible species during the 30 days prior to export.

Las aves de un día a exportarse proceden de establecimientos bajo control oficial, situados en el centro de un área en la que, en un radio mínimo de 30 kilómetros a la redonda, no se han reportado casos de WNV (en cualquiera de las especies susceptibles) durante los 30 días previos a la exportación.

9. A) The product originates from hatcheries and/or production centers free of Newcastle disease, as defined in the current edition of the terrestrial animal health code.

El producto procede de plantas de incubación y/o núcleos de reproducción libres de la enfermedad de Newcastle, como está definida en el código sanitario para animales terrestres (edición actual).

B) The establishments free of Newcastle disease mentioned in point 9A) are not located in zones infected by the Newcastle disease.

Los establecimientos libres de la enfermedad de Newcastle contemplados en el punto 9A), no están ubicados en una zona infectada de enfermedad de Newcastle.

 C) The day-old birds were not vaccinated against the Newcastle disease. Las aves de un día de edad no fueron vacunadas contra la enfermedad de Newcastle.

10. The genetic poultry stock for export to Argentina is produced under the provision of USDA APHIS's National Poultry Improvement Plan (NPIP). Avian influenza "Clean" status requires negative test results against all strains of avian influenza using the agar gel immunodiffusion (AGID) test every 90 days.

El material genético reproductor avícola para exportación a Argentina fue producido bajo los criterios del Programa Nacional de Mejoramiento Avícola. La clasificación de libre requiere pruebas contra todas las cepas de influenza aviar utilizando la prueba de gel de agar (AGID) cada 90 días.

11. I have verified that there is an official certificate with negative testing results (against all avian influenza virus types) for each originating flock contributing to the export conducted within 30 days prior to shipment.

Se certifica que hay certificación oficial con resultados negativos de influenza aviar (a todas las cepas) en cada plantel de origen de los animales que componen la partida a exportar, realizada dentro de los 30 días previos al embarque.
