

**Required Report:** Required - Public Distribution **Date:** October 22,2020

**Report Number:** TC2020-0027

Report Name: Food and Agricultural Import Regulations and Standards

**Export Certificate Report** 

**Country:** United Arab Emirates

Post: Dubai

Report Category: FAIRS Export Certificate Report

**Prepared By:** Mohamed Hamza

Approved By: Lucas Blaustein

## **Report Highlights:**

This report identifies certificate requirements for U.S. food and agricultural products destined for the United Arab Emirates. The report includes updates to six certificates: 1) Live Cattle; 2) Shell Eggs for Human Consumption; 3) Egg Products (Processed Eggs); 4) Egg Products (Further Processed Egg Products & Composite Foods Containing Egg Products); 5) Live Horses; and, 6) Bovine Semen. This report is to be used in conjunction with the 2020 Food and Agricultural Import Regulations and Standards (FAIRS) Country Report for the United Arab Emirates.

### Disclaimer:

This report was prepared by the USDA Foreign Agricultural Service office in Dubai, UAE, for U.S. exporters of food and agricultural products. Agricultural products entering the United Arab Emirates are subject to the country's federal food regulations and standards governing the importation and sale of such goods. While thorough investigation was taken in preparation of this report, UAE import requirements are subject to change and often without official notice. It is highly recommended U.S. exporters verify the full set of import requirements with their foreign customers before goods are shipped.

FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

## Section I. List of All Export Certificates Required by UAE Government:

Product	Title of Certificate	Issuing Authority	Purpose & Attestation	Requesting Authority
All products	Certificate of Origin	A recognized Chamber of Commerce under the law of the United States.  OR  U.S. supplier or manufacturer declaration is accepted but must be attested by a recognized Chamber of Commerce	The product is of U.S. origin	Customs Authority

Product	Title of Certificate	Issuing Authority	Purpose & Attestation	Requesting Authority
Bovine Meat, Poultry Meat and Products	1-Export Certificate FSIS Forms: 9060-5 9060-5A (Continuation sheet 1) 9060-5B (Continuation sheet 2)	Food Safety and Inspection Service (FSIS)	Product Safety and Wholesomeness	Food Control Sections at Municipalities based on guidelines from Ministry of Climate Change and Environment (MOCCAE).

Note: If product is claimed as organic and GMO free- only a USDA Organic certificate is required	Supporting the claim	Food Control Sections at Municipalities
Fresh Plant Products	Phytosanitary Certificate PPQ Form 577	Animal and Plant Health Inspection Service (APHIS)	Plant or plant product has been inspected and considered to be free from quarantine pests and conforms to the phytosanitary regulations of the importing country.	Food Control Sections at Municipalities based on guidelines from Ministry of Climate Change and Environment
Planting Seeds	Phytosanitary Certificate PPQ Form 577	Animal and Plant Health Inspection Service (APHIS)	The seeds have been inspected and are considered to be free from quarantine pests and conform to the current phytosanitary regulations of the importing country.	Ministry of Climate Change and Environment
Processed Plant Products	Export Certificate for Processed Plant Products PPQ Form 578	Animal and Plant Health Inspection Service (APHIS)	Based on inspection or processing, the product is believed to be free from injurious plant pests.	Food Control Sections at Municipalities based on guidelines from Ministry of Climate Change and Environment

Product	Title of Certificate	Issuing Authority	Purpose & Attestation	Requesting Authority
All other products not listed above  Note: This applies to shelf stable processed products.	FDA Certificate to a Foreign Government: Food for Human Consumption OR U.S. State Dept. of Ag. or Health Certificate of Free Sale or Health and Sanitary Certificate	Any related government entity. This may include Departments of Agriculture or Health at the U.S. State level or the U.S. Food and Drug Administration (FDA) FDA continues to issue Certificates of Free Sale for nutritional supplements, medical foods, or foods for special dietary use only.	The product is fit for human consumption.  See Section IV for additional information that must be present on these certificates.	Food Control Sections at Municipalities based on guidelines from Ministry of Climate Change and Environment
Horses	APHIS Protocols & Health Certificates for Exports of Horses into UAE which include:  1. Temporary Import of U.S. Horses into UAE  2. Permanent Import of U.S. Horses into UAE  3. Import of U.S. Horses of European Union Origin into UAE which have competed in Graded Races  4. Export of Equine Semen to UAE  5. Export/Return of Horses from Approved Countries to UAE after Competing in International Races/Competitions  Copies available on APHIS website APHIS Health Certificates & Protocols Related to Exports of Horses to UAE	Animal and Plant Health Inspection Service (APHIS)	Health and Vaccination Declaration	Ministry of Climate Change and Environment

## **Section II. Purpose of Specific Export Certificate:**

Please refer to the matrix under section I.

## Section III. Specific Attestations Required on Export Certificates:

Please refer to the matrix under section I.

## Section IV. Government Certificate Legal Entry Requirements:

- 1. For all certificates mentioned in section I:
  - 1.1. The original certificate must accompany the product at the time of entry for the inspection. A shipment receives final release once the importer submits original certificates.
  - 1.2. The certificate is valid as indicated on each certificate.
  - 1.3. The certificate valid only for the accompanied shipment and cannot be transferred.
- 2. For shelf stable products, such as processed foods, canned goods, pet food of plant origin, baking ingredients, beverages, etc.:
  - 2.1. FDA Certificate to a Foreign Government: Food for Human Consumption is accepted by UAE.
  - 2.2. Certificate of Free Sale or Health and Sanitary Certificate issued by Departments of Agriculture or Health within U.S. States is accepted.
  - 2.3. Suppliers/Manufacturers and U.S. Chamber of Commerce Export Declarations of food safety are **NOT** accepted by UAE authorities.
  - 2.4. The following information should be included on the certificate:
    - · Letterhead and address of issuing authority
    - Title of document
    - Certificate no.
    - Date of issue
    - Exporter and Importer name
    - Item Description
    - · Quantity and Weight
    - Production and Expiry Dates
    - Fitness for Human Consumption
    - Authorized Signature and Stamp.
- 3. Halal Certificate as indicated in section I:
  - 3.1. Only Halal certificates issued by UAE approved halal certifiers are accepted. For more information and the list of approved halal certifiers, please check the UAE FAIRS Country report.
  - 3.2. The following attestation should be mentioned on the certificate, "this is to certify that the meat accompanying this certificate is halal meat which derived from lawful animals that were slaughter according to Islamic rites".

- 3.3. The following information must be included in any halal certificate:
  - Halal attestations
  - Name of authorized Islamic association
  - Halal certificate reference number
  - Issue date
  - Health certificate number
  - Name of the slaughterhouse
  - Address of the slaughterhouse
  - Meat type
  - Carcass (Whole/Cuts)
  - Total weight and quantity
  - Brand Name
  - Date of slaughter
  - Product's production date
  - Product's expiration date
  - Name of the meat cutting establishment
  - Exporter name
  - Importer name
  - Port loading
  - Certifier's name and signature
  - Certifier's Official Stamp

# **APPENDIX I. Electronic Copy or Scanned Copy or Outline of Each Export Certificate:**

## **Halal Certificate:**

Each individual halal certifier has a specialized UAE approved document to accompany certified products. The following is a general outline of the content to be included in the halal certificate.

### Veterinary Health Certificate for Export of Live Birds from the United States of America to the United Arab Emirates

Veterinary Authority
UNITED STATES DEPARTMENT OF AGRICULTURE

Date Of Issue

Certificate Number

#### **Certification Statements:**

- I, the undersigned USDA Accredited Veterinarian, certify that the live animals described above meet the following conditions:
  - The birds originate from a country or zone (state) in which highly pathogenic avian influenza, as defined by the World Organization for Animal Health (OIE) Terrestrial Animal Health Code, was not reported in commercial flocks for at least 12 months prior to export, or for at least 3 months prior to export if stamping-out is applied.
  - The birds originate from zones (states) which are free from Newcastle disease, as defined by the OIE Terrestrial Animal Health Code, in commercial flocks for at least 12 months prior to export, or for at least 3 months prior to export if stamping-out is applied.
  - The birds originate from an establishment in which no compulsorily notifiable bird diseases were reported for at least 3 months prior to shipment.
  - The birds have been clinically examined within 7 days before export and did not have clinical signs of highly pathogenic avian influenza or other diseases.
  - 5. If the birds were vaccinated within the 6 months prior to export, provide the name of the disease, the vaccine type, and the vaccination date:
  - The birds have resided in the United States since hatching or have spent at least 3 months in the United States. \*Not required for falcons returning to the UAE, delete as appropriate.
  - 7. If the United States is not free from highly pathogenic avian influenza, as defined by the OIE Terrestrial Animal Health Code, in commercial flocks, the following conditions apply:\*
    - a. The birds have been placed in isolation from other birds under supervision of a USDA Accredited Veterinarian for at least 21 days prior to export and have no clinical signs of disease.
    - b. The birds were tested for avian influenza with negative results within  $10\ \mathrm{days}$  prior to shipment.

*Dele	te	as	appropriate.

#### Veterinary Health Certificate for Export of Day-Old Chicks from the United States of America to the United Arab **Emirates**

Date Of Issue

Veterinary Authority UNITED STATES DEPARTMENT OF AGRICULTURE

Certificate Number

#### **Certification Statements:**

- I, the undersigned USDA Accredited Veterinarian, certify that the live animals described above meet the following conditions:
- The day-old chicks originate from a country or zone (state) in which highly pathogenic avian influenza, as defined by the World Organization for Animal Health (OIE) Terrestrial Animal Health Code, was not reported in commercial flocks for at least 12 months prior to export, or for at least 3 months prior to export if stamping-out is applied.
- The day-old chicks originate from zones (states) which are free from Newcastle disease, as defined by the OIE Terrestrial Animal Health Code, in commercial flocks for at least 12 months prior to export, or for at least 3 months prior to export if stamping-out is applied.
- 3. The flock or flocks and the hatchery or hatcheries from which the above-described day-old chicks originated were inspected within 30 days prior to setting of eggs for above shipment of day-old chicks and found free from evidence of communicable diseases and insofar as can be determined have not been exposed to Newcastle disease, fowl plague, fowl typhoid, ornithosis, and pullorum disease. During the usual routine inspection of the flock or flocks there was no visible evidence of communicable diseases observed.
- The day-old chicks originate from U.S. origin flocks and have not been in contact with any other birds of a lower health status.
- The day-old chicks originate from parent flocks which participate in the National Poultry Improvement Plan (NPIP).
- 6. If the parent flock was vaccinated within 3 months prior to export, provide the type and age at vaccination:
- 7. The shipment of chicks will be placed in new or cleaned and disinfected containers which bear the name and address of the establishment of origin.

Note to exporter: The day-old chicks should be transported in containers which meet the following:

- -Allow for proper ventilation -Clean and disinfected -Allow for visual observation
- -Appropriate for the animals being exported

**Date Of Issue** 

Veterinary Authority
UNITED STATES DEPARTMENT OF AGRICULTURE

**Certificate Number** 

#### **Certification Statements:**

- I, the undersigned USDA accredited veterinarian, certify that the animals described above meet the following requirements:
- 1. The United States is recognized by the World Organization for Animal Health (OIE) as a foot and mouth disease free country.
- 2. The United States is free from Rift Valley fever, Crimean Congo haemorrhagic fever (CCHF), lumpy skin disease (LSD) without vaccination, and contagious bovine pleuropneumonia (CBPP).
- 3. The animals originate from a state(s) that is officially free of brucellosis.\*

OR

The animals were subjected to a diagnostic laboratory test for brucellosis, with negative results, within 60 days prior to export.\*

4. The animals were protected from vectors for a minimum period of 28 days prior to export and within that period underwent laboratory testing that detects bluetongue virus antibodies with negative results. If an animal had positive results for bluetongue virus antibodies, the animal was tested for bluetongue virus agent with negative results prior to export.\*

OR

The animals were protected from vectors for a minimum period of 14 days prior to export and within that period underwent laboratory testing that detects bluetongue virus agent with negative results.\*

- 5. The animals originate from establishments with no reported cases of anthrax for at least 20 days prior to export.
- 6. The animals originate from establishments with no reported cases of rabies for at least 1 year prior to export.
- 7. Animals for breeding purpose: The animals originate from establishments with no reported clinical cases of trichomonosis, paratuberculosis, infectious pustular vulvovaginitis, vibriosis (campylobacteriosis), leptospirosis, or listeriosis for at least 6 months prior to export.
- 8. Details of any vaccines given to the animals during the 6 months prior to export including the name of the disease, the vaccine type, and the date of vaccination are as the following, or are attached to this certificate\*\*:

The name of the disease	The type of vaccine	Date of vaccination

- 9. The feeding of ruminants with meat-and-bone meal and greaves derived from ruminants is banned and effectively enforced in the United States.
- 10. The United States is recognized by the OIE as having a negligible risk status for bovine spongiform encephalopathy (BSE).
- 11. The animals originate from a state(s) that is officially free of bovine tuberculosis, according to the OIE Terrestrial Animal Health Code standards for country incidence.\*

OR

The animals originate from establishments that have no reported cases of bovine tuberculosis for at least the past 12 months and the animals were tested with negative

#### Certification Statements:

Veterinary Authority

I, the undersigned USDA Accredited Veterinarian, certify that the live animals described above meet the following conditions:

#### In the case of amphibians:

- 1. The animals were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
- 2. The animals have been tested with negative results for salmonella at least 15 days and not more than 60 days prior to export.
- 3. The container in which the animals are transported is new or has been cleaned and disinfected. The transport water that is used is sourced from the premises of origin of the animals, or has been treated in a manner that will prevent the introduction of the diseases of concern listed on this certificate.
- 4. In the case of frogs or salamanders, the animals originate from an establishment with no reported cases of ranavirus within 60 days prior to export.

#### In the case of aquatic mammals:

The animals were examined by a USDA Accredited Veterinarian within 7 days prior to export and showed no clinical signs of contagious or infectious diseases, including skin diseases, internal and external parasites, and brucellosis.

#### In the case of live fish including ornamental fish:

- 1. The fish were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
- 2. The fish originate from an establishment with no reported cases of epizootic hematopoietic necrosis (EHN), epizootic ulcerative syndrome (EUS), infection with Gyrodactylus salaris, infection with infectious salmon anemia virus (ISA), infection with salmonid alphavirus (SAV), infectious hematopoietic necrosis (IHN), koi herpesvirus disease (KHV), red sea bream iridoviral disease (RSIV), spring viremia of carp (SVC), and viral hemorrhagic septicemia (VHS) within 60 days prior to export.
- 3. The container in which the fish are transported is new or has been cleaned and disinfected. The transport water that is used is sourced from the premises of origin of the fish, or has been treated in a manner that will prevent the introduction of the diseases of concern  $\frac{1}{2}$ listed on this certificate.

### In the case of crustaceans:

- 1. The crustaceans were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
- 2. The crustaceans originate from an establishment with no reported cases of white spot disease (WSSV), crayfish plague (Aphanomyces astaci), infection with yellow head virus genotype 1 (YHVI), infectious hypodermal and hematopoietic necrosis (IHNN), infectious myonecrosis (IMNV), necrotizing hepatopancreatitis (Hepatobacter penaei), Taura syndrome (TSV), white tail disease (Macrobrachium rosenbergii nodavirus), and acute hepatopancreatic necrosis (AHPND) within 60 days prior to export.
- 3. The container in which the crustaceans are transported is new or has been cleaned and disinfected. The transport water that is used is sourced from the premises of origin of the crustaceans, or has been treated in a manner that will prevent the introduction of the diseases of concern listed on this certificate.

#### In the case of shellfish:

The shellfish were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.

#### Veterinary Health Certificate for Export of Bovine Semen from the United States of America to the United Arab Emirates

Veterinary Authority
UNITED STATES DEPARTMENT OF AGRICULTURE

Date Of Issue

Certificate Number

#### **Certification Statements:**

- I, the undersigned USDA accredited veterinarian, certify that the consignment described above meets the following requirements:
- 1. The United States is free of foot and mouth disease and contagious bovine pleuropneumonia.
- 2. Bluetonque:

The donor animals were kept in a vector-protected establishment for at least 60 days before commencement of, and during, collection of the semen.\*

OR

The donor animals were subjected to a serological test to detect antibodies to the bluetongue virus group, with negative results, between 28 and 60 days after each collection for this consignment.\*

 $\cap D$ 

The donor animals were subjected to an agent identification test on blood samples collected at commencement and conclusion of, and at least every 7 days (virus isolation test) or at least every 28 days (PCR test) during, semen collection for this consignment, with negative results.\*

OR

\*Delete as appropriate.

An aliquot of semen from each collection code intended for export was tested using PCR, with negative results. $^{\star}$ 

- 3. The semen was collected at a semen collection center where the following diseases were not reported for at least 6 months prior to collection of the semen: trichomoniasis, brucellosis, bovine tuberculosis, campylobacteriosis, and leptospirosis.
- 4. The semen was collected at a semen collection center which is approved by APHIS and is under the supervision of a USDA Accredited Veterinarian.
- 5. The donor animals were visually examined on the day of collection and showed no clinical signs of any contagious or infectious diseases.
- 6. The semen was collected in accordance with Chapter 4.6. of the OIE Terrestrial Animal Health Code (General Hygiene in Semen Collection and Processing Centers) or equivalent.
- 7. The donor animals were tested for the following diseases, in accordance with the Certified Semen Services (CSS) Minimum Requirements for Disease Control of Semen Produced for AI: trichomoniasis, leptospirosis, bovine tuberculosis, campylobacteriosis, and brucellosis.
