

Required Report: Required - Public Distribution

Date: January 06,2020

Report Number: MX2019-0061

Report Name: Food and Agricultural Import Regulations and Standards
Export Certificate Report

Country: Mexico

Post: Monterrey ATO

Report Category: FAIRS Export Certificate Report

Prepared By:

Approved By: Orestes Vasquez

Report Highlights:

This report provides current information on export certificates issued by U.S. government agencies that comply with import standards and regulations enforced by Mexican officials. Sections I and II have been modified with updates from the Food Safety and Inspection Service (FSIS), the Agricultural Marketing Service (AMS), and the Animal Plant Health Inspection Service (APHIS). At the time of this report collaboration between USDA and the Mexican Secretariat of Agriculture and Rural Development (SADER, formerly known as SAGARPA) exploring the implementation of E-certification.

Executive Summary

This document was prepared by the Agricultural Trade Office of the Foreign Agricultural Service in Monterrey, Mexico. The purpose of this document is to provide U.S. exporters with updated information on certificates issued by U.S. government agencies required by Mexican authorities to accompany the shipments of U.S. agricultural products to Mexico. Although no significant certification requirements have been made since the 2018 FAIRS Certificate report, Sections I and II include slight updates from the Agricultural Marketing Service (AMS) on the use of the shelled egg certificate, the Animal Plant Health Inspection Service (APHIS) providing information on bovine for slaughter, and the Food Safety and Inspection Service (FSIS) adding information on casings.

At the time of writing this document there are no changes in import requirements. However, it is recommended that the reader stay up-to-date with Mexico's current administration under the Movimiento Regeneración Nacional or Morena party policies, as well as any changes due to the new United States-Mexico-Canada Agreement or USMCA by accessing [FAS' updated GAIN reports](#).

Section I. List of All Export Certificates Required by Government (Matrix)

Product	Title of Certificate	Purpose	Requesting Ministry
All products	NAFTA Certificate of Origin	Product Origin/Preferential Tariff Treatment	Secretariat of the Treasury and Public Credit (SHCP)/Aduanas (Customs)
Meat and Poultry Products	FSIS Meat and Poultry Export Certificate of Wholesomeness and Related Letterhead Certificates	Animal Health/Food Safety/Free Sale Certificate	Secretariat of Agriculture (SADER/SENASICA)
Animal Casings	FSIS Animal Casings Export Certificate	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Egg Products regulated by FSIS (liquid, frozen, or dried eggs, with or without added ingredients)	FSIS Egg Products Export Certificate of Wholesomeness and Related Letterhead Certificate	Animal Health/Food Safety/Free Sale Certificate	Secretariat of Agriculture (SADER/SENASICA)
Table Eggs, Pasteurized Eggs, and Eggs for Industrial Use	AMS Shell Egg Certificate and Disease Free Statement	Grading and Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Egg and Egg Food Products	USDA Processed Egg and Egg Products Export Certificate	Sanitation Certificate	Secretariat of Agriculture (SADER/SENASICA)
Hatching Eggs	APHIS Hatching Eggs Protocol and Health Certificate	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Animal Products for Human Consumption (To include Dairy, Gelatin; Food Preparations Containing Less than 2 percent meat ingredients)	APHIS Export Certificate for Animal Products	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Animal Feeds/Foods and Animal origin items for manufacturing (e.g., animal fats; feed additives; balanced pet foods; etc. containing animal inputs)	APHIS Export Certificate for Animal Products (Animal Feeds, Foods, and Products for Industrial Use) *Note: Feeds with no animal content do not require an APHIS certificate.	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)

Section I. List of All Export Certificates Required by Government (continued)

Product	Title of Certificate	Purpose	Requesting Ministry
Live Animals and Germplasm (e.g., Breeding Cattle; Cattle for Slaughter; Horses for Slaughter; Swine, Sheep, and Goat Semen)	APHIS International Health Certificate	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Siluriformes Fish and Fish Products	FSIS Siluriformes Fish and Fish Products Export Certificate of Wholesomeness	Animal Health/Food Safety	Secretariat of Agriculture (SADER/SENASICA)
Fish and Processed Fish Products	National Marine Fisheries Service/ NOAA Export Health Certificate and Certificate of Origin	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Crustaceans: Lobster, King Crab, Crayfish, Shrimp (Frozen, Chilled, or Raw)	National Marine Fisheries Service/ NOAA Export Health Certificate and Certificate of Origin	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Wood products and processed wood products	APHIS Phytosanitary Certificate- Plant Protection and Quarantine	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Plant and plant products – fruits and vegetables	APHIS Phytosanitary Certificate- Plant Protection and Quarantine	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Seeds for Planting	APHIS Phytosanitary Certificate- Plant Protection and Quarantine	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)
Grocery Food Items, Frozen Foods	Certificate of Free Sale *HTS defines type of document required for example canned beans containing meat require FSIS certificate.	Certificate of Free Sale	COFEPRIS- Federal Commission for Protection Against Sanitary Risks of the Secretariat of Health (SSA)
Processed products	Certificate of Health or Sanitation and/or Certificate of Free Sale. *Note for some products a quality control certificate issued by the manufacturer is accepted. *HTS defines required documentation.	Health Certificate	Secretariat of Agriculture (SADER/SENASICA)

Section II. Purpose of Specific Export Certificate(s)

North American Free Trade Agreement (NAFTA) Certificate of Origin

This is a trilaterally agreed upon form used by Canada, the United States, and Mexico to certify that goods qualify for the preferential tariff treatment accorded by NAFTA. The Certificate of Origin must be completed by the exporter and is required by the Mexican Treasury Secretariat's Customs offices. This document certifies that the listed products originated in the territory of the exporting country and comply with the origin requirements specified for those goods. A sample is available on the [U.S. government export portal](#).

Even though the United States-Mexico-Canada Agreement (USMCA) was signed on November 30, 2018; at the time of this report the NAFTA Certificate of Origin is still in use.

Meat and Poultry Export Certificate of Wholesomeness - Food Safety and Inspection Service

The Meat and Poultry Export Certificate of Wholesomeness, [FSIS Form 9060-5](#), is issued by inspection personnel of the Office of Field Operations of the Food Safety and Inspection Service (FSIS), USDA. This document certifies that the meat products are from animals that received both ante mortem and postmortem inspection and were found wholesome. In the case of poultry and poultry products, the document certifies that the birds were inspected and are fit for human consumption. The certificate is issued to the exporter and includes the general data of the consignee. Other data included in the form are the district office, country of destination, folio number, plant number and city, type of facility, total marked net weight, total containers, and products as labeled with their individual market weight, number of packages and plant number. The slaughter date, packing date, and lot number are included in the remarks section of the certificate. The name of the species on the product description line is also required (for example: hot dogs containing beef, pork, and turkey). There are various sanitary statements required in the remarks section, as well.

The complete volume of required attestations is listed in the Mexican Import Requirement Sheet or Hoja de Requisitos Zoosanitarios (HRZs) for any given product. The reader should be aware that FSIS is periodically modifying the Letterhead Certificates for certain poultry, beef, pork, sheep and goat, and multiple species products and their derivative products (e.g. offals and edible tallows) in order to comply with SADER's National Service for Health, Food Safety, and Food Quality (SENASICA) Import and Export General Directorate dispositions. These Letterhead Certificates have been posted on USDA's [FSIS Export Library- Requirements by Country](#) and the Spanish language requirements are posted on SENASICA's website under the [Modulo de Consulta de Requisitos Zoosanitarios para la Importacion](#) (MCRZI).

Animal Casings Export Certificate - Food Safety and Inspection Service

The FSIS' animal casings health certificate certifies that animal casings are from animals that receive USDA ante-mortem and post-mortem veterinary inspection at the time of slaughter and that these are wholesome and fit for human consumption, as required by the Mexican Zoosanitary Health Requirements sheet (known as HRZ in Spanish) issued by SENASICA. In addition to this form, which is known as FSIS Form 9060-7, an FSIS issued Letterhead Certificate for Pork Casings is required to accompany shipments (see [Documentation Requirements section D. Pork Products numeral 8](#)). This Letterhead Certificate attests, among other effects, that the United States is a country free of classical swine fever (hog cholera).

Egg Products Export Certificate of Wholesomeness - Food Safety and Inspection Service

The Egg Products Export Certificate FSIS Form 9060-5EP is issued by the Field Operations Staff of the Food Safety and Inspection Service (FSIS). The document certifies that the egg products have been inspected and found fit for human consumption in accordance to the applicable regulations of the United States Department of Agriculture. This document is issued to the exporter and includes the consignee's

information. Other data included in the form are the district office, country of destination, folio number, plant number and city, type of facility, total marked net weight, as well as products labeled with their individual market weight, number of packages and containers, and plant number. Additional certification statements, as required by the Mexican Zoosanitary Health Requirements sheet (known as HRZ in Spanish) for these products are posted on the FSIS Export Library – [Requirements for Exporting Processed Egg Products](#).

Siluriformes Fish and Fish Products Export Certificate of Wholesomeness - Food Safety and Inspection Service

The 2008 and 2014 Farm Bills mandated FSIS inspection of Siluriformes fish. On December 2, 2015, FSIS published the final rule “Mandatory Inspection of Fish of the Order Siluriformes and Products Derived from Such Fish”. The rule mandates that fish of the order Siluriformes fall under the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601(w) (2)), and establishes their inspection and regulatory requirements, requiring [form 9060-5-S](#) prior to export.

Export Certificate for Animal Products (Human Consumption and Animal Feed/Food) - APHIS

Sanitary certificates for the export of animal products for human consumption as well as for animal feed and certain industrial products containing animal components are issued by USDA’s Animal and Plant Health Inspection Service (APHIS). These certificates are completed by an accredited veterinarian on VS Form 16-4 and, if necessary, VS Form 16-4A, with the appropriate and required attestations for food safety and animal health. The certificates must be endorsed by a USDA/APHIS Veterinary Services area office in order to be valid.

For more information on Mexican SENASICA regulations for animal products for human consumption, visit APHIS website for [Animal Product Export Requirements](#), which include requirements on the following:

- Complements, supplements, additives, and flavorings (bovine and porcine gelatin and blood ingredients) for human consumption;
- Food preparations with less than 2 percent meat ingredients for human consumption;
- Gelatin and collagen: Hydrolyzed bovine bone-derived gelatins for human consumption;
- Gelatin and collagen: Hydrolyzed proteins (bovine skin-derived gelatin and collagen) for human consumption;
- Milk and dairy: Milk and/or Dairy Products (Bovine Origin) for Human Consumption

In addition, requirements for animal products for feed or industrial use, and for hides and skins:

- Animal fats for animal feed or industrial uses;
- Animal feed and food: Feed rations (not including pet food); Animal feed and food: Rations containing porcine and poultry ingredients and intended for aquatic species;
- Animal feed and food: Pet foods for dogs and cats;
- Animal feed and food: Pet treats and similar products not containing animal product ingredients;
- Animal origin hormones for animal use or manufacturing;

- Blood and blood products for diagnostics and research, including fetal bovine serum;
- Bovine and porcine blood products for animal feeding; Complements, supplements, additives and flavorings (bovine and porcine gelatin and blood ingredients) for human consumption; Feathers; Feed additives with aquatic animal ingredients for animal feed;
- Dairy products for animal feed;
- Porcine pancreatin
- Processed egg products for animal feed;
- Porcine and/or poultry meals also containing fish meals;
- Swine offal (meat, offal, viscera, and pastes) for pet food manufacturing;
- Trophy materials (unfinished).
- Cervid hides and skins for manufacturing;
- Limed bovine hides and skins for manufacturing or animal feed;
- Salted bison/bovine hides and skins for manufacturing purposes;
- Salted ostrich hides and skins for manufacturing purposes;
- Salted porcine hides and skins for manufacturing purposes;
- Salted rawhide for manufacturing purposes;
- Salted sheep and goat pelts and skins;
- Pig bristles
- Rendered meals

Shell Egg Grading Certificate-Agricultural Marketing Service

Shell eggs (fresh and pasteurized) exported to Mexico must be accompanied with a signed affidavit issued by an accredited veterinarian that the flocks show no evidence of communicable avian diseases. This can be done using the Agricultural Marketing Service (AMS) Certificate Disease Free Statement and on the AMS Form PY210S Shell Egg Grading Certificate as required by SENASICA. For information on the required attestations, visit the AMS website [Mexico Guidance Documents](#).

Egg Food Products Sanitation Certificate

Mexico requires a zoosanitary certificate for food products containing eggs or egg ingredients. For egg products and egg food preparations produced by a facility/plant audited by the Audit Services Branch of AMS, AMS can provide export certification on the AMS Form LPS234 Processed Egg and Egg Products Export Certificate. Points 26-31 in Mexico's HRZ for Food Preparations for Human Consumption (098-13-241-USA-USA) refer to these products to be covered by an AMS certificate.

For egg food products produced by a facility that is not inspected by FSIS or audited by AMS, please refer the exporter to AMS for guidance on export certification. Questions about the certification of egg food products exporters should be referred to Mike Lopez, by email mike.lopez@ams.usda.gov or telephone 501-766-4782.

Hatching Eggs Protocol and Health Certificate - APHIS

For the importation of hatching eggs into Mexico, SENASICA requires a health certificate attesting to the health and origin, including sampling and testing procedures specified in the voluntary National Poultry Improvement Plan (NPIP). This certificate is issued by APHIS. For more information, visit the

[APHIS International Animal Export Regulations](#) website and the specific language in the [Hatching Eggs Protocol](#).

Health Certificates for Live Animals and Germplasm - APHIS

Mexican import regulations for live animals and germplasm stipulate that a health certificate must be presented to SENASICA officials at port of entry. APHIS issues international health certificates for the export of animals from the United States. These are completed by an accredited veterinarian who certifies herd and animal health status, conducts tests, and records test results for the individual animals being exported. Complete and signed international health certificates for the export of animals from the United States must be endorsed by a Veterinary Services area office in order to be valid. For more information on U.S.-Mexico live animal protocols and Mexico's import regulations, please see the [International Regulations \(IRegs\) for ANIMAL Exports Home](#) website.

From that site, interested participants can view the requirements for:

- Breeding cattle – protocol and health certificate;
- Rodeo bulls for temporary exit from the United States;
- Bovine semen health certificate;
- Bovine embryos/oocytes health certificate;
- Horses for temporary exit from the US (sport, exhibition, transit);
- Horses for permanent exit from the US;
- Horses returning to Mexico after temporary entry to the US;
- Horses for slaughter;
- Birds protocol and health certificate; adult gallinaceous birds – protocol and health certificate;
- Wild birds for breeding and exhibition;
- Sheep and goats for slaughter– protocol and health certificate;
- Caprine semen;
- Ovine semen;
- Swine semen protocol and health certificate;
- Swine slaughter protocol and health certificate;
- Swine breeding protocol and health certificate.
- In addition to the above protocols and certificates, there are also certificates for pets (dogs, cats, ferrets, birds, and aquatic species) along with other animals (including zoo animals).

Export Health Certificate and Certificate of Origin - NOAA

Mexico's import regulations for seafood products require that exporters present an export certificate attesting to the wholesomeness and origin of the product. This certificate is issued by the U.S. Department of Commerce/NOAA (National Oceanic and Atmospheric Administration). NOAA's Seafood Inspection Program offers export certification to facilitate trade of seafood products that meet the requirements of the importing country. NOAA certifies that the products presented for inspection are from the United States, comply with U.S. regulations, and are wholesome. Currently, SADER regulates the import of crustaceans such as lobsters, crabs, crayfish and shrimps. Other seafood products, including

processed products, must comply with import regulations established by COFEPRIS. Importers should consult the HTS to verify specific regulations. For additional information on the NOAA Seafood Inspection Program and requirements for Mexico visit NOAA's Seafood Commerce and Certification [website](#). For detailed requirements and COFEPRIS import regulations please visit COFEPRIS Sanitary Import Permit [website](#).

Phytosanitary Certificate-Plant Protection and Quarantine - APHIS

Mexican import regulations for plants, seeds for planting and unprocessed plant products stipulate that a health certificate must be presented to SADER SENASICA officials at port of entry. This certificate is available through APHIS. The phytosanitary certificate is issued by the Plant Protection and Quarantine (PPQ) office to the exporter. This document certifies that plants or plant products, including propagation material, seeds for planting, wood and processed wood products, have been inspected and/or tested according to appropriate procedures, and are considered to be free from quarantine pests, and conform to the current phytosanitary requirements of the importing country. For more information, visit APHIS Plant Health Export Information [website](#) and APHIS Manuals [website](#).

Certificate of Free Sale / Certificate of Health or Sanitation for Processed Products

Mexico's Federal Commission for the Protection against Sanitary Risk ([COFEPRIS](#)) import regulations stipulate that the importer must present a certificate of health or sanitation in order to obtain an import permit or a previous import notification from COFEPRIS. The document is issued by several state and federal government agencies. The Certificate of Free Sale is available from the U.S. Food and Drug Administration (FDA) only for [dietary supplements, medical foods, and foods for special dietary use](#). The Certificate of Free Sale assures the authorities of the importing country that the product complies with U.S. requirements and is sold freely in the US. Health certificates must be issued by a U.S. Federal or State government health office. To learn more about product specifications and corresponding Mexican import regulations, exporters should consult the specific Harmonized Tariff System. For more information regarding COFEPRIS import regulations and import permits visit COFEPRIS [website](#).

Section III. Specific Attestations Required on Export Certificate(s)

Specific attestations required for the export of any food and agricultural products to Mexico from the United States can be referenced by visiting the appropriate certificates as mentioned in the section, above.

For applicable export requirements for meat and poultry products under FSIS visit FSIS Export Requirements for Mexico [website](#).

For information on egg products under FSIS authority visit USDA/FSIS [website](#).

Information regarding the export of table eggs under an AMS program can be found in the AMS Egg Export Information [website](#).

Additional information on the regulations and Mexico's necessary assessments for the export of live animals, fertile eggs, and germ plasm visit APHIS International Regulations (IREgs) for ANIMAL Exports [website](#).

Additional information on how to obtain APHIS export certificates for plants and plant products can be obtained in the APHIS Export Program Manual [website](#).

Note: Ongoing negotiations between USDA (FSIS/APHIS) and SENASICA on the implementation of electronic certification continues. Although important developments have taken place, the full implementation of E-cert is expected to take place in 2021.

Section IV. Government Certificate's Legal Entry Requirements

Meat and Poultry Export Certificate of Wholesomeness

The document is not valid unless signed by an inspector of the USDA/FSIS Meat and Poultry Inspection Program, listing the name and the date. An original of the document is required and can be valid for multiple lots if the shipments enter at the same time at the port of entry.

Animal Casings Export Certificate for Countries Requiring Ante-mortem, Post-mortem, and Fit for Human Food Statements

The document is not valid unless signed by an inspector of the USDA/FSIS Meat and Poultry Inspection Program, including the inspector's printed name and date. An original of the document must accompany each shipment.

Egg Product Export Certificate of Wholesomeness

The document is not valid unless signed by an inspector of the USDA/FSIS Meat and Poultry Inspection Program, including the inspector's printed name and date. An original of the document must accompany each shipment.

USDA Processed Egg and Egg Products Export Certificate

The document is not valid unless signed by an inspector of USDA/AMS, including the inspector's printed name and date. An original of the document must accompany each shipment.

Phytosanitary Certificate-Plant Protection and Quarantine-PPQ

An original of this document is required by Mexican Customs and can be valid for multiple lots if shipments enter at the same time at the port of entry.

APHIS Health Certificate for Animal Products

In order to be valid, this document must be signed by a USDA/APHIS Veterinary Services official. An original of the document must accompany each shipment.

Certificate for Poultry or Hatching Eggs for Export

The original certificate must be presented upon arrival to the inspection point at port of entry.

International Health Certificate for Live Animals

An original of this document is required and must be completed and signed by a USDA/APHIS Veterinary DVM. This certificate is valid for multiple lots if the shipments arrive at the same time for inspection at the corresponding livestock export pen on the U.S. side of the border.

Certificate of Free Sale

On July 25, 2007, Mexico's Secretariat of Agriculture posted revised requirements in the Federal Animal Health Law for certificates of free sale for certain animal feeds, including pet food. At the time of this report, exporters are required to present an original certificate of free sale upon entry of the product. For some products, SADER will accept an original affidavit letter from the manufacturer indicating that the product is freely sold in the United States. For other products, Mexico requires a certificate issued by U.S. state health offices. Supplier or manufacturer export declarations are not accepted as proof of compliance.

Section V. Other Certification/Accreditation Requirements

For more information on food standards and regulations, please consult the most recent Food and Agricultural Import Regulations and Standards Report for Mexico.
