

Required Report: Required - Public Distribution **Date:** July 06, 2022

Report Number: EC2022-0011

Report Name: Food and Agricultural Import Regulations and Standards

Export Certificate Report

Country: Ecuador

Post: Quito

Report Category: FAIRS Export Certificate Report

Prepared By: Andres Barahona

Approved By: Zeke Bryant

Report Highlights:

This report identifies Ecuador's import requirements for foreign export certificates, highlighting current procedures and identifying the relevant local agencies with oversight over these issues. An export certificate matrix and outline is included. This report supplements the FAS Quito Food and Agricultural Import Regulations (FAIRS) 2022 report.

This report was prepared by the Office of Agricultural Affairs (OAA) of the USDA/Foreign Agricultural Service in Quito, Ecuador for U.S. exporters of food and agricultural products. While every possible care has been taken in preparation of this report, information provided may no longer be complete or precise as some import requirements are subject to frequent changes. It is highly recommended that U.S. exporters ensure that all necessary custom clearance requirements have been verified with local authorities through your foreign importer before the sales conditions are finalized. FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

Section I. List of All Export Certificates Required By Government (Matrix)

Product (s)	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Imported Processed Foods and Beverages	Certificate of Free Sale	The products are authorized for free sale and human consumption in the country of origin.	To obtain Sanitary Registration	ARCSA (Ministry of Health)
Imported Nuts and Some Dry Fruits	Phytosanitary Certificate	The product is safe for human consumption. It is free of pests or disease.	To obtain Sanitary Registration	ARCSA (Ministry of Health)
Organic Products	Organic Certification	The product is organic.	To obtain Sanitary Registration	ARCSA (Ministry of Health)
Imported Plant Products	Phytosanitary Certificate	Fulfills health requirements according to import permit and sanitary inspection. (See, <u>APHIS</u> website).	To obtain a Health Certificate and an Import Permit	AGROCALIDAD (Ministry of Agriculture)
Imported Animal Products	Sanitary Certificate	Fulfills health requirements according to import permit and sanitary inspection. (See, <u>APHIS</u> and <u>FSIS</u> websites).	To obtain a Health Certificate and an Import Permit	AGROCALIDAD (Ministry of Agriculture)
Imported Animals	Zoo-Sanitary Certificate	Fulfills health requirements according to import permit and sanitary inspection. (See, APHIS website).	To obtain a Health Certificate and an Import Permit	AGROCALIDAD (Ministry of Agriculture)
Imported Processed Food and Beverages	Certificate of Conformity	The product has been produced under the Ecuador specific INEN standard if there is one for a specific product.	To prove compliance with standards	Ecuadorian National Standards Institute
Imported Animal Feed and Animal Supplements	Certificate to Foreign Government	The products are authorized for free sale in the country of origin.	To obtain a Certificate of Registration	AGROCALIDAD (Ministry of Agriculture)

Dairy Products and By-Products	Sanitary Certificate for Exports	Fulfills health requirements according to import permit and sanitary inspection such as the product is safe for human consumption and the processing treatment the product has received.	To obtain a Health Certificate and an Import Permit	AGROCALIDAD (Ministry of Agriculture)
--------------------------------------	--	--	---	---

Section II. Purpose of Specific Export Certificate(s)

- A. **Certificate of Free Sale:** The Ministry of Health's National Sanitary Control and Regulation Agency (ARCSA) requires a certificate of free sale as proof that food and beverage products are sold in the country of origin and are fit for human consumption. This certificate is typically issued by an individual state's health department in the state where the product is manufactured. USDA maintains a <u>website</u> listing state contacts for Certificates of Free Sale. Additionally, the U.S. Food and Drug Administration (FDA) offers export certificates for most food products. Exporters can apply for FDA certificates in FDA's website. It is required in order to obtain the sanitary registration of a product in Ecuador.
- B. **Phytosanitary Certificate (nuts and dried fruits):** The Ministry of Health's National Sanitary Control and Regulation Agency requires a phytosanitary certificate to verify the quality of nuts and some dry fruits intended for retail sale. This certificate is required in order to obtain the sanitary registration of a product.
- C. **Organic Certificate:** The Ministry of Health's National Sanitary Control and Regulation Agency requires an organic certificate to attest that the product intended for retail sale is organic. This certificate is required in order to obtain the sanitary registration of a product.
- D. **Phytosanitary Certificate:** The Ministry of Agriculture's Sanitary/ Phytosanitary agency (AGROCALIDAD) requires a phytosanitary certificate to prevent the introduction of foreign pests and diseases. Certificates are issued by the sanitary authority in the country of export.
- E. **Sanitary Certificate:** AGROCALIDAD requires a sanitary certificate to prevent the introduction of foreign pests and diseases. Certificates are issued by the sanitary authority in the country of export.
- F. **Zoo-Sanitary Certificate:** AGROCALIDAD requires a zoo-sanitary certificate to protect animal health and ensure foreign animal diseases are not introduced into Ecuador. Certificates are issued by the sanitary authority in the country of export.
- G. **Certificate of Conformity:** The Ecuadorian National Standards Institute requires that imported products comply with individual INEN norms by product when one exists. A conformity certificate is required if the authorities think it is necessary after the import has taken place. It is the responsibility of the importer to provide it.
- H. **Certificate to Foreign Government:** AGROCALIDAD requires this certificate in order to register animal feed and supplements. Registration is a mandatory prerequisite for the import of these products.

I. **Sanitary Certificate for Exports:** AGROCALIDAD accepts this certificate for dairy products to comply with CAN Resolution 1352 and as part of the import permit requirements.

Section III. Specific Attestations Required on Export Certificate(s)

- A. **Certificate of Free Sale:** ARCSA requires that the certificate declare that the product is authorized to be sold freely and is fit for human for consumption in the country of origin. There is no required format for this certificate.
- B. **Phytosanitary Certificate (nuts and dried fruits):** ARCSA requires that the certificate attest that specific nuts and dried fruits are fit for human consumption and are free of any pests or diseases. There is no required format for this certificate.
- C. **Organic Certificate:** ARCSA requires that the organic certification provide proof that the product is recognized as an organic product in the country of origin. There is no required format for this certificate.
- D. **Phytosanitary Certificate:** The certificate's attestation will vary by product. Requirements and specifications are accessible on the APHIS website.
- E. **Sanitary Certificate:** The certificate's attestation will vary by product. Requirements and specifications are accessible on the FSIS EXPORT LIBRARY.
- F. **Zoo-Sanitary Certificate:** The certificate's attestation will vary by species. Requirements and specifications are accessible on the APHIS LIBRARY website.
- G. **Certificate of Conformity:** Conformity certificates must state under which INEN standard the product was manufactured.
- H. **Certificate to Foreign Government:** AGROCALIDAD requires that the certificates state that the product is free for sale in its country of origin.
- Sanitary Certificate for Exports: AGROCALIDAD requires that information regarding
 pasteurization process and temperature is included on this certificate and contain attestation
 that the product comes from raw material from an area free of diseases and that it is safe for
 consumption.

Section IV. Government Certificates Legal Entry Requirements

- A. **Certificate of Free Sale:** A certificate of free sale is required for sanitary registration procedures. Once the product obtains its sanitary registration, ARCSA issues a new certificate, which is utilized to nationalize the imported product. A sanitary registration is valid for five years. A new certificate of free sale is required when renewing the sanitary registration. This certificate is normally issued by a U.S. state's health department in the state where the product is manufactured. An *apostille* certificate must be affixed to the original certificate.
- B. **Phytosanitary Certificate (nuts and dried fruits):** A certificate is required for the sanitary registration of: 1) walnuts without shell; 2) almonds; 3) hazelnuts; 4) raisins; 5) prunes, and; 6) pine nuts for human consumption that have not undergone a transformation process. A

- phytosanitary certificate is needed for each shipment. An <u>apostille</u> certificate must be affixed to the original certificate.
- C. Organic Certificate: Certificates from accredited institutions are required. For U.S. products, USDA's organic certificate is the most reliably recognized certification. A new organic certificate is required when renewing the sanitary registration. An <u>apostille certificate</u> must be affixed to the original certificate.
- D. **Phytosanitary Certificate:** USDA's APHIS issues U.S. phytosanitary certificates (form 577). These certificates must be signed and stamped by an APHIS accredited official. Normally these certificates are valid for 90-days and for a single shipment. Certificates must be issued in accordance with protocol requirements.
- E. **Sanitary Certificate:** The Food Safety and Inspection Service (FSIS) issues certificates for animal products such as meat and meat products; APHIS issues certificates for different products such as eggs. Forms utilized include FSIS form 9060 and APHIS forms 16-4. A single use original certificate must accompany the product at the time of entry.
- F. **Zoo-Sanitary Certificate:** USDA APHIS issues Sanitary Certificates (form 7001). Forms must be signed and stamped by an accredited APHIS veterinarian. Certificates must be issued in accordance with protocol quarantine requirements for the particular species. The original certificate must accompany the animal at the time of entry.
- G. **Certificate of Conformity:** Certificates of conformity must be issued by an organization accredited by the <u>Ecuadorian Accreditation Service</u> (*Servicio de Acreditación Ecuatoriano*).
- H. **Certificate to Foreign Government:** AGROCALIDAD requires a certificate in order to register animal feed and supplements. Registration is a mandatory prerequisite for the import of these products; the validity of the registration is two years. Once the product is registered, import permits will still be required but this certificate will not be required again during the registration's duration. AGROCALIDAD requires certificates to be issued by the U.S. Food and Drug Administration. An *apostille* certificate must be affixed to the original certificate.
- Sanitary Certificate for Exports: The Agricultural Marketing Services (AMS) issues this
 certificate for dairy products. A standard language is currently being negotiated to create a
 standardized certificate. The original certificate must accompany the products at the time of
 entry.

Section V. Other Certification/Accreditation Requirements

Sanitary Notification: ARCSA requires sanitary notification to ensure food safety. For more information about food and beverage sanitary notification and the ways to obtain it, see FAS Quito's FAIRS Ecuador Annual Country Report 2021.

Meat and Dairy Plants Accreditation: AGROCALIDAD requires the registration of meat production and processing plants prior to issuance of import permits.

Poultry Farms: AGROCALIDAD requires the registration of poultry operations producing eggs and meat and meat products for export to Ecuador. Ecuador reserves the right to request a biosecurity certification.

Livestock Genetics Export Facilities: AGROCALIDAD requires that livestock genetics facilities, and quarantine facilities in the case of live animals, be registered prior to it issuing import permits.

Products for Animal Consumption: AGROCALIDAD requires the registration of plants where feed or products used on animals are produced prior to issuance of import permits.

For further information on plants registrations with AGROCALIDAD see our FAIRS Ecuador Annual Country Report 2021.

G. Certificate of Conformity: N/A

H. Certificate to Foreign Government:

I. Sanitary Certificate for Exports:

UNITED STATES OF AMERICA

SANITARY CERTIFICATE FOR EXPORTS

Country of Origin: USA
Certification Authority: U.S. Department of Agriculture, Agricultural Marketing Service
Reference Number of this Certificate: DX-800698839-8

I. Exporter (Name and Address)

II. Identification of the Dairy Products (Information Supplied by the Manufacturer or Exporter)

Product Description:

Condition or Kind of Treatment pasteurized

Type of Packaging: 25 kg. bag Number of Packages: 1600

Total Net Weight: 40000 kg
Required Temperature, Storage and Transportation: ambien

Validity Date (Shelf Life): May 18, 2020

III. Origin of the Products. (Information Supplied by the Manufacturer or Exporter)

Plant#:

Plant #:

Plant#

IV. Product Destination: (Information Supplied by the Manufacturer or Exporter)

Origin Baltimore

Destination:

Marinia de la lasta de la Caracia.

ECUADOR ECUADOR

Method of Transport: ocean

V. Sanitary Certification

(1) The United States of America is free from Foot & Mouth Disease and Rinderpest

(2) The product was manufactured in facilities inspected and approved by the competent authority and subjected to regular audits or inspections aimed at ensuring that the processing is properly and hygienically carried out, to produce a product that is fit for human consumption.

(3) The product was manufactured from milk or milk products that received a pasteurization treatment or adequate safeguards have been taken with the aim of avoiding public health hazards arising from pathogenic organisms associated with milk.

(4) To the best of our knowledge, the product contains no harroful levels of contaminants.
