Date: 12/22/2006

GAIN Report Number: CH7001

China, Peoples Republic of

Trade data - Multiple commodities only

January to November

2006

Approved by:

Maurice House
FAS Beijing

Prepared by:

Bao Liting

Report Highlights:

This report presents China Customs agricultural, fishery, and forestry commodity trade data recorded from January to November 2006. Year to date agricultural, fishery, and forestry imports were \$38.1 billion of which, \$7.3 billion originated from the United States. Leading imports from the world were soybeans, cotton, natural rubber, untreated wood, and palm oil. China's agricultural, fishery, and forestry exports were \$35.9 billion, primarily processed aquatic products and woodenware. China's top twenty-five agricultural, fishery, and forestry import and export commodity categories have remained relatively consistent with previous months.

Includes PSD Changes: No

Disclaimer

The Agricultural Affairs Office at the U.S. Embassy in Beijing provides this report for information purposes only. Readers should be aware that China Customs data in this report will not match other countries' export statistics due to the timing of exports (e.g., trade recorded in an exporting country in one month may not show up in China's data until the following month). Furthermore, values from one country to another will vary due to disparity in recording methods (e.g., FOB vs. CIF/landed price). Also, inconsistencies may exist as a result of Hong Kong or Macau re-export trade to or from China. Finally, some inconsistencies may result from different classification of goods (e.g., hard wheat from one country may be classified as durum by China).

"HTS" refers to Harmonized Tariff System. At the two, four, and six-digit level, tariff line items/descriptions for all countries are harmonized; more precise categories may differ between countries. Commodity descriptions are increasingly precise as the number of digits increase.

Additionally, it is useful to recognize that trade data for many of these commodities are more accurately depicted on a marketing year basis, as reported in individual commodity reports.

Agricultural commodities refer to those commodities identified in Annex I of the Uruguay round of agricultural negotiations. Fishery commodities refer to commodities recognized in HTS Chapters 03.02 through 03.07, 16.04, and 16.05. Forestry commodities refer to HTS codes referred to in U.S. Trade Reports for Forest Products excluding pulp and paper.

Highlights

China Customs Reported Trade (January – November, 2006)		
	All Commodities	Ag. Fish, and Forestry
Imports from World:	\$ 718.7 billion	\$ 38.1 billion
Imports from U.S.:	\$ 54.0 billion	\$ 7.3 billion
Exports to World	\$ 875.2 billion	\$ 35.9 billion
Exports to U.S.:	\$ 184.8 billion	\$ 5.8 billion

Source: China Customs Data, January to November

The United States remains China's largest supplier of agricultural, fishery, and forestry products. The total imports value of these commodities through November was \$54.0 billion, which increased 15.9 percent in comparison to the same time last year. November thus witnessed the highest percentage increase in the value of China's agricultural, fishery, and forestry imports from the United States since December 2004. At the six-digit HTS level, the top twenty-five import and export commodity categories for China have remained relatively consistent with previous reports. China's cotton imports (\$2234 million) from the United States become the highest value import. China's soybeans imports (\$2188 million) from the United States follow as the second, which are down 17 percent in comparison with the previous year among this month's top twenty-five import value commodities.

At the six-digit HTS level, among the five highest value import of any agricultural or non-agricultural commodity from the United States, cotton (\$2234 million) ranked the third and soybeans (\$2188 million) ranked the fourth.

China's \$7.3 billion in agricultural, fishery, and forestry imports from the United States surpasses total imports from more than 200 individual countries/customs territories including: Canada (\$6.9 billion), United Kingdom (\$5.9 billion), Oman (\$5.4 billion), Chile (\$5.1 billion), and Belgium (\$3.9 billion).

FAS China forecasts China's import value and volume of U.S. commodities will continue growing and the market remains a high priority for exporters of U.S. agricultural, fishery, and forestry commodities.
