Date: June 18,2020 Report Number: SN2020-0005

Report Name: Retail Foods

Country: Singapore

Post: Singapore

Report Category: Retail Foods

Prepared By: Alice Kwek

Approved By: William Verzani

Report Highlights:

The Singapore food retail sector is highly developed and competitive. The industry is comprised of a range of large supermarkets/hypermarkets, convenience stores, "mom and pop" traditional stores, and specialty retailers. Industry analysts report total retail food sales surpassed \$6 billion USD in 2019. The sector is dominated by three key players: the NTUC Fair Price Cooperative, Dairy Farm Group, and Sheng Siong Supermarket Chain. Top prospective U.S. products for the Singaporean food retail market include dairy products, processed vegetables, snack foods, meats, wine and beer.

Market Fact Sheet: Singapore

Executive Summary

Singapore's highly import dependent, multi-billiondollar food industry is driven by robust consumer spending, high disposable incomes, and intense urbanization. The country's trade and regulatory policies are focused on ensuring consistent foreign supply of safe, high quality food and agricultural products. Singapore's total agricultural product imports in 2019 reached \$10.1 billion USD, roughly 10% of which was sourced from the United States.

Imports of U.S. Consumer-Oriented Products

In 2019, the United States was Singapore's second largest supplier of consumer-oriented food and beverage products, with total sales reaching \$638 million USD for the year. Top U.S. products in the

Retail Foods

Singapore's retail foods sector is highly developed and very competitive, with total sales in 2019 reaching over \$6 billion USD. The sector is dominated by three key players: NTUC Cooperative, Dairy Farm Group, and Sheng Siong Supermarket Chain.

Food Processing

The Singaporean food processing industry is relatively small. However, almost all raw materials or ingredients used in the processing industry are imported. Total industry output value in 2019 reached almost \$8.3 billion USD. market include dairy, fresh fruit, processed vegetables, poultry, and beef.

Hotel, Restaurant and Institutional

Singapore has a highly developed and competitive hotel, restaurant and institutional (HRI) sector. Singaporeans are some of Asia's top spenders on dining out. In 2019, the country's tourist receipts topped \$20 billion USD, of which almost \$2 billion was derived from food and beverage sales.

SECTION I. MARKET SUMMARY

The Singapore food retail sector is highly developed and competitive. The industry is comprised of a range of large supermarkets/hypermarkets, convenience stores, "mom and pop" traditional stores, and specialty retailers. According to industry analysts, the country's food retailers surpassed \$6 billion USD in sales in 2019, with forecasted sales to reach \$7 billion by 2023. The sector is dominated by three key players: the NTUC Fair Price Cooperative, Dairy Farm Group, and Sheng Siong Supermarket Chain.

Food Retailers in Singapore

	 Singapore's largest retailer (supermarkets, hypermarkets, gas marts and convenience stores) Market share of 35 percent
NTUC FairPrice	 Retail Format: -FairPrice, FairPrice Finest, FairPrice Xtra, and FairPrice Xpress supermarkets/hypermarkets -Cheers convenience stores
	Procures from consolidators, distributors, local importers, and direct from exporters
Dairy Farm International	 Singapore's 2nd largest retailer (supermarkets, hypermarkets, gourmet stores and convenience stores) Market share of 15 percent Retail Format: Cold Storage, Market Place, and Giant supermarkets -7-11 convenience stores Procures from consolidators, distributors, local importers, and direct from exporters
Sheng Siong	 Singapore's 3rd largest retailer Retail Format: Supermarkets with "wet & dry" market experience Located across the island, mostly in suburban neighborhood areas Procures from distributors, local importers, and direct from exporters

Other smaller retailers include:

- Online grocers: <u>*RedMart*</u> and <u>*Prime Now*</u>
- <u>*Hao Marts*</u> with 45 outlets, mainly located in residential areas, offering price competitive products.
- <u>Prime Supermarkets</u> with 20 stores, mainly located in suburban neighborhood areas, targeting budget-conscious consumers.
- The Japanese retail stores <u>Meidi-Ya Singapore</u> and <u>Isetan Supermarket</u>.
- <u>Mustafa Supermarket</u> in "Little India" which imports from multiple countries (including the United States)
- Traditional markets and "Mom and Pop" grocery stores.

Sector Trends

- According to Euromonitor, Singapore's food retail sector continues to flourish as a result of robust demand for premium products and increased interest in home cooking.
- Health and wellness trends continue to be highly prevalent in 2020. Also, the Singapore Government is intensifying efforts to promote healthy eating and living.
- Online grocery shopping will continue to flourish as a result of the COVID-19 pandemic.
- Brand disloyalty or brand switching has been on the increase. According to the Nielsen's Insight March 2020 report, more consumers are willing to try new brands, and/or switch for "value for money" food and beverage products.
- Convenience is a key consideration in Singapore, especially for time-strapped working consumers. The preference is towards modern grocery retailers that offer one-stop shopping for consumers (with some stores operating 24 hours).
- There are an increasing number of independent specialty retail stores selling premium gourmet and/or organic and wholesome/natural food products.
- Singapore is experiencing high saturation in convenience stores. As many convenience stores are located near each other, competition is intense. To reduce costs, many convenience store operations are making use of cutting-edge technology to pilot unmanned stores/kiosks.

Road Map for Market Entry

U.S. exporters of food and agricultural products should consider the following when planning to enter the Singapore market:

- Analyze Singapore food laws, packaging & labeling requirements and importer criteria for entry into the Singapore market. Detailed information on Singapore regulations and requirements can be found by accessing the <u>FAS/Singapore Food and Agricultural Import Regulations & Standards Country Report</u>.
- Review the types of U.S. products that can be readily targeted in the market. Consider the price competitiveness of U.S. products compared to similar products available in Singapore.
- Participate in regional trade shows and trade missions by tapping into the resources offered by <u>State and Regional Trade Associations</u>.
- Develop links with local importers that target the major retailers. U.S. exporters are advised to appoint local distributors or at least a local representative to help guide them through the requirements of Singapore food regulations and local trading practices.

- After establishing links with importers, strive to educate them (in person if possible) on the qualities of your product/s and supply chain.
- After establishing trade agreements with local importers, conduct product promotions with endusers. This type of marketing event is particularly effective during festivals and peak seasons (Chinese New Year, Christmas, etc.).
- Provide technical assistance (e.g. handling techniques, chef trainings and product formulations) to end-users.
- Maintain strong communication with your local importer to ensure all certificates and import permits are valid and up to date.

SECTION II. NATIONAL FOOD STANDARDS & TRADE REGULATIONS/PROCEDURES

The Singapore Food Agency (SFA) is the national authority responsible for food security and safety matters in the country. Established in April 2019, SFA has assumed all food-related regulatory responsibilities from its predecessor, the Agri-Food and Veterinary Authority (AVA).

Several types of food/food products entering Singapore must originate from establishments approved by SFA. Additionally, multiple types food/food products, including meat and meat products, processed eggs, fresh table eggs, and poultry, require proper accreditation and approved procedures with SFA. Overseas establishments that supply these products are required to apply for accreditation with SFA through the supplying country's competent authorities.

For more details on export requirements to the Singapore market, please refer to the <u>USDA Food Safety</u> and <u>Inspection Service Export Library</u>.
