Export prices of most grades of rice decreased around one percent from the previous week due to the weakening of the Thai baht. The Thai baht further weakened to 33.58 baht/\$1.00 from the previous week's exchange rate of 33.50 baht/\$1.00. Rice trading has slowly resumed following the Thai New Year holiday. Rice exporters are reportedly fulfilling contracted shipments of white and parboiled rice, mainly to African countries.

Note on data: Export figures since March 22, 2002, do not include fragrant rice. In addition, between May 1, 2013, and December 18, 2016, export data did not include 25% -100% grade white rice exports as the reporting authority was moved from the Thai Board of Trade to the Ministry of Commerce's Office of Commodity Standards, which does not release official export data. FAS/BKK reports only the official export numbers available from the Board of Trade of Thailand. The reader should bear in mind these differences when comparing historical data with current data.
