Market Tone

Movements of export and domestic white rice prices were essentially flat as prices declined less than 1 percent. Thai rice exporters are unlikely to win the Philippines' January 16 tender of 500,000 tons of low quality rice (25% white rice) for February - April delivery as the prices are still comparatively higher than Vietnamese rice. Vietnamese white rice is currently priced at approximately \$260/MT, which is nearly \$20-25/MT cheaper than Thai white rice. Also, Iranian buyers have yet to conclude deals for premium white rice with Thai rice exporters since the recent government-to-government deal of 200,000 tons. However, Iraq is reportedly inquiring for nearly 200,000 tons of premium 5% grade white rice, but Thai rice exporters are reluctant to sell due to strict specifications. Some exporters experienced difficulties in the inspection process from last year's sales to Iraq. Meanwhile, fragrant rice prices continued to increase following seasonal demand from China and Malaysia. The prices are expected to ease by the end of next month.

The following are the reported rice exports (as is basis):

WEEK ENDING	QUANTITY	4-WK AVG	YEAR TO DATE	YEAR AGO	YEAR TO DATE AS % OF LAST YEAR

Note on data: Export figures since March 22, 2002, do not include fragrant rice. The authority to report fragrant rice exports was moved from the Thai Board of Trade to the Ministry of Commerce's Office of Commodity Standards, which does not release official fragrant rice export data. FAS/BKK will report only official export numbers from the Board of Trade for non-fragrant and from the Office of Commodity Standards for fragrant rice when available, but the reader should bear in mind the difference between the data.

Unofficial exports (excluding fragrant rice) for Jan. 8-14, 2007 totaled 69,794 tons, up 35,803 tons from the previous week's total. Export during Jan. 1-14, 2007 totaled 103,784 tons, as compared with 169,681 tons in the previous year.

According to the Department of Foreign Trade, Ministry of Commerce, total rice exports (including fragrant rice) during Jan. 1 – Dec. 31, 2006, amounted to 7,415,519 tons, up 2 percent from 7,261,443 tons in the previous year.
