Agricultural State Program 2013-2020 Amended in 2017

Report Categories:

Agricultural Situation

Agriculture in the News

Approved By:

Robin Gray

Prepared By:

FAS/Moscow Staff

Report Highlights:

On March 31, 2017, the Russian government adopted the new version of the State Program for the Development of Agriculture and Regulation of Agricultural Commodities Markets in 2013-2020 (hereinafter – State Program). This State Program was adopted in 2012 and came to force in January 2013. Since 2013 the State Program was amended in April 2014 with the serious reduction of projected financing in 2015 and 2016 but with a gradual increase in financing for the period 2017-2020. In March 2017, the State Program was amended again. After the 2017 amendments, the total cost of the State Program 2013-2020 will increase to 1.55 trillion Rubles, 2.6 percent higher than the original plan adopted in 2012. This increase is attributable to actual financing of the State Program in 2015 and 2016 was higher than planned, while the projected financing of the State Program in 2018, 2019 and 2020 will decrease. The March 2017 Amendments also changed the structure of the State Program, merging sub-programs in order to give provinces more flexibility in using federal funds. The new edition of the State Program also emphasizes import substitution in food supply and enhancement of Russian agricultural exports.

General Information:

Russian Government Resolution No. 396 of March 31, 2017, amended the State Program for the Development of Agriculture and Regulation of Agricultural Commodities Markets in 2013-2020 (hereinafter – State Program). The State Program was adopted in 2012 and came into force January 2013. Since 2013, the State Program was amended in April 2014 with a serious reduction of projected financing for 2015 and 2016 compared with the original 2012 version, but with a gradual increase in financing for the period 2017-2020. FAS Moscow reported on the original version of the State Program and on the 2014 amendments in the following GAIN reports:

- [Agriculture Development Program 2013-2020_11-6-2012.pdf](#);
- [Amended Agriculture Development Program 2013-2020_5-6-2014.pdf](#).

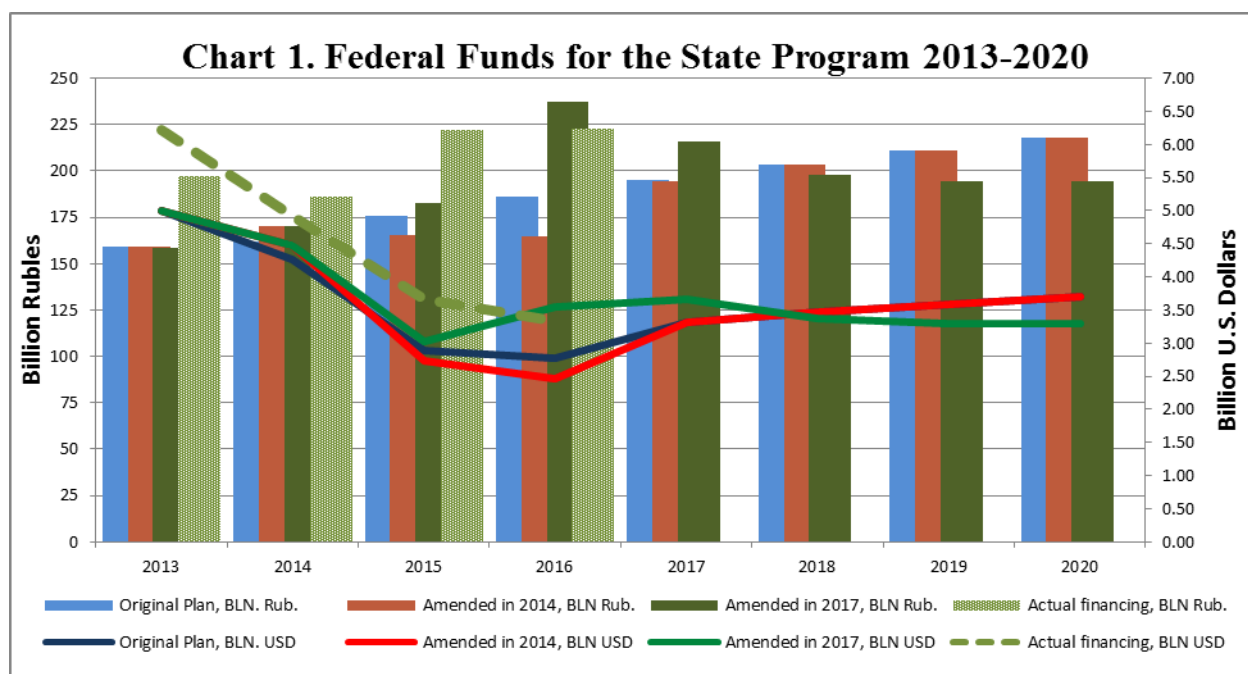

In 2015 and 2016, the macro-economic situation in Russia worsened: access to foreign loans decreased, the ruble depreciated against the U.S. Dollar, and imports of inputs for agricultural production dropped. The Russian Government introduced the food import substitution plan and, despite the tight budget, increased financing of agro-industrial complex programs in 2015 and 2016 compared with the planned scheme. The amendments to the State Program that were adopted on March 31, 2017, increase the total cost of the seven-year State Program 2013-2020 to 1.55 trillion Rubles, 2.6 percent higher than its original cost envisaged in 2012. The increase is due to the fact that the actual financing of the State Program was higher than planned in 2015 and 2016. However, the projected financing of the State Program is reduced for 2018, 2019 and 2020.

The March 2017 Amendments also include the following significant changes in the structure of the State Program:

- The number of sub-programs in the State Program changed from ten to seven, and the number of the state support measures within these sub-programs dropped from 51 to 23. The four federal targeted programs oriented towards state support of development of rural area and improvement of agricultural lands remain unchanged;
- The sub-programs in the previous edition were industry-oriented (support of crop production, livestock production, beef cattle industry, etc.), while in the new edition of the State Program the sub-programs are oriented towards support of financial system of agro-industrial complex (hereinafter – APK) and give provinces more flexibility in using federal funds;
- The new edition of the State Program also emphasizes import substitution in food supply and enhancement of Russian agricultural exports.

In Annex 1, FAS Moscow compares and contrasts the structure of the previous edition of the State Program (before 2017) with the new, 2017 amended State Program.

The comparison of the budget of the original (2012) State Program with the intermediate (2014) and the current (2017) edition of the State Program is very general, because in 2017 the structure of the State Program changed. The comparison of budgets (federal funds) is provided in Chart 1.

Source: FAS/Moscow based on Ministry of Agriculture's data.

Note: Calculation of Federal Funds in U.S. Dollars is based on the Russian Central Bank's average exchange rates for 2013-2016 (2013 – 31.82 Rubles per \$1, 2014 – 37.97 Rubles per \$1, 2015 – 60.90 Rubles per \$1, 2016 – 66.90 Rubles per \$1. For calculation purposes, FAS/Moscow assumes that the exchange rate in 2017 and in 2018 – 2020 will be the same as in the first quarter of 2017 – 58.81 Rubles per \$1.

The text of Resolution No. 396 of March 31, 2017, and the text of the new edition of the Program 2013-2020 was posted on the Internet (in Russian): <http://programs.gov.ru/Portal/programs/passport/27>.

The unofficial translation of Resolution No. 396 of March 31, 2017, is given in Annex 2. The translation of the passport of the new edition of the State Program is provided in Annex 3. Annex 4 includes data on the federal financing of the State Program 2013-2020 by years in million Rubles.

Government of the Russian Federation
Resolution
No. 396 of March 31, 2017
Moscow

On Amendments to the State Program for the Development of Agriculture and Regulation of
Agricultural Commodities Markets in 2013-2020

The Government of the Russian Federation decrees:

1. Approve the attached amendments to the State Program for Development of Agriculture and Regulation of Markets of Agricultural and Food Products in 2013-2020 that was approved by the Resolution of the Government of the Russian Federation No. 717 of July 14, 2012 "On the State Program for the Development of Agriculture and Regulation of Agricultural Commodities Markets in 2013-2020" (Collection of legislation of the Russian Federation, 2012, No. 32, art. 4549; 2013, No. 30, art. 4110; 2014, No. 18, art. 2161; 2015, No. 1, art. 221; 2017, No. 4, art. 653);
2. The decisions of the Government of the Russian Federation, according to the attached list, are null and void.
3. The Ministry of Agriculture shall post the State Program for Development of Agriculture and Regulation of Markets of Agricultural and Food Products in 2013-2020 with amendments approved by the present Resolution on the Internet web-site of state programs of the Russian Federation within two weeks after the date of its official publication.

Chairman of the Government of the
Russian Federation

D. Medvedev
