Report Highlights:

On July 31, 2019, the Eurasian Economic Commission (EEC) issued Decision No. 127, establishing tariff-rate quotas (TRQs) and respective volumes for imports of meat, poultry, and whey into the Eurasian Economic Union (EAEU). In line with the WTO commitments, Russia will eliminate its pork TRQs as of January 1, 2020, while Russia's TRQ volumes for other products will remain unchanged from 2019. Belarus and Kazakhstan TRQ volumes also remained unchanged, and as in previous years, Armenia will have no TRQs in 2020. As for Kyrgyzstan, it will slightly increase access for poultry while reducing its beef TRQ in 2020.

General Information:

On July 31, 2019, the Eurasian Economic Commission (EEC) issued [Decision No. 127](#), “On Establishment of Tariff-Rate Quotas for Import of Certain Agricultural Goods into the Customs Territory of the Eurasian Economic Union (EAEU¹) in 2020, as well as Volumes of Tariff-Rate Quotas for Import of these Goods in the Territories of the Eurasian Economic Union Member States.”

In line with Russia’s WTO commitment, Russia will eliminate its pork TRQs as of January 1, 2020. It should replace them with a 25 percent flat rate for imported pork. The Russian 2020 TRQ volumes for all other products will be the same as in 2019, which appears to be consistent with its WTO commitments. As in the previous years, the EEC Decision on 2020 TRQs does not specify country-specific allocations for Russia but rather leaves it up to the country to “ensure distribution of the tariff-rate quotas established by the present Decision among third countries in accordance with Russian legislation and Russia’s commitments within the framework of the World Trade Organization.”

The 2020 TRQ volumes for Belarus and Kazakhstan are unchanged from 2019, while the Kyrgyz Republic will decrease access for fresh, chilled, and frozen beef in 2020 from seven to five thousand MT. The 2020 pork TRQ for the Kyrgyz Republic will remain the same as in 2019 at 3.5 thousand MT, while its poultry TRQ will inch up from 56 thousand MT in 2019 to 58 thousand MT in 2020.

EEC Decision No. 127 of July 31, 2019, does not establish any TRQs for Armenia since it has lower WTO bound tariff rates than the EAEU TRQ tariff rates and has negotiated step-by-step increases through 2022².

The announced TRQ allocations will enter into force as of September 1, 2019.
