Section V. Other Certification/Accreditation Requirements

Additional details on food import requirements and procedures, including import permit, product registration, and food labeling are available in the Food and Agricultural Import Regulations and Standards report at www.fas.usda.gov.

In addition, both the DOA and the DLD require import permits. The procedure for import permit issuance has been, at times, non-transparent for certain pork and poultry products. The DLD agreed in principle (although not officially in writing) to accept “system audits” for exporting facilities instead of its earlier requirement of “separate plant audits.” However, the DLD added the requirement that exporting countries of animal and animal products must complete the DLD’s questionnaire for approval before the DLD send its team to conduct on-site inspections for each exporting country.

AMS has approved _____ USDA establishment number _____ under the EV Program for Thailand. AMS has reviewed the product list for this company, dated March 20, 2006. The products listed are produced under an approved EV Program for Thailand.

This establishment meets the specified product requirements outlined in *ARC 1030N Procedure* through an approved USDA Quality System Assessment (QSA) Program. The USDA QSA Program ensures that the specified product requirements are supported by a documented quality management system and that product is identified and traceable through the system. As such AMS attests to the following:

The exported beef to Thailand fulfilled all of the required conditions described in the Export Verification Program and has been handled at an establishment with an approved EV Program.

The product was obtained from animals less than 30 (thirty) months of age.

The product contains no specified risk materials including brain, skull, eyes, trigeminal ganglia, spinal cord, tonsils, distal stern, vertebral column (excluding the vertebrae of the tail, the transverse processes of the thoracic and lumbar vertebrae, and the wings of the sacrum), and dorsal root ganglia.

NOTE: *This document must be attached to the original FSIS Export Certificate prior to being presented to FSIS for final review.*
