Report Highlights:
This report provides information on the export certificates required by the Government of Croatia for processed food, agricultural food products, live animals, products for animal consumption and feed. It should be noted that due to Croatia’s rapid harmonization of food legislation with EU legislation, information in this report should be double checked for obsolescence with the USDA office in Croatia.

While every possible care has been taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. **FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY’S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.**
